INSTITUTIONS

The Division of Institutions oversees three state institutions, 15 county regional facilities, four private prisons, the Classification and Records Division, Treatment and Programs Division, and Agricultural Enterprises. The division is under the leadership of Deputy Commissioner Archie Longley.

Mississippi State Penitentiary

Earnest Lee, Superintendent
Post Office Box 1057
Parchman, MS 38738
662-745-6611

The Mississippi State Penitentiary (MSP) opened in 1901 and is the state's largest and oldest institution. It is located on approximately 18,000 acres at Parchman in Sunflower County. It can house 4,648 beds, which consist of 58 support buildings and seven different housing units, ranging from 56 beds at Unit 42 (the hospital) to 1,521 beds at Unit 29.

MSP houses only male offenders who are classified as protective custody, administrative segregation, cell telephone management, administrative long-term segregation, and death row. All three custody levels - minimum, medium, and close custody - are handled at the prison. All male death row offenders are housed at Unit 29. MSP offenders provide more than 100,000 hours of free labor each year to adjacent municipalities and counties and assist other state agencies. The institution was reaccredited by the American Correctional Association in November 2011.

MSP is also the base for the Agricultural Enterprises Division. In 2014, 5,298 acres of vegetables, rice, wheat, soybeans and corn were farmed.

Central Mississippi Correctional Facility

*Johnnie Denmark, Superintendent
Post Office Box 88550
Pearl, MS 39208
601-932-2880

The Central Mississippi Correctional Facility (CMCF) sits on 171.3 acres in Rankin County. It is the second oldest state facility, having opened in February 1986. It includes 13 housing units with a capacity of 3,665 beds. The institution was reaccredited by the American Correctional Association in November 2011.

CMCF serves as the receiving and classification facility. All offenders sentenced to the Mississippi Department of Corrections are brought to CMCF, except for male death row inmates who are processed at MSP. Upon arrival at CMCF after sentencing, each offender undergoes a needs assessment and is screened, tested for STDs, HIV, and other medical conditions, provided a psychiatric evaluation and questioned regarding his or her educational level. The results, along with the offender's conviction, help establish the offender's classification.

Also, of the three state prisons, CMCF is the only one to house female inmates, including minimum and medium security, close custody and death row. The population also includes minimum and medium custody male offenders, some maximum custody offenders (close custody), male offenders with special needs and male offenders who are disabled and require medical treatment in the Jackson area.

In December 2012, a Youthful Offender Unit opened on the grounds of CMCF. The unit is for offenders 17 years and younger and vulnerable 18- and 19-year-olds, and has its own staff.

*Michael White, director of private and regional prisons and compliance at Central Office, succeeded Denmark as superintendent at CMCF on Dec. 1, 2013.

South Mississippi Correctional Institution

*Ron King, Superintendent
Post Office Box 1419
Leakesville, MS 39451
601-394-5600

The South Mississippi Correctional Institution (SMCI), located in Greene County, is the newest state facility. It opened in 1989 and occupies approximately 360 acres in Leakesville. There are 16 housing units at SMCI with a capacity of 3,282 beds.

SMCI houses male offenders classified as minimum, medium and close custody levels as well as protective custody and long-term segregation.

SMCI is the first prison in the state to receive accreditation from the American Correctional Association.

It was reaccredited in August 2011. It also is the first state prison in Mississippi to be accredited by the National Commission on Correctional Health Care.

SMCI is the only state institution with a para-military “boot camp program.” The Regimented Inmate Discipline (RID) Program seeks to divert offenders from criminal behavior and instill work ethics through rehabilitative and treatment elements and community service work projects.

*Johnnie Denmark became superintendent of SMCI on Dec. 1, 2013, replacing Ron King.

MISSISSIPPI PRISON AGRICULTURAL ENTERPRISES

Mississippi Prison Agricultural Enterprises (MPAE) is responsible for the farming operations at Mississippi State Penitentiary (MSP) at Parchman and at the South Mississippi Correctional Institution (SMCI) in Leakesville. The majority of the farming activity takes place at MSP.

The MPAE program uses offender labor in all areas to decrease inmate idleness and to cut budget costs for taxpayers. Minimum and medium custody offenders can participate in planting, harvesting and processing the crops. During FY 2014, offenders worked 270,000 hours in the program.

On a daily basis, MPAE works approximately 110 Minimum-Custody offenders. During the vegetable season, MPAE will work an additional 100 offenders per day in the vegetable fields and processing.

MPAE is comprised of row crop, vegetable crop, farm shop, feed mill, poultry, processing and cold storage operations.

For the crop year 2014, MPAE planted approximately 1,159 acres of vegetables, 95 acres of rice, 561 acres of

corn, 1,115 acres of wheat and 2,368 acres of soybeans.

The corn is used by the feed mill in the production of feed for the poultry operation. During FY 2014, the feed mill produced nine different feed rations for chicken consumption and produced 1,160 tons for the price of livestock at \$378,485.

Approximately 10,000 bushels of the rice harvested each year is milled by MPAE and fed to the offenders.

The processing operation is comprised of both hand processing and machine processing. Processed vegetables are blanched and frozen in 10-pound bags for offender consumption.

The cold storage operation stores all frozen vegetables processed by MPAE and all frozen products purchased from outside vendors. It is responsible for filling orders for the three main facilities and the Community Work Centers and Restitution Centers. The cold storage operation handles in excess of 6 million pounds of product annually.

The poultry facility has 24,000 layer hens. For FY 2014, a total of 158,640 dozen eggs were delivered to MDOC

Food Services with a non-cash value of \$200,815.

In FY 2014 non-cash sales for vegetables and egg sales were \$611,068. The FY 2014 total pounds of vegetable non-cash sales were 1,008,403. There were 158,640 dozen non-Cash egg sales.

Vegetable value is based on the USDA Atlanta Market Report. All processed vegetables and eggs were provided to the MDOC Food Service Department. MPAE sold vegetables to employees to generate \$3,027.00 in cash.

The inventory of commodities carried over from FY 2014 had a value of \$562,486. This figure includes feed mill inventory, seed, fertilizer, and chemicals not expended.

The work staff includes 16 positions. MPAE has two contract employees with MDOC.

ALCOHOL & DRUG TREATMENT PROGRAMS

The mission of the Alcohol and Drug (A&D) Program is to provide treatment and rehabilitation services to offenders who have a history of substance abuse problems or who commit alcohol and drug related crimes. The goal is to correct the offender's attitude and behavior that support criminal thinking.

These services are provided to offenders who are court ordered alcohol and drug treatment, parole pending completion, Intensive Supervision Program, MDOC referrals or volunteer.

The Alcohol and Drug Program also provides aftercare information and referrals as needed regarding primary and secondary A&D treatment facilities, Alcoholics Anonymous, Narcotics Anonymous and Cocaine Anonymous meetings and home placement.

In FY 2014, a total of 3,297 offenders enrolled/served in A&D programs with 1,413 completions.

A&D Programs in Facilities

Mississippi State Penitentiary provides a long-term program for offenders with at least six to 30 months remaining on their sentence. The Alcohol and Drug Therapeutic Community Treatment Center units house 432 therapeutic treatment beds, group rooms and classrooms with clinical staff office space adjacent to each housing unit.

A traditional 12-week A&D program based on the principles of Alcoholics Anonymous is provided for special needs (disability) offenders. A 12-week basic A&D education only program is provided to eligible offenders housed in high risk, lockdown, and protective custody units.

Central Mississippi Correctional Facility provides both a 12-week traditional A&D program and a long-term program (6 months to 12 months) for female offenders. In addition, a 12-week treatment program is available

for special needs (disability) male offenders.

South Mississippi Correctional Institution provides both a traditional 12-week A&D program and a long term (6 month) program for general population offenders. An A&D component is provided in the Regimented Inmate Discipline (RID) Program.

The Residential Substance Abuse Treatment (RSAT) Program is operated in the Flowood, Pike and Quitman Community Pre-Release Centers for offenders who are within six months to one year of release. The offenders provide work in the community during the day and attend A&D classes in the evening.

The Flowood Community Work Center offers a 12-week A&D program for female offenders who are expiring their sentence, paroling or are being released on Intensive Supervision Program (ISP).
