Dear Fellow Mississippians:

I am pleased to present the Mississippi Department of Corrections (MDOC) 2011 Annual Report. This report represents the scope and depth of this agency and its talented staff during fiscal year July 1, 2010 through June 30, 2011. It also provides an in-depth profile of the state's felony population and MDOC's tradition of prudent accountability and excellence in public service to the citizens of Mississippi.

I am proud of our many accomplishments during FY 2011 and am pleased to share a summary with you. These accomplishments reveal the hard work and efforts of the men and women of MDOC:

- On March 10, 2011, the United States District Court for the Northern District of Mississippi permanently dismissed the Gates case with prejudice applicable to state owned, state-operated, and private company contractor facilities housing state inmates. The court order commented on the historical significance of *Gates vs. Collier*, which has been on the court docket since 1971, and acknowledged Mississippi's strides in the area of inmate treatment and the fact that Mississippi is one of only a few states to earn accreditation from the American Correctional Association for the entire agency.
- In April 2011, the American Correctional Association (ACA) recommended re-accreditation of MDOC Headquarters. The MDOC Central Office received a recommended score for accreditation of 100 on the mandatory standards and a recommended score of 100 on the non-mandatory standards, confirming that the agency's operations, administration and management met nationally accepted corrections standards. To be awarded accreditation, the Central Office had to comply with 100% of the mandatory standards and at least 90% of the non-mandatory standards identified by ACA. This is the second time MDOC Headquarters has taken on the challenge of the rigorous ACA accreditation process.
- The Mississippi Department of Corrections has reduced the recidivism rate from 30.31% to 27.87% in the last four years. This reduction has created an estimated annual cost avoidance of \$7,145,262 to the Mississippi Department of Corrections.
- MDOC launched a six month pilot program to study the use of a house arrest tracking system that uses a combination of Global Positioning Satellite (GPS) and Advanced Forward Link Trilateration (AFLT) technology to track the location of house arrest offenders. The tracking system can be programmed to alert officers of violations of stay away/court orders, regardless of location and the offender proximity to a judge, prosecutor, witness, etc. Under the GPS pilot program, virtually all movement will be able to be tracked – both at home and throughout the community.
- During Fiscal Year 2011, educational programs offered to inmates resulted in 3,770 inmates successfully completing the following programs: General Education Development (GED) – 682, Vocational Trades – 519, Alcohol & Drug – 2,569.
- Offenders in the Community Work Centers contributed \$20,125,753 in free labor to local, county, state and non-profit charitable organizations throughout the state during Fiscal Year 2011. Offenders in the Joint County-State Work Programs also contributed \$13,466,440 in free labor to local, county, state and non-profit charitable organizations during Fiscal Year 2011.

- Last September, MDOC installed a managed-access system at the Mississippi State Penitentiary to combat contraband cell phone usage by inmates. More than a million calls and texts attempted by inmates were intercepted and successfully blocked through the end of the fiscal year. The first corrections agency in the United States to use the new technology, MDOC plans to deploy the system at the state's other prisons.
- In its seventh year, the Christian Ministry program at the Mississippi State Penitentiary has graduated 35 men with bachelor degrees in Christian Ministry.
- The Division of Victims Services (DVS), which began operation in November 2000, has registered 5,188 victims for services that include: Notification prior to an inmate's release from incarceration; Offender status; Crisis intervention; Information regarding the Crime Victim Compensation Program and Crime Victims' Rights; Liaison with law enforcement agencies and field officers; Restitution matters; Protective orders; Harassment by offenders; Support and assistance during victim/offender dialogue; Meetings with the Parole Board; Preparation/Escort services during executions.
- MS SAVIN, Mississippi's Statewide Automated Victim Information Notification Service, is a vital tool for information, providing added safety not only for individual victims, but the community as a whole. SAVIN is designed to provide registered victims/survivors real time information on state inmates and offenders housed in participating county jails. Registered users have access to timely information on offenders 24 hours a day by calling the Toll-Free number and through the internet by accessing vinelink.com. By the end of FY 2011, 80 counties are participating in SAVIN.
- Commissioner Epps was appointed to serve on the Emergency Response Interoperability Center Public Safety Advisory Committee (PSAC) for the Federal Communications Commission.
- In April 2011, Commissioner Christopher B. Epps was presented Mississippi House Concurrent Resolution 143 commending him for his stellar and dedicated service to the Mississippi Department of Corrections and for bearing the most notable distinction of being the longest serving commissioner in the agency's history, and upon his national acclaim and respect of his peers as evidenced by his election as the 102nd President of the American Correctional Association.

I invite you to take a closer look at our 2011 fiscal year in review. With continued commitment to fiscal responsibility, I look forward to the challenges we face together in the coming year.

It is an honor to serve as your Commissioner.

Sincerely,

Christopher B. Epps
Commissioner

DIVISION

COMMUNITY CORRECTIONS

Programs

The Division of Community Corrections is charged with the supervision of offenders that are still under the jurisdiction of the state. The division conducts field supervision of offenders and oversees a variety of programs that afford offenders an opportunity to re-assimilate into the community. This Division is led by Deputy Commissioner Jerry Williams.

Field Services

The Field Services component of the Division of Community Corrections is responsible for the supervision of offenders released on parole, intensive supervision (ISP), earned release supervision (ERS), medical release and those sentenced by the court to probation or ISP.

F.R.E.E. (Facing Reality Educationally and Emotionally)

The MDOC Division of Community Corrections has thirteen F.R.E.E. program coordinators located statewide that assist field officers in monitoring offender's treatment needs for substance abuse. In addition, program coordinators teach a structured life skills curriculum twice a month to assist offenders in other areas of their life that have been affected by their substance abuse problems.

Interstate Compact

The State of Mississippi participates in the Interstate Compact for Adult Offenders. Under the terms of the compact agreement, the Mississippi Department of Corrections (MDOC) provides courtesy supervision to probationers and parolees from other states in exchange for courtesy supervision of Mississippi offenders residing in other states.

Pre-Trial Diversion

The Pre-Trial Diversion program is an alternative to felony conviction in which a defendant voluntarily submits to supervision ranging from six months to three years. Charges against the offender may be dismissed if the period of supervision is successfully completed.

Intensive Supervision Program

The Intensive Supervision Program (ISP) is designed to provide a level of supervision in a community setting to offenders who would otherwise be incarcerated. Offenders are required to wear electronic monitoring equipment and are limited in most cases to employment, treatment, and worship services activities. Each offender in ISP maintains inmate status and can be immediately placed in an MDOC facility upon violation of the program.

Drug Testing

Community Corrections field officers are responsible for routine and reasonable suspicion drug testing of offenders and random drug testing of 15% of the offender population each month.

COMMUNITY CORRECTIONS

Programs

Restitution Centers

There are four Restitution Centers in Mississippi that assist residents in obtaining employment as a condition of their probationary sentence. Money earned by residents is distributed to crime victims for restitution, courts for court costs and fines, and MDOC for room and board. The remainder of the resident's wages, after taxes, goes to the resident's family or to the resident's holding account. Upon completion of the program, residents are transferred to a field officer and remain under supervision for the remainder of their probationary sentence.

Community Work Centers

The MDOC Community Corrections Division oversees 17 Community Work Centers throughout Mississippi. Minimum security inmates are assigned to these centers and are provided a gradual, re-introduction into community life. The program includes alcohol and drug counseling, Adult Basic Education and GED preparation, literacy classes and religious programs.

Each Community Work Center houses approximately 102 inmates that perform a wide range of labor at no cost to city, county and state government agencies and to school districts. This work ranges from community beautification projects to bridge and road work repair, vehicle maintenance, and water, sewer, and sanitation details.

Inmate Labor

The offenders that serve their sentences in Community Work Centers provide free labor to municipalities, counties and other state agencies. A sample of the work they perform includes highway beautification, facility maintenance, road work, and equipment maintenance. In FY 2011, the offenders in the community work centers provided entities with 3,053,285 total inmate hours, valued at minimum wage to equal \$21,967,612.05 in free labor. For the same 12 months the residents in the restitution centers provided entities with 18,201 total resident community service work hours valued at minimum wage to equal approximately \$131,000 in free labor.

Mississippi Prison Agriculture Enterprises

One mission of the farm program is to decrease inmate idleness and to cut budget costs for the taxpayer. During FY 2011 inmates worked 585,340 hours in the agriculture program.

For the crop year 2011 Agriculture Enterprises planted approximately 2,100 acres of vegetables, 126 acres of rice, 429 acres of corn, 560 acres of wheat and 2,900 acres of soybeans.

The poultry facility is in full production with a 36,000-layer capacity. A total of 528,272 dozen eggs were delivered to MDOC food services with a non-cash value of \$520,560 in FY 2011.

The inventory of commodities carried over from FY 2011 had a value of \$224,640. This figure includes feed mill inventory, seed, fertilizer, and chemicals not expended during FY 2011.

Non-cash sales for FY 2011 vegetables and egg sales were \$1,818,333. The total pounds of vegetable non-cash sales for FY 2011 was 3,093,430. Egg sales consist of 528,272 dozen.

Vegetable value is based on the USDA Atlanta Market Report. All processed vegetables and eggs were provided to the MDOC Food Service Department. MPAE sold vegetables to employees to generate cash dollars of \$11,517.36.

On June 30, 2011, the Agricultural Enterprises Special Fund had a balance of \$604,351.89. Cash income received for Agricultural Enterprises, including deposits in transit, totaled \$2,844,935.22.

Treatment Programs Alcohol and Drug

Mission Statement: The mission of the Alcohol and Drug (A&D) Program is to provide treatment and rehabilitation services to offenders who have a history of substance abuse problems or who commit alcohol and drug related crimes. The goal is to correct the offender's attitude and behavior that supports criminal thinking.

Mississippi State Penitentiary

Unit 30 A-B: The Alcohol and Drug Therapeutic Community Treatment Centers (ADTC-TC) at Unit 30 total 432 therapeutic community treatment beds. Unit 30 consists of two housing buildings (Buildings A and B), with two housing zones in each of the two buildings (Zones A & B). Each housing zone accommodates 108 offenders. Adjacent to each housing building is clinical staff office space. Group rooms and classrooms are in the Unit 30 compound.

The Therapeutic Community Program is a long-term program only. Offenders must have at least six to thirty months remaining on their sentence to enter the program.

Unit 31: This is a traditional 12-Week A&D Program based on the principles of Alcoholics Anonymous offered at Unit 31 for special needs (disability) offenders.

Central Mississippi Correctional Facility

This is a 12-week traditional Alcohol and Drug Treatment in operation for female offenders at the Central Mississippi Correctional Facility (CMCF). A long-term program (6 months to 12 months) is also available at CMCF for female offenders. In addition, a 12-week Treatment Program is also available at CMCF for special needs (disability) male offenders.

South Mississippi Correctional Institution

A traditional Alcohol and Drug Treatment Program was started in June 2000 at the South Mississippi Correctional Institution (SMCI), Leakesville, Mississippi, for general population offenders. This program is 12 weeks in duration. It was started primarily for Judicial Review cases that do not have six months remaining on their sentences upon entry to the Central Mississippi Correctional Facility (CMCF), Pearl, Mississippi, the point of entry for inmates into the Mississippi Prison System. This program also serves parole and ISP offenders. In addition, SMCI provides an Alcohol and Drug component in the Regimented Inmate Discipline (RID) Program. In September 2005, a long-term (6 months) program was started for general population offenders. In July 2006, a short-term (12 weeks) A&D program was implemented for CWC returnees. The CWC program has been changed to 4 weeks in duration.
