DEPARTMENT OF CORRECTIONS

**PELICIA E. HALL, Esq.**  
COMMISSIONER

Dear Fellow Mississippians:

I am pleased to present the Mississippi Department of Corrections 2017 Annual Report, which provides an in-depth overview of the agency and its operations during the fiscal year covering July 1, 2016, through June 30, 2017. It is an honor to serve as the Commissioner. Though I was appointed nine months into FY 2017, my previous job as chief of staff more than prepared me to continue the monumental changes we are currently undergoing from the look of our correctional officers' uniforms to the type of programs we offer our residents.

Our commitment for being fiscally responsible is as strong as ever. As such, we closed one of the four private prisons as a result of budget constraints. The agency received \$357,412,131 (\$326,079,680 in general funds and \$31,332,451 in special funds) from the Legislature. We are equally obligated to operate a safe system and have renewed efforts to reduce the amount of contraband in the system. We also closed another community work center in the name of safety and fiscal responsibility.

We are on a new course not only because of a change in MDOC leadership but also because of ongoing changes under the comprehensive criminal justice reform passed in 2014. Locking people up and throwing away the key is Corrections' past. In the coming months you will hear a lot about our expanded re-entry efforts as our emphasis shifts more toward helping our returning citizens successfully migrate back into society. The ultimate goal is to see as few as possible of the 9,086 people released this fiscal year back in our system.

The snapshot represented here includes 19,057 people in custody and 1,506 on resident status in the community. The average length of sentences, the average age and other demographic information are also included in the collection of data. During the same time period, 26,783 people were typically on community supervision in a given month.

Local, county, state, and non-profit charitable organizations benefited from \$9,685,507 of free labor during the fiscal year, showing our commitment to our communities.

As the MDOC fulfills its public safety mission, our goal is to continue moving progressively forward, generating positive outcomes for those in our correctional system.

Sincerely,

*Pelicia E. Hall*

MDOC Commissioner

# Community Corrections

# *Deputy Commissioner Community Corrections*

**Christy Guthertz**

Christine “Christy” M. Guthertz was appointed Deputy Commissioner of Community Corrections in January 2015. Prior to this appointment, she had served as the Community Corrections Director (CCD) for Region II since 2003. She has worked in numerous capacities throughout her tenure with the Mississippi Department of Corrections (MDOC). She also worked five years with Keeton Corrections, as a case manager and a facility director.

Guthertz began her career as a case manager at the Central Mississippi Correctional Facility (CMCF) in Rankin County. From there, she transferred to Community Corrections as a case manager in a community work center. She has also worked as a probation/parole officer in Rankin County. Guthertz left MDOC to work for Keeton, where she distinguished herself as “Director of the Year” in 2005. Upon returning to MDOC, she worked as a special projects officer and a compliance officer before being appointed as a CCD.

Guthertz is a graduate of Delta State University in Cleveland, Miss., with a Bachelor of Science degree in criminal justice. She is a charter member of the Mississippi Association of Drug Court Professionals (MADCP), serving as president from January 2005-May 2006; a member and past president of the Mississippi Association of Professionals in Corrections (MAPC); a member of the American Probation and Parole Association (APPA); and a member of the American Correctional Association (ACA). She received the MAPC President’s Award in 1999 and 2000.

Guthertz completed the Certified Public Managers Program in June 2003. She has served as a board member and advisory board member for several community organizations in the Jackson area. She has provided training for Leadership Jackson, the MAPC and the MADCP.

**Community Corrections** includes work centers, restitution centers, technical violation centers, and transitional housing. Also, the division is charged with the supervision of individuals who serve their sentences in the community through the following types of releases — house arrest (the Intensive Supervision Program), probation, parole, medical release, and earned release supervision (ERS).

### FACILITIES

#### *Restitution Centers*

The state's four restitution centers assist individuals under the supervision of the state in obtaining employment as a condition of their probationary sentence. They are located in Greenwood, Flowood, Jackson, and Pascagoula. Money earned by residents is distributed to crime victims for restitution, courts for court costs and fines, and MDOC for room and board. The remainder of the wages, after taxes, goes to the residents' families or the residents' holding account. Upon completion of the program, the residents are referred to a probation/parole agent for supervision and remain with the agent for their probationary sentence.

#### *Community Work Centers*

There are 10 community work centers. Minimum security residents are assigned to these centers and are provided a gradual re-introduction into community life. The centers provide alcohol and drug counseling, adult basic education (ABE) and GED preparation, literacy classes, and religious program. Returning citizens perform a wide range of labor at no cost to city, county, and state government agencies and school districts. This work includes community beautification projects, bridge and road repair work, vehicle maintenance, water and sewer, and sanitation details.

*Madison County Community Work Center*

#### *Technical Violation Center*

There are three technical violation centers — males are housed at the Simpson TVC (Simpson County) and Leflore TVC (Leflore County) and females only at the Flowood Community Work Center in Rankin County. The centers were created under House Bill 585, which took effect July 1, 2014. Individuals are sentenced to a TVC for an act or omission that violates a condition or conditions of being placed on community supervision (parole, probation or post-release supervision). The TVC is designed to address the underlying factors leading to the violation, including substance abuse.

#### *Transitional Programs*

Unlike a technical violation center, transitional centers house returning citizens released from the Department of Corrections on parole, probation or post-release supervision who need temporary housing and services that reduce their risk to re-offend. The MDOC contracts with Crossroads Outreach Ministries in Madison for females only and New Way Mississippi Inc. in Jackson.

## SUPERVISION

### ***Probation***

Probation is an alternative to incarceration. A circuit judge has the sole authority to order probation for a defendant. Individuals sentenced to probation must successfully complete the requirements imposed by the court.

### ***Parole***

Parole is a form of early release from incarceration. Multiple factors are taken into consideration such as type of offense, institutional conduct, and participation in rehabilitative programs. Whether or not a resident is released early to parole is within the complete discretion of the Mississippi State Parole Board.

The Probation and Parole Division is responsible for supervising adults in custody serving sentences in the community in three regions (North, Central, and South). Each region has a Community Corrections Director (CCD), and that person reports directly to the Deputy Commissioner of Community Corrections.

### ***Intensive Supervision Program***

The Intensive Supervision Program (ISP), commonly referred to as house arrest, provides supervision in a community-setting rather than incarceration. Only a judge can place an individual on house arrest. Adults in custody are required to wear electronic monitoring equipment and are limited in most cases to employment, treatment, and worship services activities. Each individual maintains resident status and can be immediately placed in an MDOC facility upon violation of the program.

### ***Earned Release Supervision***

Earned Release Supervision is a program whereby an individual eligible under applicable state law, including Mississippi Code § 47-5-138 through § 47-5-140, may earn their conditional release to community supervision through good behavior and performance requirements of the earned time allowance program. Once the individual has met the requirements for release, a Probation and Parole agent conducts a residence investigation. The residence must be approved prior to release. ERS adults in custody retain resident status. The period of ERS is conducted in the same manner as time on house arrest.

### ***Medical Release***

State law (§ 47-7-4) permits residents with serious medical conditions to be transferred under certain conditions to Community Corrections. The commissioner and the chief medical director may place a nonviolent adult in custody on conditional medical release regardless of time served.

## ALTERNATIVES TO INCARCERATION

### ***Drug-Court***

Drug court is a specialized court that handles cases of individuals with drug and alcohol dependency. It seeks to rehabilitate individuals through treatment and intense supervision with frequent court appearances and random drug testing. It offers the incentive of a chance to remain out of prison and be employed. However, participants can be sanctioned with a prison sentence, if they fail to remain drug-free and comply with all program requirements.

### ***Pre-Trial Diversion***

The Pre-Trial Diversion Program is an alternative to a felony conviction. A defendant voluntarily submits to supervision ranging from six months to three years. Charges against the individual may be dismissed, if the period of supervision is successfully completed.

### PROGRAMS

#### ***Thinking for a Change (T4C)***

Thinking for a Change is cognitive behavioral therapy model that has been proven to be effective in changing criminological thinking patterns. Thinking for a Change classes are now being offered not only in Institutions but also in Community Corrections.

#### ***Alcohol and Drug Treatment***

Alcohol and drug treatment programs are provided at several community-based residential facilities.

#### ***Education***

Adult-based education and GED programs are provided at several community-based residential facilities.

#### ***Resource Assistance Program (R.A.P.)***

There are 26 R.A.P. program coordinators statewide to assist probation & parole agents in monitoring residents' treatment needs, employment, housing and additional barriers to their successful re-entry.

### DRUG TESTING

Drug testing is performed in both residential facilities and for those on community supervision. Correctional Officers and Probation and Parole Agents are responsible for drug testing adults in custody, either routinely or based on suspicion. Random drug testing of 10 percent of the resident population is conducted each month.

### INTERSTATE COMPACT

Mississippi participates in the Interstate Compact for adults in custody. Under the terms of the compact agreement, the MDOC provides courtesy supervision to probationers and parolees from other states in exchange for courtesy supervision of Mississippi individuals residing in other states.

### RESIDENT LABOR

In FY 2017, the residents in the community work centers provided municipalities and non-profits in 12 counties with 1,335,932 total work hours, valued at \$9,685,507 (at minimum wage) in free labor.

### **Mississippi State Penitentiary**

P.O. Box 1057  
Parchman, MS 38738  
662-745-6611

The Mississippi State Penitentiary (MSP) is the state's oldest institution, opening in 1901. It is located on approximately 18,000 acres at Parchman in Sunflower County. It has 3,590 beds, 58 support buildings and seven different housing units, ranging in size from 56 beds at Unit 42 (hospital) to 1,568 beds at Unit 29.

MSP is authorized to have a total of 916 positions, 894 of which are full-time, 12 are time-limited full-time, and 10 are part-time.

MSP houses all male residents who are classified as protective custody, administrative segregation, administrative long-term segregation, and death row. The custody levels are minimum, medium, and close.

MSP adults in custody provide more than 100,000 hours of free resident labor each year to adjacent municipalities and counties, as well as assisting other state agencies.

Parchman holds a unique place in the prison system for reasons other than its age.

The majority of the farming activity involving Mississippi Prison Agricultural Enterprises (MPAE) happens at MSP. MPAE supplies food to Parchman and the other two state prisons, 10 community work centers and four restitution centers.

MSP is also home to Mississippi Prison Industries Corp. (MPIC)'s work program for textile and metal fabrication.

Additionally, unlike the other two state prisons, MSP has its own hospital. Health care is contracted through Centurion Mississippi, LLC, which provides medical services 24 hours a day. The hospital is a licensed, full-service facility.

Other special features of Parchman are the execution chamber and the pauper's cemetery. All executions are held at Unit 17. Residents whose families cannot afford to bury them, or those who do not have family members to claim, their remains are buried on two acres. Records show that the first burial occurred in 1930.

## Mississippi Prison Agricultural Enterprises

Agricultural Enterprises, a division under Institutions, is responsible for the farming operations at Mississippi State Penitentiary (MSP) in Parchman and South Mississippi Correctional Institution (SMCI) in Leakesville. Most of the farming occurs at Parchman. Minimum custody residents are given the opportunity to participate each year in planting, harvesting and processing the crops, including vegetables and fruits. The crops are shipped to MDOC facilities to feed adults in custody to help reduce food cost.

Some of the fruits and vegetables grown include blueberries, broccoli, butter beans, cabbage, pecans, turnip greens, mustard greens, English peas, sweet corn, green beans, okra, tomatoes, squash, watermelons, and field peas.

The Mississippi Prison Agriculture Enterprise (MPAE) program leased 7,948 acres in Sunflower and Quitman counties for a total revenue of \$626,425.98. The amount brought the average rent per acre to \$78.82. MPAE farmed 3,401 acres in Sunflower County, growing soybeans and vegetables.

Soybean production was at an all-time high with total bushels being at 127,595.64 bushels. This average per acre was 37.352 bushels per acre with a revenue of \$1,207,903.50.

MPAE vegetable operation produced 750,000 pounds of vegetables on approximately 400 acres for processing to help feed the adults in custody and reduce food cost. The value of these donated food was approximately \$237,240. These prices are based on the Atlanta Market and billed to the food contract vendor. The MDOC takes a credit against the weekly invoice for the amount of these food items.

MPAE had 40 acres of pecans harvested in 2017 for the first time in more than 10 years. Total revenue from this crop was \$4,500.

The Central Mississippi Correctional Facility (CMCF) was established in 1986 and built on 171 acres in Pearl in Rankin County. The facility was expanded in 1996 and now includes 18 housing units and 10 support buildings to accommodate its current capacity of 3,710 residents. CMCF is the first stop for individuals sentenced to the Mississippi Department of Corrections (MDOC). It provides initial orientation and classification.

CMCF is authorized to have 675 full-time positions, two part-time and 10 time-limited, full time positions.

Of the three State Prisons, CMCF is the only facility to house female residents and youthful residents. Its population consists of both male and female residents of all custody levels (minimum, medium, and close) to include female individuals sentenced to death.

Youthful residents are housed in a separate facility. The Youthful Offender Unit (YOU) opened on Dec. 12, 2012, as a separate, independent facility to serve individuals under the age of 18. It offers a wide range of programs to include academic classes, vocational programs, mental health counseling, psychological and psychiatric services in a group and individual basis, alcohol and drug treatment, social services, religious and recreational services.

Mississippi Prison Industries Corp. (MPIC) operates a commercial print shop; a Johnson & Johnson clean room, which provides cleaning and sterilization of suture spools for its suture manufacturing operations; and a metal fabrication shop.

### **South Mississippi Correctional Institution**

P.O. Box 1419  
Leakesville, MS 39451  
601-394-5600

The South Mississippi Correctional Institution (SMCI), established in 1989, is the newest state prison in Mississippi. It is the first prison in the state to receive accreditation from the American Correctional Association and the National Commission on Correctional Health Care.

SMCI sits on 360 acres at Leakesville in Greene County. It has 16 housing units and a maximum 3,082 beds. Men classified as minimum, medium, and close custody are housed there as well as those in protective custody and long-term segregation.

The prison is authorized to have 433 full-time permanent positions and two full-time, time-limited positions.

SMCI provides free resident labor to Greene County and adjacent municipalities and assists other state agencies. Adults in custody are assigned to the Greene County Road Crew and a mobile work crew.

Adults in custody can also work in the blueberry operations. The orchard was started at the prison in 2006 as a way to address resident idleness and to teach them a trade skill in the blueberry industry. The blueberries help reduce food cost and serve as a healthier menu option.

Programs offered include adult basic education, alcohol and drug, religious programs, vocational programs, legal assistance, pre-release, and therapeutic recreation. The SMCI Education Department offers both Adult Basic Education (ABE) and General Educational Development (GED). Students have access to a full-time counselor. The alcohol and drug program is both short term (12 weeks) and long term (six months) with individual and group counseling for treating alcohol and drug addictions. Other than alcohol and drug education, the classes and groups cover relapse prevention, coping skills, life skills/re-entry and post release, interview skills, anger and stress management, depression management, anxiety management, communication, and relationship skills. Upon successful completion, participants are awarded a certificate. Services are also provided for community work center residents and those in SMCI administrative segregation and protective custody units.

The Chaplains Department is responsible for all religious activities at SMCI. In addition to regularly scheduled religious programs, Bible classes are offered whereby the residents may study together. The department has a pastoral and crisis ministry which includes spiritual guidance counseling during a crisis or grieving period. Chaplains also provide marriage counseling and coordinate the marriage process of those incarcerated. Additionally, this department is responsible for interviewing, training, and supervising volunteers providing a variety of services.

The Vocational Technical Department offers five programs (auto body, auto mechanics, electrical, plumbing and pipefitting, and welding) that enable residents to become productive citizens after release. The length of each program is 1,300 hours to 2,650 hours. GED classes and tutoring are available at night. Residents can obtain employment skills through Mississippi Prison Industries Corp's clothing manufacture operations.

Through the state's contracted healthcare vendor, Centurion, LLC provides onsite medical services to its adults in custody and those at the regional facilities in south Mississippi. These onsite services include, but are not limited to, emergency care, infirmary care, dental, optometry, clinical, and pharmaceutical services. Specialty care services are also available through a network of off-site contracted hospitals and specialty care providers.

# Alcohol and Drug Treatment Programs

The mission of the Alcohol and Drug (A&D) Program is to provide clinical treatment and rehabilitation services to individuals who have co-occurring mental health conditions or who have committed an alcohol and/or drug crime(s). The goal is to address the substance use disorder using evidence-based curriculums (e.g., Cognitive Behavioral Therapy, Dialectical Behavioral Therapy, 12-step facilitation, mindfulness, meditation classes, Betty Ford On Demand Living in Balance Curriculum, art therapy, along with psychoeducation about drugs of abuse and clinical treatment team meetings) aimed at correcting ineffective behaviors and unhelpful thought patterns. These clinical A&D services are provided to adults in custody who are court ordered to alcohol and drug treatment, parole pending completion, Intensive Supervision Program, MDOC referral or volunteer.

The Alcohol and Drug Program also provides re-entry referrals to adults in custody discharging for primary and secondary A&D treatment facilities, Alcoholics Anonymous, Narcotics Anonymous and Cocaine Anonymous meetings and home placement recommendations. In most cases, through interdisciplinary treatment team meetings and planning, residents are offered tailored transition plans prior to discharge from our treatment programs.

## A&D Programs in Facilities

**Mississippi State Penitentiary** provides a long-term program for residents with at least six to 30 months remaining in their sentence. The Alcohol and Drug Therapeutic Community Treatment Center units house 100 therapeutic treatment beds, group rooms and classrooms with clinical staff office space adjacent to each housing unit.

**Central Mississippi Correctional Facility** provides both a 12-week traditional A&D program and a long-term program (6 months to 12 months) for female and male residents. In addition, a 12-week treatment program is available for special needs (disability) male residents. The traditional 12-week A&D program based on principles of Alcoholics Anonymous is provided for special needs (disability) residents at Central Mississippi Correctional Facility. A 12-week basic A&D psychoeducation program is provided to eligible residents housed in high risk, lockdown, and protective custody units.

**South Mississippi Correctional Institution** provides both a traditional 12-week A&D program and a long term (six month) program for general population adults in custody.

**The Residential Substance Abuse Treatment (RSAT) Program** is operated in the Flowood, Pike and Quitman Community Pre-Release Centers for residents who are within six months to one year of release. The residents provide work in the community during the day and attend A&D clinical treatment in the evening.

**The Flowood Community Work Center** offers a 12-week A&D program for females who are completing their sentence, or are being released to community supervision.

## CROSSROADS Ministries

Crossroads Ministries is a 501(c)(3) nonprofit organization for women coming from prison. Often times they are homeless and are in need of a fresh start. They struggle with addiction, needing education, life skills and a safe place as they begin their self-worth. Every case is unique. The common denominator among all of our women is that they are in need of healing. Our ultimate goal is to provide a home where they can attend classes that will educate them in every area that is needed in their lives, along with helping to restore family relationships and to become a strong woman of faith. Through all of our programs, the main focus is to show our ladies that they can have hope for their future. And to know that they are loved by their community and God.

This is what the LORD says: "Stand at the cross where the good way is, and walk in it, and ye

### REDEMPTIVE WAY MADISON HOME

Our primary care program is a 120 day program in which the women receive counseling, life skills and other faith based classes to assist

### VICTORY LANE CANTON HOME

Our residents are given the opportunity after successful completion of our primary program to move to our transitional home. This

home is where residents learn to once again be independent. At this stage of their recovery, they are able to find employment and become a successful and productive
