Commissioner Burl Cain

Nathan “Burl” Cain is a renowned correctional professional known for his transformative and innovative work in the Louisiana prison system during a storied career spanning more than 40 years. Gov. Tate Reeves appointed him as Commissioner for the Mississippi Department of Corrections effective May 21, 2020.

Cain retired from the Louisiana Department of Corrections (LDOC) after leading an evolution of change at the Louisiana State Penitentiary (LSP), once known as the “Bloodiest Prison in America.” Under his 21 years of leadership, LSP, the state’s only maximum security prison, became one of the safest, most secure, and progressive maximum security prisons in the nation.

The prison houses more than 6,300 inmates with more than 4,000 serving life sentences for violent crimes. Two award-winning films about the prison were produced during Cain’s administration. The stories are “The Farm: Angola, USA” (1998) and “The Wildest Show in the

South: The Angola Prison Rodeo,” (1999), which was nominated for an Academy Award for Best Documentary Short.

In addition to film, Cain’s work at Angola also has been the subject of numerous articles and books. The book *The Angola Prison Seminary* contains evidence-based research from Baylor University substantiating the reduction in violence and other positive effects of the faith-based ministry. Another book is *Cain’s Redemption: A Story of Hope and Transformation in America’s Bloodiest Prison*.

Cain serves as CEO and Founder of Global Prison Seminars Foundation, a nonprofit organization that promotes positive changing of prison culture through theological education programs in prisons throughout the United States and internationally. Prison Seminary Model programs now exist in 17 states, including Mississippi.

Cain earned a Bachelor of Science degree in vocational agriculture from Louisiana State University and a Master of Science in criminal justice from Grambling State University. Cain is a Certified Corrections Executive through the American Correctional Association and is an Emotional Intelligence Certified Practitioner.

STATE OF MISSISSIPPI
DEPARTMENT OF CORRECTIONS
BURL CAIN
COMMISSIONER

Dear Fellow Mississippians:

I present to you the annual report of the Mississippi Department of Corrections for Fiscal Year 2021. This report is a snapshot of the department's activities from July 1, 2020, to June 30, 2021. The Mississippi Legislature authorized an appropriation of \$310,898,986 from the general fund and \$27,228,952 from special funds.

We are turning the curve and we are in the midst of a cultural reset. We are hiring more correctional officers than ever before to help make our facilities safer with more personnel to better manage our inmate population. We are constantly working toward improving salaries to make it easier for our employees to provide for themselves and their families. This will hopefully help our employees not just have a job, but to build a career.

While safety in our prisons is better since I arrived and inmate violence is down, we still have work to do. Gangs still have a presence and we are doing everything we can to change that situation. We have zero-tolerance for gangs and are suppressing them any way we can. We must protect the good inmates who are trying to do well and get rid of the predators. We are also doing everything possible to curtail the contraband.

Another area of emphasis is re-entry programs to help inmates gain skills they can use in finding good paying jobs after release. Through moral and vocational rehabilitative programs, we are striving to change inmates' way of thinking. When they return to society, former inmates will have a chance at success and will have hopefully changed their hearts as well as expanded their minds in a positive way. Instead of seeing the same people come back through the system as inmates, we want to reach the point where the only time we see or hear from former inmates is for them to tell us about their success stories.

We are moving as fast as we can to put all the pieces in place for the Mississippi Department of Corrections to be a viable, productive system.

Sincerely,

Burl Cain

Commissioner

Highlights

AUGUST 18 – The MDOC launched a massive hiring campaign to increase its ranks of probation and parole agents and correctional officers. Advertisements of openings in multiple media formats continued through the fiscal year. Also, a hiring process that previously took weeks was streamlined to speed up the approval process.

OCTOBER 8 – Commissioner Burl Cain traveled to the coast to meet with educators and lawmakers at the Perkinston Campus of Mississippi Gulf Coast Community College. The summit addressed what vocational education courses would better equip prisoners to succeed in the workplace once they're released.

OCTOBER 14 – In efforts to tighten security at Mississippi's maximum security State Penitentiary in Parchman, Commissioner Cain announced that the long-abandoned Back Gate of the sprawling 18,000-acre prison will once again be reopened and guarded for the first time since 2017.

OCTOBER 22 – A crackdown into inmate financial transactions smashed a contraband smuggling ring in Mississippi prisons that could have netted prisoners, especially gang leaders, nearly \$69,000. Inmates had primarily been using electronic money transfers to finance illegal smuggling operations of drugs, cellphones, and other illegal contraband and selling them at exorbitant prices. MDOC intercepted and seized the funds from both inmates and their accomplices on the outside.

DECEMBER 8 – New technology spoiled a black-market Christmas for some inmates at South Mississippi Correctional Institution near Leakesville. Unidentified smugglers at 1:30 a.m. threw more than 25 packages across a remote section of the prison's perimeter fence. The packages contained a wide assortment of illegal contraband from 38 cellphones to 4 pounds of marijuana to 7 pounds of barbecued chicken wings. Some of the illegal goods were sewn into footballs which easily cleared SMCI's double 18-foot-high fences.

JANUARY 14 – A group of incarcerated women celebrated the beginning of their new journey in a seminary program that the MDOC expanded since launching it with incarcerated men more than 10 years ago. Twenty-three women received certificates marking the completion of the "Experiencing God" discipleship course designed to deepen their understanding of God and their faith. It is also a requirement for the seminary program within the prison. The seminarians later started training to become inmate religious assistants to assist chaplains.

FEBRUARY 1 – For the first time in 10 years, Mississippi prison inmates who smoke were able to do so legally starting February 1, 2021. Profits from prison tobacco sales fund the re-entry program by buying simulators and computer programs to teach parole-eligible men and women inmates the skills needed for careers after release. The tobacco sales also fund more remedial courses so inmates can achieve a high-school diploma, passing the HiSET (High School Equivalency Test) and begin college course work.

MARCH 19 – Mississippi prisons became among the first state prisons in the United States to begin mass vaccinations. With over 17,000 inmates, Mississippi Corrections started with the state's most populated prison, Central Mississippi Correctional Facility in Pearl. MDOC's medical staff, through healthcare provider VitalCore, completed vaccinating nearly all 3,017 CMCF inmates by the end of the day.

MARCH 24 – Violence at Mississippi's state prisons is down. At Mississippi State Penitentiary at Parchman, violence is down significantly by 52-percent according to year-over-year statistics kept by the MDOC. Trends in violence are measured using "Rules Violation Reports," or "RVRs," which are filed for each infraction of prison rules as established by state law. In the latest stats from 2019 to 2020, RVRs for serious violence at Parchman fell from 817 in 2019 to 393 in 2020, and that includes the riots of January 2020.

APRIL 14 – Commissioner Cain and Deputy Commissioner of Institutions Jeworski Mallett announced the appointment of Ronald King as Director of Private and Regional Facilities within the Division of Institutions. King has served over six years as Superintendent of Central Mississippi Correctional Facility in Pearl, the state’s largest prison with a capacity of over 4,000 inmates. Previously, King served 11 years as superintendent of South Mississippi Correctional Institute in Leakesville.

APRIL 14 – Commissioner Cain announced the appointment of Marc McClure as the new Superintendent of Central Mississippi Correctional Facility in Pearl. The West Point native joined MDOC in 1998, moving up in 23 years from a Special Response Team commander, Probation & Parole agent, Agent supervisor, and Community Corrections Director to now controlling Mississippi’s largest prison. Superintendent McClure will oversee maximum and minimum security inmates, 700 staffers, and all aspects of safety, conditions, food, sanitation, recruiting, and education at CMCF.

MAY 12 – Education is making a comeback in Mississippi prisons to reach pre-pandemic operations through stepped-up re-entry programs. Thirty-nine (39) inmates at Central Mississippi Correctional Facility (CMCF) received their high school equivalency diplomas, commonly known as GEDs or the newer HiSET, after completing years of secondary education coursework. Inmates also completed classes in business technology and apparel and textiles. Also, 18 inmates at Mississippi State Penitentiary at Parchman received certificates for completing their first three hours of college credit through the prison’s new alliance with Mississippi Delta Community College.

MAY 17 – Ruth Graham, the daughter of renowned evangelist Billy Graham, has agreed to lead a new seminary program for the MDOC. Commissioner Cain announced an agreement with Ms. Graham to start a 14-week program at the Central Mississippi Correctional Facility starting May 18, 2021. The program will be funded by private donors. “Every week, Ruth Graham will lead three of our prison seminary programs about how to forgive,” said Commissioner Cain. “In her acclaimed book, *Forgiving My Father, Forgiving Myself*, she talks about having an absent parent and about what it means to forgive and move on.” Billy Graham traveled the world with the Billy Graham Evangelistic Association for over 50 years, leaving his family for weeks at a time.

VICTIM SERVICES

The Division of Victim Services (DVS) registered **1,320** additional people during fiscal 2021. The DVS overall has registered **17,093** victims from Nov. 1, 2000 - the program’s beginning date - until June 30, 2021. Due to COVID-19, DVS did not schedule outreach services in person. DVS staff attended the following training sessions in virtual format, but because of staff shortage, attendance was decreased:

- Shattering the Silence / Suicide prevention, June 30, 2021
- Employee Assistance Program, April 30, 2021
- S.M.A.R.T Training Logic Model, January 21, 2021
- MDOC Mandatory courses for non-security staff

Statewide Automated Victim Information and Notification (SAVIN):

- New VINE registrations (county/state) = **82,705**
- Total VINE registrations ending June 30 = **454,631**
- Total VINE searches (county/state) = EVINE **13,298,618**
- Total VINE notifications released (county/state) = EVINE **242,989**

The DVS, in collaboration with the SAVIN Director and the Attorney General Victim Advocates, program materials outlining the victim-based services provided by MDOC, had been delivered to select District Attorney Offices, law enforcement agencies, victim-based service providers, and college/university campuses. In addition, materials were also distributed elsewhere via shipment. The DVS also utilized partnerships with District Attorney Offices Victim Assistance Coordinators throughout the state to ensure awareness that unregistered victims will be provided information or be referred directly to DVS/SAVIN.

Mississippi State Legislature

The following bills relevant to the MDOC became laws after the 2021 legislative session:

- **House Bill 106** - Increases Inmate Welfare Funds
- **House Bill 551** - Creates Empowering Re-Entry Through Licensing Act
- **House Bill 1494** - Permits Walnut Grove Correctional Authority to contract with state to operate Walnut Grove Correctional Facility
- **House Bill 928** - Creates executive deputy commissioner
- **House Bill 747** - Allows pilot work release program in Rankin County
- **House Bill 196** - Creates the Dignity for Incarcerated Women Act
- **Senate Bill 2915** - Provides MDOC Appropriations for 2021-2022
- **Senate Bill 2795** - Creates the Earned Parole Eligibility Act

MISSION STATEMENT

To enhance public safety by providing safe and secure facilities, effective supervision, and rehabilitative services that transform lives.

VISION STATEMENT

The vision of the Mississippi Department of Corrections is to be a professional organization that is honorable, innovative, and fiscally responsible.

CORE VALUES

INTEGRITY — MDOC Employees serve as positive role models and conduct themselves professionally through fair, honest, and ethical behavior.

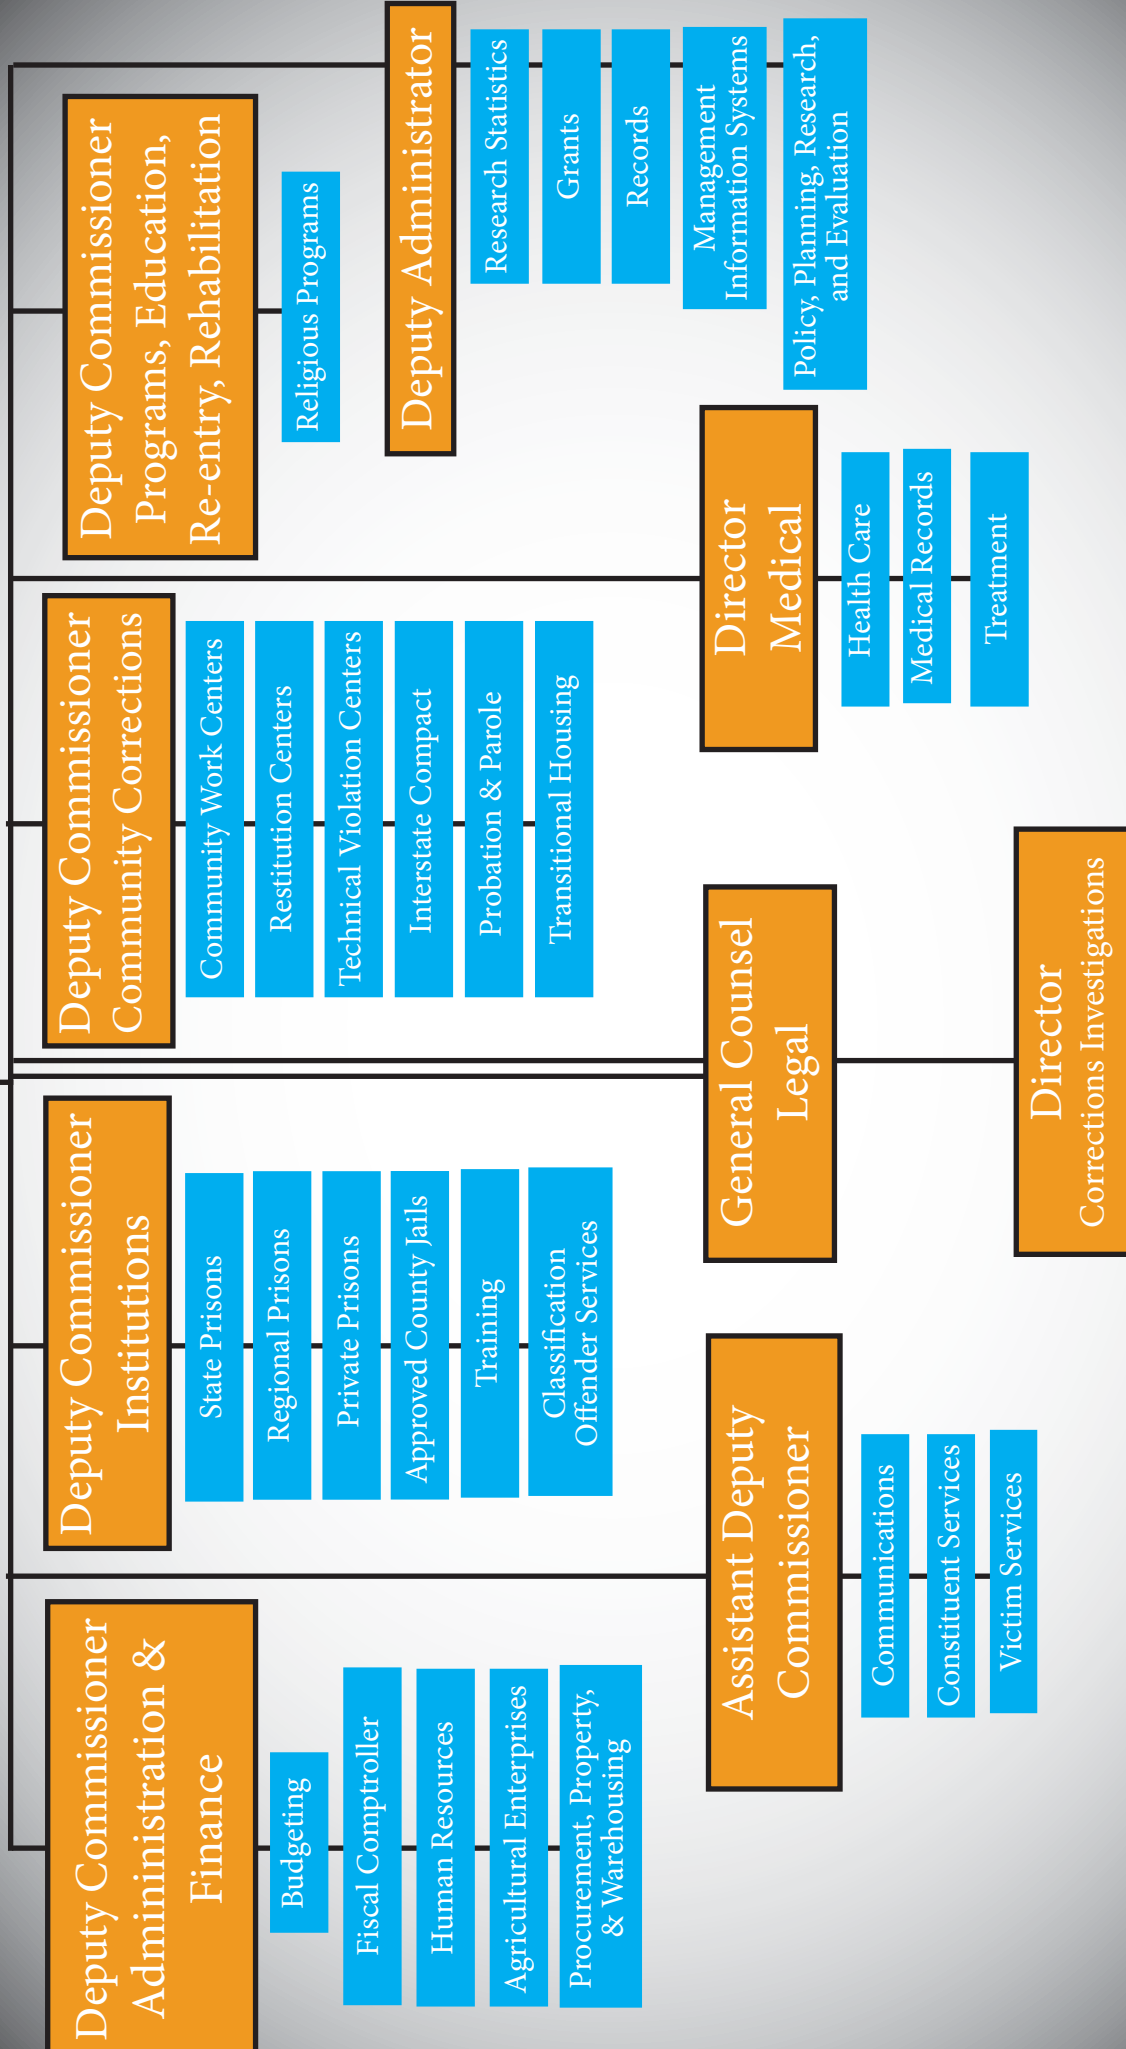

ACCOUNTABILITY — MDOC employees accept responsibility at all levels for decisions, actions, and consequences.

FAIRNESS — MDOC employees perform their duties in a just manner free of discrimination and favoritism.

COMPETENCE — MDOC employees possess the skill, knowledge, qualification, and capacity to perform their duties effectively.

CONSISTENCY — MDOC employees promote and demonstrate uncompromising moral conduct, behavior, and actions in all of our decisions.

Commissioner

Administration and Finance

Deputy Commissioner

Karei McDonald Jr.

Karei McDonald Jr. has a long and distinguished career in state government, with nearly 30 years of experience working for three state agencies. He serves as Deputy Commissioner of Administration and Finance for the Mississippi Department of Corrections, a position he has held since February 2020.

McDonald came to the MDOC from the Office of the State Auditor, where he had worked since August 2004. Positions he held included director of performance audit, deputy director of investigations, senior special agent for investigations, and special agent for investigations.

McDonald has extensive experience in criminal and civil cases, audit reviews, personnel management, and other areas combining law enforcement with accounting and fiscal accountability.

McDonald, a Jackson native, earned a Bachelor of Science degree in business administration from Mississippi College. He is also a graduate of the Mississippi Law Enforcement Officers Training Academy, the Federal Bureau of Investigation National Academy, and the Mississippi Association of Chiefs of Police/F.B.I. Command College.

Additionally, McDonald is a certified law enforcement officer, certified fraud specialist, certified fraud examiner, and certified Office of Inspector General investigator.

McDonald has earned the respect of the law enforcement community through his service. He is a former president of the Greater Jackson Law Enforcement Officers Association and was honored as a Top Cop recipient for the Central Mississippi Crime Stoppers in 2010.

Mississippi Prison Agricultural Enterprises

Agricultural Enterprises, a program under the Division of Administration and Finance, is responsible for farming operations at the Mississippi State Penitentiary (MSP) in Parchman and South Mississippi Correctional Institution (SMCI) in Leakesville. Most of the farming occurs at Parchman. Minimum custody residents can participate each year in planting, harvesting, and processing crops, including vegetables and fruits. The crops are shipped to MDOC facilities to feed the incarcerated adults to help reduce food cost.

Crops included blueberries, broccoli, cabbage, cantaloupes, cucumbers, lima beans, pecans, pumpkins, purple hull peas, squash, sweet corn, tomatoes, turnip greens, and watermelons.

The Mississippi Prison Agriculture Enterprise (MPAE) program leased 9,170 acres in Sunflower and Quitman counties for a total revenue of \$841,125.54 in fiscal 2021. The amount brought the average rent per acre to \$91.73. MPAE farmed about 5,408 acres in Sunflower County, growing soybeans, field corn, wheat, and vegetables. This number includes replants due to flooding.

Soybean production was about 130,000 total bushels with a revenue of \$1,326,968.99. Field corn production was 30,651 total bushels with a revenue of \$117,280.06. Wheat production was 5,343 total bushels with a revenue of \$31,434.29. A majority of the spring crops and vegetables suffered a major loss due to flooding. Some of the spring crops were replanted.

The vegetable operation produced 78,916 pounds of vegetables on approximately 73 acres. The value of the donated foods was about \$58,427. These prices are based on the Atlanta Market.

Community Corrections

Deputy Commissioner

Nathan Blevins

Deputy Commissioner Nathan Blevins worked his way through the ranks of Community Corrections at the Mississippi Department of Corrections to lead the division and serves with the distinction of having a sworn law enforcement officer background. He began as a probation and parole officer, also known as a field officer, in January 2003, and was promoted to Community Corrections Associate Director and then Community Corrections Director. Seventeen years later, he had become the leader. In addition to managing the supervision of individuals on supervision in Mississippi's three Community Corrections Divisions, he is also in charge of the Emergency Response Teams.

Blevins was a member of the Mississippi State University Police Department for five years before joining the MDOC. He graduated the Mississippi Law Enforcement Officers Training Academy in Pearl. The Aberdeen native, who grew up in Caledonia, attended East Mississippi Community College, where he earned an Associate of Science Degree and received All-American honors while playing football under the renowned Coach Tom Goode. He went on to receive a Bachelor of Science degree in criminal justice and sociology at Mississippi State University. He served in the Mississippi Army National Guard for nine years.

Blevins, a member of the Omega Psi Phi Fraternity, is the recipient of numerous awards, including Employee of the Month and Employee of the Year Nominee for the MDOC. He also received Top Cop honors while serving in the academy and was nominated for Professional of the Year at MSU. He has completed several courses taught by the FBI and is trained in both basic and advanced SWAT.

Community Corrections includes work centers, restitution centers, technical violation centers, and transitional housing. Also, the division is charged with the supervision of individuals who serve their sentences in the community through the following types of releases — house arrest (the Intensive Supervision Program), probation, parole, medical release, and earned release supervision (ERS).

FACILITIES

Community Work Centers

There are eight community work centers. Minimum security residents are assigned to these centers and are provided a gradual re-introduction into community life. The centers provide alcohol and drug counseling, GED preparation, and religious programs. Residents perform a wide range of labor at no cost to city, county, and state government agencies and school districts. This work includes community beautification projects, bridge and road repair work, vehicle maintenance, water and sewer, and sanitation details.

Restitution Centers

The state's four restitution centers assist individuals under the supervision of the state in obtaining employment as a condition of their probationary sentence. They are located in Greenwood, Flowood, Jackson, and Pascagoula. Money earned by residents is distributed to crime victims for restitution, courts for court costs and fines, and MDOC for room and board. The remainder of the wages, after taxes, goes to the residents' families or the residents' holding account. Upon completion of the program, the residents are referred to a probation/parole agent for supervision and remain with the agent for their probationary sentence.

Technical Violation Center

There are two technical violation centers — males only based at the Delta Correctional Facility in Leflore County and females only at the Flowood Community Work Center in Rankin County. The centers were created under House Bill 585, which took effect July 1, 2014. Individuals are sentenced to a TVC for an act or omission that violates a condition or conditions of being placed on community supervision (parole, probation or post-release supervision). The TVC is designed to address the underlying factors leading to the violation, including substance abuse.

Transitional Programs

Unlike a technical violation center, transitional centers house residents released from the Department of Corrections on parole, probation or post-release supervision who need temporary housing and services that reduce their risk to re-offend. MDOC has both state-operated and private transitional facilities. Portions of four community work centers have been converted to serve as transitional centers: Flowood Community Work Center, Noxubee County Community Work Center, Madison County Community Work Center, and Wilkinson County Community Work Center. The MDOC contracts with Crossroads Outreach Ministries in Madison, New Way Mississippi Inc. in Jackson, Sober Living Residential in Meridian, and Mississippi Offender Re-Entry Experience (MORE) in Jackson.

SUPERVISION

The Probation & Parole Division is responsible for supervising individuals serving sentences in the community in three regions (North, Central, and South). Each region has a Community Corrections Director (CCD), and that person reports directly to the Deputy Commissioner of Community Corrections.

Probation

Probation is an alternative to incarceration. A circuit judge has the sole authority to order probation for a defendant. Individuals sentenced to probation must successfully complete the requirements imposed by the court.

Parole

Parole is a form of early release from incarceration. Multiple factors are taken into consideration, such as type of offense, institutional conduct, and participation in rehabilitative programs. Whether or not an individual is released early to parole is within the complete discretion of the Mississippi State Parole Board.

Intensive Supervision Program

The Intensive Supervision Program (ISP), commonly referred to as house arrest, provides supervision in a community-setting rather than incarceration. Only a judge can sentence an individual to house arrest. Supervised individuals are required to wear electronic monitoring equipment and are limited in most cases to employment, treatment, and worship services activities. Each individual maintains a custody status and can be immediately placed in an MDOC facility upon violation of the program.

Earned Release Supervision

Earned Release Supervision is a program whereby an individual eligible under applicable state law, including Mississippi Code § 47-5-138 through § 47-5-140, may earn their conditional release to community supervision through good behavior and performance requirements of the earned time allowance program. Once the individual has met the requirements for release, a probation and parole agent conducts a residence investigation. The residence must be approved prior to release. ERS participants retain custody status. The period of ERS is conducted in the same manner as time on house arrest.

Medical Release

State law (§ 47-7-4) permits incarcerated individuals with serious medical conditions to be transferred under certain conditions to Community Corrections. The commissioner and the chief medical director may place a nonviolent individual on conditional medical release regardless of time served. Violent offenders must serve at least one year of their sentence before being eligible for conditional medical release.

ALTERNATIVES TO INCARCERATION

Drug-Court

Drug court is a specialized court that handles cases of individuals with drug and alcohol dependency. It seeks to rehabilitate participants through treatment and intense supervision with frequent court appearances and random drug testing. It offers the incentive of a chance to remain out of prison and be employed. However, participants can be sanctioned with a prison sentence, if they fail to remain drug-free.

Pre-Trial Diversion

The Pre-Trial Diversion program is an alternative to a felony conviction. Defendants voluntarily submit to supervision ranging from six months to three years. Charges may be dismissed if the period of supervision is successfully completed.

INTERSTATE COMPACT

Mississippi participates in the Interstate Compact for Adult Offenders. Under the terms of the compact agreement, the MDOC provides courtesy supervision to probationers and parolees from other states in exchange for courtesy supervision of Mississippi's incarcerated individuals residing in other states.

PROGRAMS

Thinking for a Change (T4C)

Thinking for a Change is cognitive-behavioral therapy model that has been proven to be effective in changing criminological thinking patterns. Thinking for a Change classes are now being offered not only in Institutions but also in Community Corrections.

Alcohol and Drug Treatment

Alcohol and drug treatment programs are provided at several community-based residential facilities.

Education

Adult-based education and GED programs are provided at several community-based residential facilities.

Resource Assistance Program (R.A.P.)

There are 26 R.A.P. program coordinators statewide to assist probation and parole agents in monitoring supervised individuals' treatment needs, employment, and additional barriers to their successful re-entry.

INMATE LABOR

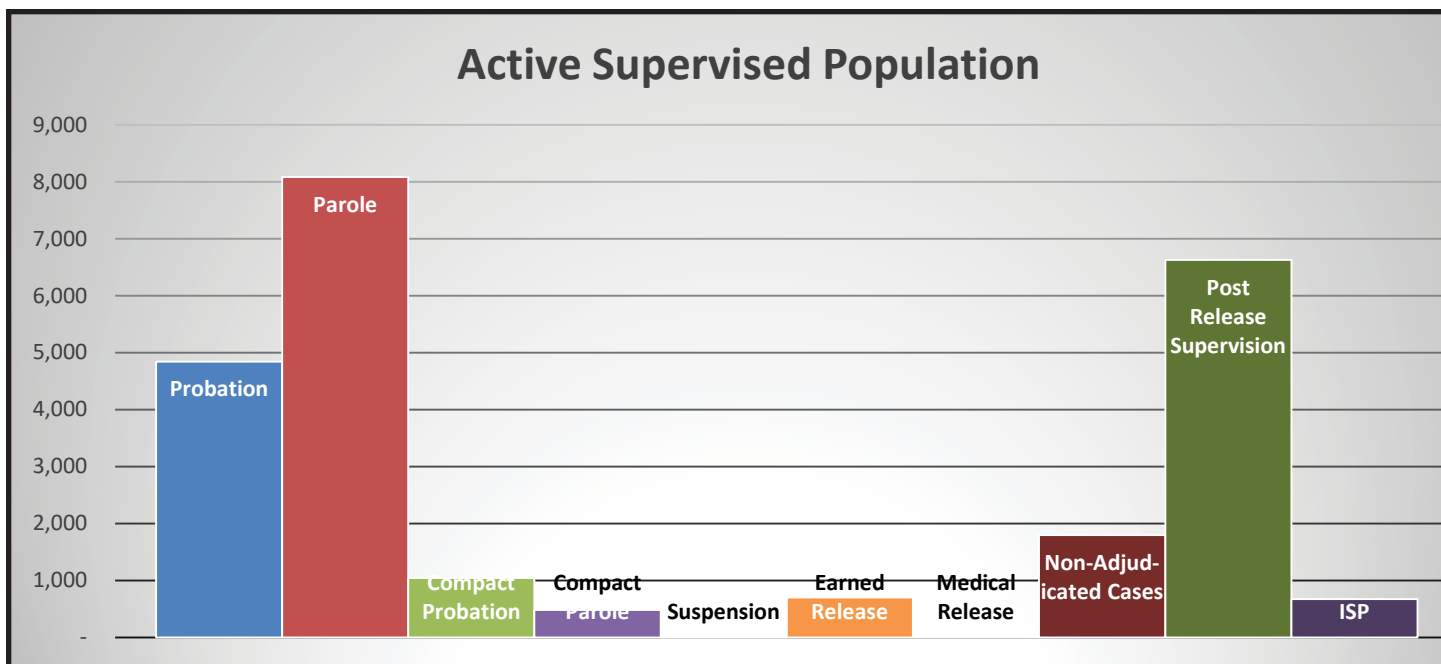

In FY 2021, the residents in the community work centers provided municipalities and non-profits in eight (8) counties with 381,008 total hours, valued to equal \$2,328,334 (at minimum wage - \$7.25) in free labor.

DRUG TESTING

Probation & Parole Agents are responsible for drug testing the offender population each month, either routinely or based upon suspicion.

Institutions

Deputy Commissioner

Jeworski Mallett

Jeworski Mallett is Deputy Commissioner of Institutions for the Mississippi Department of Corrections where he has served since February 2020. Before this appointment, he served as director of Records since 2013.

Gov. Tate Reeves on Nov. 5, 2020, awarded Mississippi Department of Corrections Deputy Commissioner of Institutions, Jeworski “Jay” Mallett, the year’s “Excellence in State Government” award.

“Because of your leadership, because you are a team player and the fact that you have stepped up in these challenging times, I want you to know from me personally that it’s made a difference,” Gov. Reeves said.

Mallett has 21 years of work experience in the correctional system, beginning his career as a correctional officer at the Mississippi State Penitentiary, the oldest prison in the state. While at MSP, he was assigned to maximum security Unit 32, which housed death row, maximum security, protective custody, and inmates in segregation. Since then, he has held various positions to include investigator, classification hearing officer, operations management analyst, principal, deputy warden of Support Operations, division director of Institutional Operations, and interim training director, while moving up the ranks within the MDOC.

Mallett has worked with various criminal justice agencies across the country on projects surrounding administrative and protective custody offender populations. He played a key role in assisting the MDOC in revising its Use of Force, Administrative Segregation, Offender Disciplinary, Protective Custody, and Classification Policies and Standard Operating Procedures. Also, he has presented on administrative segregation in Mississippi at the American Correctional Association (ACA) conference.

Mallett completed his undergraduate studies in Business Administration at Alcorn State University and holds an MBA from Delta State University in Management/Administration. He also is a certified public manager. Mallett is a member of Alpha Phi Alpha Fraternity Inc., the ACA, and the Mississippi Association of Professionals in Corrections (MAPC).

He is also a 2016 MDOC Distinguished Employee of the Year and has received numerous Extra Effort Awards. In June 2020, Mallett was honored with a commendation and awarded a Commissioner’s Coin from Commissioner Burl Cain. Mallett was congratulated for his work in leading the institutions division through its COVID-19 response.

Mississippi State Penitentiary

P.O. Box 1057
Parchman, MS 38738
662-745-6611

The Mississippi State Penitentiary (MSP) is the state's oldest institution, opening in 1901. It is located on approximately 18,000 acres at Parchman in Sunflower County. It has 3,560 beds, 58 support buildings and seven different housing units, ranging in size from 56 beds at Unit 42 (hospital) to 1,568 beds at Unit 29.

MSP is authorized for 635 full-time permanent positions, nine are time limited full-time, and nine are part-time.

MSP houses all male inmates who are classified as protective custody, administrative segregation, administrative long-term segregation, and death row. The custody levels are minimum, medium, and close.

MSP inmates provide more than 100,000 hours of free labor each year to adjacent municipalities and counties, as well as assisting other state agencies.

The majority of the farming activity involving Mississippi Prison Agricultural Enterprises (MPAE) happens at MSP. MPAE supplies food to Parchman and the other state prisons, community work centers and restitution centers.

Mississippi Prison Industries Corp. (MPIC) operates a work program for its textile and metal fabrication.

Also, unlike the other state prisons, MSP has its own hospital. Health care is contracted through VitalCore Health Strategies, which provides medical services 24 hours a day. VitalCore's staff and MSP Hospital is full service licensed.

Another unique feature of Parchman is that it is the facility where state executions are carried out. All executions are carried out at Unit 17 by lethal injection.

Parchman cemetery is also located on prison grounds. Inmates whose families cannot afford to bury them or those who do not have family members to claim their remains are buried on two acres. Records show that the first burial was in 1930.

Programs offered at MSP include: therapeutic recreation, religious programs, independent study and tutorial programs, pre-release, faith based program, alcohol and drug program, ABE/GED programs, Administrative Remedy Program (ARP), PACT, agri-business, auto body and fender, auto mechanics, carpentry, diesel mechanics, communications systems installer, heating, air conditioning and refrigeration, industrial electricity, marine maintenance, welding, and culinary arts.

Central Mississippi Correctional Facility

P.O. Box 88550
Pearl, MS 39208
601-932-2880

The Central Mississippi Correctional Facility (CMCF) was established in 1986 and built on 171 acres in Pearl in Rankin County. The facility was expanded in 1996 and now includes 18 housing units and 10 support buildings to accommodate its current capacity of 4,102 Offenders. CMCF is the first stop for individuals sentenced to the Mississippi Department of Corrections (MDOC). It provides initial orientation and classification.

CMCF is authorized to have 609 full-time positions, five time-limited full-time, and one part time.

Of the state prisons, CMCF is the only facility to house female inmates and youthful offenders. Its population consists of both male and female inmates of all custody levels (minimum, medium, and close) to include female inmates sentenced to death.

Youthful offenders are housed in a separate facility. The Youthful Offender Unit (YOU) opened on Dec. 12, 2012, as a separate, independent facility to serve individuals under the age of 18. It offers a wide range of programs to include Academic Classes, Vocational Programs, Mental Health Counseling, Psychological and Psychiatric Services in a group and individual basis, Alcohol and Drug Treatment, Social Services, Religious and Recreational Services.

Mississippi Prison Industries Corp. (MPIC) operates a commercial print shop, a Johnson & Johnson Clean Room, which provides cleaning and sterilization of suture spools for its suture manufacturing operations; and a metal fabrication shop.

Programs/services offered at CMCF include:

- Alcohol & Drug Treatment
- AA/NA
- Adult Basic Education
- Inmate Legal Assistance Program
- Pre-Release
- Religious Services
- Kairos Prison Ministry
- Bible Study
- Therapeutic Recreational Programs
- Veterans Program
- Prison-to-College Pipeline Program
- Recidivism Reduction Program
- Academic & Vocational Programming
- Library Services
- Barbering & Cosmetology Services
- Family Dynamics Class

- Business Technology
- Apparel & Textile
- Mentoring and Tutoring
- Life Skills & Anger Management
- 1A Mental Health Program
- Art Therapy/Expressions
- Dance to be Free
- In 2 Work Food Service Program
- Prison Industry
- Lifers/Extended Sentences Program
- Gardening & Landscaping
- Family Visitation
- Garment Factory
- The NET "Social Mentoring"
- "Forget Me Not" Sewing Project
- NCRC Certifications

Superintendent
Andrew Mills

South Mississippi Correctional Institution

P.O. Box 1419
Leakesville, MS 39451
601-394-5600

The South Mississippi Correctional Institution (SMCI), was established in 1989. It is the first prison in the state to receive accreditation from the American Correctional Association and the National Commission on Correctional Health Care.

SMCI sits on 360 acres at Leakesville in Greene County. It has 16 housing units and a maximum 3,082 beds. Men classified as minimum, medium, and protective custody are housed there as well as those in disciplinary detention, high risk incentive program, and long-term segregation.

The prison is authorized to have 357 full-time permanent positions and four full-time, time-limited positions.

SMCI provides free inmate labor to Greene County and adjacent municipalities and assists other state agencies. Inmates are assigned to the Greene County Road Crew and a mobile work crew.

Inmates can also work in the blueberry operations. The orchard was started at the prison in 2006 as a way to address inmate idleness and to teach inmates a trade skill in the blueberry industry. The blueberries help reduce food cost and serve as a healthier menu option.

Programs offered include: Adult Basic Education, Alcohol & Drug, Religious Programs, Vocational Programs, Inmate Legal Assistance, Pre-Release, and Therapeutic Recreation. The SMCI Education Department offers both Adult Basic Education (ABE) and General Educational Development (GED). Students have access to a full-time counselor. The Alcohol and Drug Program is both short term (12 weeks) and long term (six months) with individual and group counseling for treating alcohol and drug addictions. Other than alcohol and drug education, the classes and groups cover relapse prevention, coping skills, life skills/re-entry and post release, interview skills, anger and stress management, depression management, anxiety management, communication, and relationship skills. Upon successful completion, inmates are awarded a certificate. Services are also provided for community work center inmates and those in SMCI administrative segregation and protective custody units.

The Chaplains Department is responsible for all religious activities at SMCI. In addition to regularly scheduled religious programs, Bible classes are offered whereby the inmates may study together. The department has a pastoral and crisis ministry which includes spiritual guidance counseling during a crisis or grieving period. Chaplains also provide marriage counseling and coordinate the marriage process of those incarcerated. Additionally, this department is responsible for interviewing, training, and supervising volunteers providing a variety of services.

The Vocational Technical Department offers five programs (auto body, auto mechanics, electrical, plumbing and pipefitting, and welding) that enable offenders to become productive citizens after release. The length of each program is 1,300 hours to 2,650 hours. GED classes and tutoring are available at night. Inmates can obtain employment skills through Mississippi Prison Industries Corp.'s clothing manufacture operations.

Through the state's contracted healthcare vendor, VitalCore Health Strategies provides onsite medical services to its offenders and those at the regional facilities in south Mississippi. These onsite services include, but are not limited to, emergency care, infirmary care, dental, optometry, clinical, and pharmaceutical services. Specialty care services are also available through a network of off-site contracted hospitals and specialty care providers.

Programs, Re-Entry, Education, Vocational Rehabilitation

Deputy Commissioner

Gary Young

Deputy Commissioner Gary Young oversees Programs, Education, Re-Entry, and Vocational Rehabilitation Services, a new post created by the Legislature.

Young has nearly 30 years in corrections, specializing in inmate programming and classification with the Louisiana State Penitentiary, the state's oldest and only maximum security prison. His career also includes public relations/media, project management, creativity/development, and problem-solving. He served as the public information officer at the Louisiana State Penitentiary for more than 20 years, working hand in hand with the state/prison staff and the media to tell Angola's transformational story, especially through movies, newscasts, and documentaries.

He supervised and managed the implementation of all offender projects, organizations, and programs. He was instrumental in helping to continue to develop the Corrections Court Re-entry Program. The mentorship program helps rehabilitate men to learn new skills and trades to take back to their communities.

Young's most immediate job was corrections assistant warden at the Louisiana State Penitentiary. He assumed that position after serving four years as director of the Classification Department. He moved to classification after coordinating the Public Information Services and managing media projects for more than five years. His time in classification also included serving as an officer and manager. He began his career as a corrections sergeant in February 1992.

Young entered corrections after working 12 years for Montgomery Farms, where he was the administrator of the cattle farm and lease operations and manager of timber, oil, and gravel leases; and serving as the county executive director of the Agricultural Stabilization and Conservation Services for seven years.

He has a bachelor's of science degree in animal science at McNeese State University in Lake Charles, La. He is the recipient of the highest honor Louisiana State employees can win for civil service. He was awarded the Dunbar Award in January 2017. He serves on the State Intervention Courts Advisory Committee.

Treatment and Programs

The Division of Treatment and Programs plays an integral part in the operations of the state's correctional facilities. The division provides programs and services designed to improve the incarcerated resident and their chances of success upon release and to comply with court orders.

The program component includes: education, Adult Basic Education (ABE), General Education Degree (GED), vocational programs, pre-release, religious and volunteer services, administrative remedy program, re-entry program, inmate legal assistance program, Mississippi Prison Industries, Recidivism Reduction Program (RRP), and the youthful offender program.

EDUCATION

The mission of the schools is to offer classes that will enable all returning citizens who desire training to enroll, succeed, and return to their communities as productive citizens with the skills needed to succeed in the workforce.

The Education Department provides training that meets the academic, workplace development, and vocational needs of returning citizens. Adult education and vocational classes are offered at the three state institutions: Mississippi State Penitentiary at Parchman (MSP), Central Mississippi Correctional Facility (CMCF), and South Mississippi Correctional Institution (SMCI). Vocational night classes are offered at MSP through Mississippi Delta Community College.

Academic classes for youthful residents 17 years of age and younger are provided at the Youthful Offender Unit (YOU) School at CMCF. Adult education classes are also offered at the private and regional facilities along with vocational classes at some of the private and regional facilities.

College classes are offered at no cost at MSP through Mississippi Delta Community College and at CMCF through Hinds Community college. Funding was possible through the Mississippi Humanities Council. Mississippi Gulf Coast Community College offered college classes at George County and Stone County Correctional Facilities through Pell ESI. Residents who wish to enroll in additional college classes may take correspondence courses but are responsible for their college tuition fees.

In 2021, the MDOC served 408 people in the Adult Education Division and 400 offenders in Vocational Education. Other programs include Smart Start Certifications, National Career Readiness Certification (NCRC), and the National Center for Construction Education and Research (NCCER).

2021 ► MDOC Annual Report

RE-ENTRY

The mission and vision for the Re-Entry Department is to help returning citizens and communities move forward by enhancing re-entry partnerships. The MDOC has partnered with numerous agencies and have implemented several programs to assist returning citizens. A few examples of this collaboration include working with Feeding the Gulf Coast Outreach Program (SNAP), Department of Human Services (Child Support), Governor's Job Fair Network (Reentry Job Fair), and ASC (Housing).

MDOC launched the SSI/SSDI Outreach, Access, and Recovery Program (SOAR). The program is designed to increase the number of SSI/SSDI approvals for incarcerated residents at risk of homelessness and those with serious mental illnesses and other disabilities. The goal is to have SOAR-trained staff across the agency.

PRE-RELEASE

Pre-Release assists returning citizens with identifying career interest, developing resumes, conducting job searches, becoming financial aware and developing new positive behaviors that will impact their real world experience. Pre-Release also assists individuals with educational needs through the Adult Education Program in which they may also complete GED preparation, remedial education, and adult literacy.

Incarcerated residents participate in Thinking for a Change (T4C), and Moral Reconciliation Therapy - cognitive behavioral programs addressing the cognitive social and emotional needs. Participants can receive the National Career Readiness Certification (NCRC), which certifies the work skills needed for success in jobs across industries and occupations.

INCARCERATED VETERANS PROGRAM

The MDOC offers U.S. military veterans a holistic, full-service therapeutic community at the Central Mississippi Correctional Facility. Any classified inmate is eligible for the program provided that he or she is a verified veteran, served a minimum one day of active duty service, has any discharge other than dishonorable, and has verifiable DD214. The Incarcerated Veterans Program houses approximately 70 inmates and priority is given to those with less than 18 months remaining on their sentence. The goal of the program is to reduce recidivism through development of job skills and employment placement prior to release. To achieve this goal, the program offers a 30-hour weekly curriculum core courses. Mandatory classes include cognitive behavioral programs, life skills, and online courses. Additionally, electives include: NCCER trade courses, The Better Man Lecture Series, substance abuse education group sessions, and Retrieving Freedom Dog Training.

Alcohol and Drug Treatment Programs

The mission of the Alcohol and Drug (A&D) Program is to provide clinical treatment and rehabilitation services to individuals who have co-occurring mental health conditions or who have committed an alcohol and/or drug crime(s). The goal is to address the substance use disorder using evidence-based curriculums (e.g., Cognitive Behavioral Therapy, Dialectical Behavioral Therapy, 12-step facilitation, mindfulness, meditation classes, Betty Ford On Demand Living in Balance Curriculum, art therapy, along with psychoeducation about drugs of abuse and clinical treatment team meetings) aimed at correcting ineffective behaviors and unhelpful thought patterns. These clinical A&D services are provided to offenders who are court ordered to alcohol and drug treatment, parole pending completion, Intensive Supervision Program, MDOC referral or volunteer.

The Alcohol and Drug Program also provides re-entry referrals to offenders discharging for primary and secondary A&D treatment facilities, Alcoholics Anonymous, Narcotics Anonymous and Cocaine Anonymous meetings and home placement recommendations. In most cases, through interdisciplinary treatment team meetings and planning, offenders are offered tailored transition plans prior to discharge from our treatment programs.

Mississippi State Penitentiary (MSP) provides an A&D program for offenders with at least six to 30 months remaining in their sentence. The A&D Treatment Center units house 100 treatment beds, group rooms and classrooms.

Central Mississippi Correctional Facility (CMCF) provides both a 12-week traditional A&D program and a long-term program (6 months to 12 months) for female and male offenders. In addition, a 12-week treatment program is available for special needs (disability) male offenders. The traditional 12-week A&D program based on principles of Alcoholics Anonymous is provided for special needs (disability) offenders at Central Mississippi Correctional Facility. A 12-week basic A&D psychoeducation program is provided to eligible offenders housed in high risk, lockdown, and protective custody units.

The A&D Residential Treatment Program, operating the CMCF 720 Unit, is designed to treat incarcerated individuals who have been court ordered for Substance Use Disorders treatment (SUDS) or referred by the Parole Board or MDOC. The program is designed to: 1) improve identification of co-occurring disorder diagnoses by utilizing the Global Assessment of Individual Needs (GAIN-Q3); 2) provide empirically validated substance use disorder(s) (SUDS) treatment programming; and 3) provide integrated pre and post-release treatment and recovery support services. Services are provided by MDOC and Region 8 Mental Health behavioral specialists funded through the Department of Mental Health.

South Mississippi Correctional Institution (SMCI) provides both a traditional 12-week A&D program and a long term (six month) program for general population offenders.

The Residential Substance Abuse Treatment (RSAT) Program is operated in the Flowood, Pike and Quitman Community Pre-Release Centers for offenders who are within six months to one year of release. The offenders provide work in the community during the day and attend A&D clinical treatment in the evening.

Statistical Data

Deputy Administrator Technology

Audrey McAfee

Audrey McAfee has more than 30 years of experience as an information technology professional and correctional business analyst. She was appointed Deputy Administrator in 2017. She has directed management of the information systems since 2002 and has overseen Inmate Treatment & Programs and Records before those duties were transferred to a new deputy commissioner. She has served in several other positions, including as director of policy and planning from 2001 to 2002; lead programmer analyst from 1989 to 2001; research statistician from 1988 to 1989; and accounting clerk from 1986 to 1988.

In her role as Chief Information Officer, McAfee provides timely analyses and makes recommendations to meet legislative changes and to implement new or modified programs. Essentially, she translates requirements into action plans and provides the leadership necessary to ensure business needs are addressed efficiently and effectively. She is on the front line of prison operations in the state, and has played an instrumental role in criminal justice reform achieved under legislation enacted in 2014.

McAfee has a Master of Business Administration degree from Belhaven University and a Bachelor of Science degree in chemistry from Tougaloo College. Also, she has various certificates from the State of Mississippi IT Course Work. She is the agency representative on the Mississippi Wireless Communication Commission.
