Commissioner Burl Cain

Burl Cain is in his fourth year as Commissioner since his appointment by Gov. Tate Reeves on May 21, 2020. He is a renowned correctional professional known for his transformative and innovative work in the Louisiana prison system during a storied career spanning more than 40 years.

Cain previously retired from the Louisiana Department of Corrections (LDOC) after leading an evolution of change at the Louisiana State Penitentiary (LSP), once known as the “Bloodiest Prison in America.” Under his 21 years of leadership, LSP, the state’s only maximum security prison, became one of the safest, most secure, and progressive maximum security prisons in the nation.

Cain has brought many of his transformative strategies to the Mississippi prison system. His moral rehabilitative programs have been implemented with concentration on preparing eligible inmates for life after incarceration through intensive vocational and educational training

programs. Other initiatives include work release and reentry programs.

Inmate field ministers have been utilized in encouraging and promoting faith-based programs to replace security threat groups with productive inmate groups. Construction of new chapels is also a hallmark of Cain’s goals for the prisons.

Under Cain’s leadership, MDOC also strives to increase its ranks of correctional officers and advocate for better salaries for personnel.

Cain serves as CEO and Founder of Global Prison Seminars Foundation, a nonprofit organization that promotes positive changing of prison culture through theological education programs in prisons throughout the United States and internationally. Prison Seminary Model programs now exist in 17 states, including Mississippi.

Cain earned a Bachelor of Science degree in vocational agriculture from Louisiana State University and a Master of Science in criminal justice from Grambling State University. Cain is a Certified Corrections Executive through the American Correctional Association and is an Emotional Intelligence Certified Practitioner.

STATE OF MISSISSIPPI
DEPARTMENT OF CORRECTIONS
BURL CAIN
COMMISSIONER

Dear Fellow Mississippians:

I present to you the annual report of the Mississippi Department of Corrections for Fiscal Year 2024. This report is a snapshot of the department's activities from **July 1, 2023, to June 30, 2024**. The Mississippi Legislature authorized an appropriation of \$405, 228, 240.00 from the general fund and \$28,516,738 from special funds in Senate Bill 3011 (2023 session).

MDOC reached the halfway point of my administration and we have come a long way in making our prison facilities and programs better for the inmates and changed the culture of our prison system overall for our state. We achieved many of our initial goals while setting new ones and met them too. Much more needs to be done. We can achieve all our goals and more as long as we all work together.

Many things are going on in the MDOC for you to read about in the pages of this report. A big part of our focus is getting inmates educated and trained in skills learned so when those eligible for release get out, they have a better chance of getting a job and not coming back. Hundreds of inmates are being trained to become welders, electricians, construction workers, and much more. A Reentry Academy provides a pathway for inmates to have a better chance at success after release. We officially opened the state's first licensed cosmetology school for inmates in several years.

MDOC continues to help local and state governments save money through inmate labor including garbage and trash pickup, event assistance, and many other tasks. Idleness was replaced with inmates' arts and crafts being made and creating athletic programs. We developed creative ways to increase inmates' productivity while changing attitudes.

Our partnership with the New Orleans Baptist Theological Seminary is going strong. Inmates are earning degrees and we're training them as field ministers to serve as mentors and be agents of change. Moral rehab is the only true rehabilitation. We are making progress in turning inmates' lives around to be better citizens and have fewer victims.

There are many challenges in recruiting corrections officers, probation and parole agents, and other personnel. We are working hard to get the word out to the public about the benefits and career opportunities available for people who join our team.

We are moving as fast as we can to put all the pieces in place for the Mississippi Department of Corrections to remain a viable, productive, economically sound, and efficient agency to support the best prison system possible for the people of Mississippi.

Sincerely,

Burl Cain

Commissioner

Highlights

First prison cosmetology school opens at Delta facility

October 16, 2023 - The MDOC officially opened the state's first licensed cosmetology school for inmates in several years.

The entire Mississippi State Board of Cosmetology traveled to the Delta Correctional Facility (DCF) in Greenwood to cut the ribbon after spending a year helping to organize an instructional program for females there.

In the program, the first class of 28 inmates faced rigorous coursework in the science of cosmetology for a year. After passing exams, they are officially licensed.

Graduates of this new program earn money and leave prison with a license and tools. Cosmetology Board officials said hardworking graduates can earn six figures within a few years.

MDOC provides inmate labor for trash pickup programs

February 22, 2024 - Interstate roadsides in the Jackson area were made a little cleaner with assistance of inmate labor. MDOC joined efforts with the Mississippi Department of Transportation and the City of Jackson to implement a litter removal program for the interstate areas. The program includes Interstate 55, Interstate 20, and Interstate 220. Inmates initially removed enough litter to fill 32 bags. The program also allows the inmates to work off some of their fines.

Inmates create arts and crafts at Walnut Grove facility

March 23, 2024 - A March Madness event featured a variety of arts and crafts made by inmates at the Walnut Grove Correctional Facility in Leake County. The event included hobby craft items such as birdhouses, outdoor furniture, rocking chairs, benches, picnic tables, and more.

New Re-Entry Academy creates pathways for inmates' success

April 10, 2024 - A new program underway provides a pathway to re-entry to reduce the number of people returning to prison. More than 344 inmates have already completed the Re-Entry Academy with a group of 34 having just finished at the Mississippi State Penitentiary.

Using evidence-based principles, the Reentry Academy is a three-month structured program designed to strengthen inmates' life skills to help assimilation back to society. The academy began with about 1,000 inmates last fall. Eligible inmates must have a clean prison record, a GED or HED, be within 36 months of release, and be committed to finishing the program among other requirements. The program is designed to stem the recidivism rate within the first three years of release.

Deputy Commissioner Kelley Christopher, who oversees programs, education, and reentry, said when an inmate struggles other inmates help provide support through the program.

“The first measurement of the success of an inmate’s return to society is that he or she does not come back to prison,” Christopher said. “The goal of the Reentry Academy is to create a consistent, uniform pathway for inmates to gain the personal skills, perspectives, and the confidence to navigate the inherent obstacles in the way of a felon as he or she creates a new life in a free society.”

MDOC gets creative with rehabilitation through athletics

April 24, 2024 - The MDOC developed creative ways to reduce idleness while also changing attitudes and heightening inmates' productivity level for rehabilitation. Among them is an increased focus on sports, including basketball, boxing, flag football, and softball. Sport teams were organized at all state-run facilities. Teams compete against each other, giving inmates something to look forward to while also creating sportsmanship among their peers.

Mississippi State Penitentiary held its first boxing match in November 2023 with teams competing with Central Mississippi Correctional Facility.

MSP Superintendent, Marc McClure explains, “The inmates who participate have pre match physicals and are required to take drug tests. The boxers get a special visit following their match where they can share a meal with their families. This has been beneficial to reducing behavior problems and providing an additional tool to improve both inmate morale and reducing idleness.”

More than 100 inmates prepare for release with vocational skills

April 24, 2024 - Hundreds of inmates are being trained to become welders, electricians, construction workers and much more when they are released from prison after completing courses in the MDOC's Vocational Village programs.

The latest class of 102 inmates just completed coursework, 94 of them participated in a graduation ceremony at Central Mississippi Correctional Facility in Rankin County. Vocations taught include auto repair, construction trades, metal working, welding, duct-working, horticulture and landscape design, small engine repair, fiber optics, computer and coding classes, culinary arts, electrical, carpentry, and others.

MDOC unveiled the centralized group of programs to “streamline the process for inmates, especially those who are eligible for parole, as well as for instructors teaching multiple classes across the vocational spectrum,” said Commissioner Burl Cain.

College degrees give incarcerated women new hope

April 24, 2024 - It's been a year since the Mississippi Correctional Institute for Women had its first seminary graduation to produce 12 women who are the first female inmates in Mississippi to graduate with associate's degrees from a nationally accredited seminary. Since then, they have firmly established their roles within the prison.

Graduates are not ordained but act as inmate religious assistants to chaplains. The seminarians conduct baptisms, funerals, worship services, and provide support to inmates during emergency situations. Along with their crisis support duties, they conduct Bible studies, lead devotions, and assist with volunteer religious groups.

The seminary provides opportunities for inmates to support each other as well as teach them valuable lessons that can be used within the correctional facility and after release.

Inmates beam with pride when talking about how the seminary and the chapel built last year have changed the culture within the facility.

2024 Legislation

The following bills relevant to the MDOC will become laws following the 2024 Session:

- **HB 757** - Establishes conditions for housing of state inmates in county jails when commissioner determines physical space is not available in state correctional institutions.
- **SB 2445** - Extends the Mississippi Correctional Facility Pilot Work Release Program to include Hinds County and extends other repealers.
- **HB 844** - Requires Mississippi Parole Board to solicit recommendations from certain individuals before a parole hearing for any offender convicted of certain crimes of violence and requires Parole Board to notify certain individuals before hearing within a set period of time beforehand.
- **SB 3039** - Provides funding for MDOC budget.
- **SN 48** - Appoints Philip Moran to State Parole Board.

To view more corrections legislation, visit MDOC's website <https://www.mdoc.ms.gov/general-public/related-legislation>
For general legislation, visit the Mississippi Legislature's website <https://www.legislature.ms.gov>

Victims Services

The Division of Victim Services (DVS) - The DVS overall has registered **312,520** victims from Nov. 1, 2000 - the program's beginning date - until June 30, 2024.

Statewide Automated Victim Information and Notification (SAVIN):

- New VINE registrations (county/state) = **21,713**
- Total VINE searches (county/state) = EVINE **48,986**
- Total VINE notifications released (county/state) = EVINE **145,270**

The DVS, in collaboration with the SAVIN Director and the Attorney General Victim Advocates, program materials outlining the victim-based services provided by MDOC, had been delivered to select District Attorney Offices, law enforcement agencies, victim-based service providers, and college/university campuses. In addition, materials were also distributed elsewhere via shipment. The DVS also utilized partnerships with District Attorney Offices Victim Assistance Coordinators throughout the state to ensure awareness that unregistered victims will be provided information or be referred directly to DVS/SAVIN.

MISSION STATEMENT

To enhance public safety by providing safe and secure facilities, effective supervision, and rehabilitative services that transform lives.

VISION STATEMENT

The vision of the Mississippi Department of Corrections is to be a professional organization that is honorable, innovative, and fiscally responsible.

CORE VALUES

INTEGRITY — MDOC Employees serve as positive role models and conduct themselves professionally through fair, honest, and ethical behavior.

ACCOUNTABILITY — MDOC employees accept responsibility at all levels for decisions, actions, and consequences.

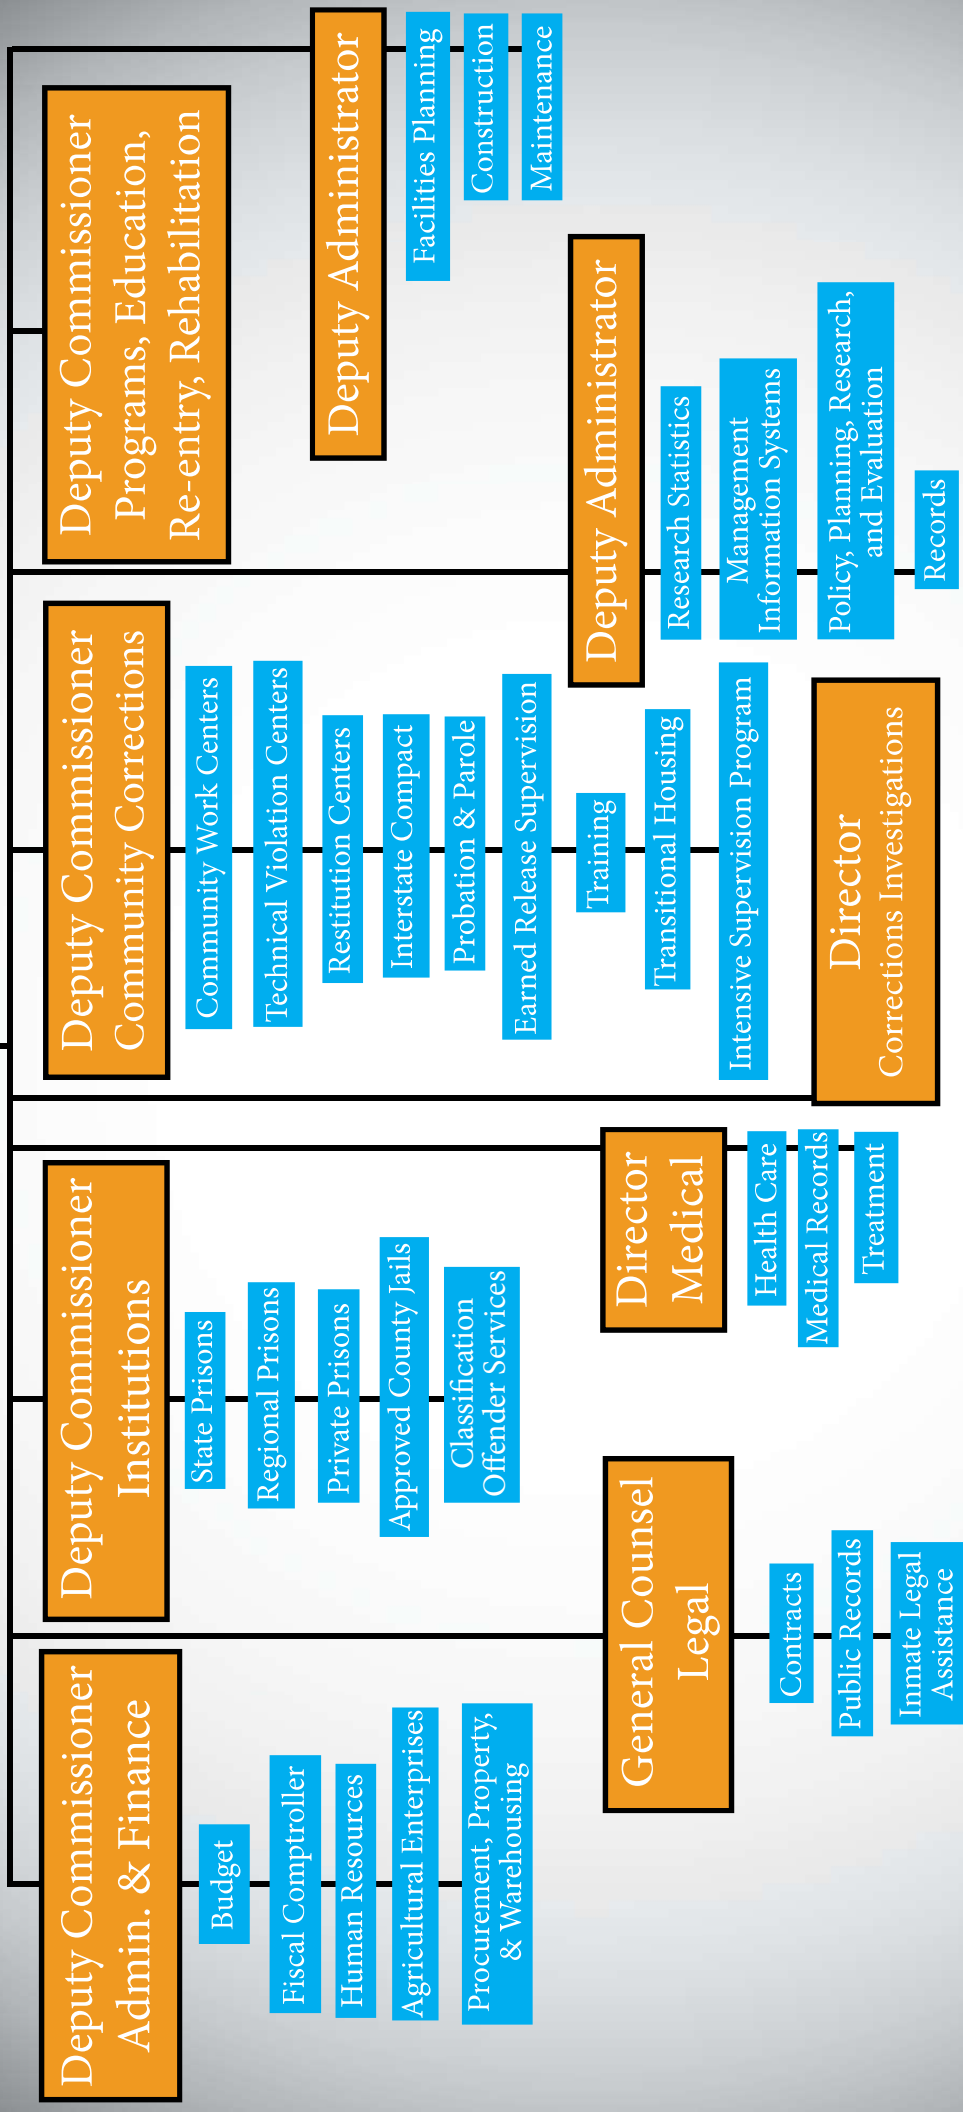

FAIRNESS — MDOC employees perform their duties in a just manner free of discrimination and favoritism.

COMPETENCE — MDOC employees possess the skill, knowledge, qualification, and capacity to perform their duties effectively.

CONSISTENCY — MDOC employees promote and demonstrate uncompromising moral conduct, behavior, and actions in all of our decisions.

Commissioner

Chief of Staff

- Commissioner.....Burl Cain
- Chief of Staff.....Dr. Mary Ann Ross
- Dep. Commissioner- Finance and AdministrationDerrick Garner
- Dep. Commissioner- Institutions.....Jeworski Mallett
- Dep. Commissioner- Community CorrectionsNathan Blevins
- Dep. Commissioner- Programs, Education, Re-Entry, RehabKelley Christopher
- Dep. Administrator- TechnologyAudrey McAfee
- Dep. Administrator- Facilities, Construction, MaintenanceBarney Poole

****This is the hierarchy status as of the end of the Fiscal Year - June 30, 2024.**

Chief of Staff

Dr. Mary Ann Ross

Dr. Ross was appointed as Chief of Staff in January 2024 to help lead the executive staff and the Department of Corrections.

She brings more than 25 years of executive leadership experience in corrections, mental health, education, substance use disorder treatment, permanent supportive housing, nonprofit management, and business consulting.

Her extensive career includes developing and directing “landmark” reentry facilities for the California Department of Corrections and serving as executive director/warden for several private prisons.

She earned a doctorate in psychology with an emphasis in psychopharmacology/health psychology, a Master of Education in instructional technology, and a Bachelor of Arts in criminal justice and social work.

Dr. Ross is a licensed mental health therapist and certified substance use disorder supervisor.

She holds professional certifications in Human Resource Management/Labor Laws and has teaching credentials in multiple academic subjects and specialized certifications in didactic instruction for individuals with moderate to severe intellectual/developmental disabilities.

Dr. Ross’ role includes advising the Commissioner and coordinating with the Deputy Commissioners’ divisions on strategies and directives to carry out the mission of the agency.

Administration and Finance

Deputy Commissioner

Derrick Garner

Before taking command of the Administration and Finance division, Derrick Garner previously served as the agency's Chief Fiscal Officer, focusing on the budget operations.

Before beginning his tenure at MDOC, Garner served as director of the compliance division for the Mississippi Office of the State Auditor where he managed compliance audits for all county and state entities. In this capacity, he helped to ensure that all agencies were following state law and internal controls. Garner held other previous positions with the State Auditor's office including OSA field auditor specialist, special agent, and auditor analyst.

Prior to the State Auditor's office, Garner served the Mississippi Gaming Commission as a compliance officer. He handled reports concerning results of examinations and related information. Garner also examined and approved internal controls procedures for the entire Mississippi gaming industry. He also helped in budget preparation, payrolls, and other accounting activities.

Garner earned a Bachelor's degree in accounting from Mississippi College and a Master's degree in business administration from Delta State University. He holds professional accreditations including that of a Certified Public Accountant, Certified Public Manager, Certified Fraud Examiner, and Certified Law Enforcement.

The division of Administration and Finance is responsible for the following agency functions:

- * Budget
- * Grants
- * Fiscal Affairs
- * Internal Audit
- * Human Resources
- * Performance Audit
- * Agricultural Enterprises
- * Procurement, Property and Warehousing

Mississippi Prison Agricultural Enterprises

Agricultural Enterprises, a program under the Division of Administration and Finance, is responsible for farming operations at the Mississippi State Penitentiary (MSP) in Parchman and South Mississippi Correctional Institution (SMCI) in Leakesville. Most of the farming occurs at Parchman. Minimum custody residents can participate each year in planting, harvesting, and processing crops, including vegetables and fruits. The crops are shipped to MDOC facilities to feed the incarcerated adults to help reduce food cost.

The Mississippi Prison Agriculture Enterprise (MPAE) program leased **9,491.75** acres in Sunflower County and **141.16** acres in Quitman County for a total revenue of **\$1,175,297.09** in fiscal year 2024. The amount brought the average rent per acre to **\$160.75** for irrigated and **\$98.64** for non-irrigated. MPAE farmed about **3,980.33** acres in Sunflower County, growing soybeans, vegetables and pecans.

Soybean production was about **161,728.68** total bushels with a revenue of **\$2,110,916.30**. The vegetable operation produced **343,502** pounds of vegetables on approximately 75 acres garden and **10,700** pounds of pecans on approximately **40** acres orchard. The blueberry operation at SMCI produced **24,123** pounds.

The value of the donated foods was about **\$326,091.79**. The prices are based on the Atlanta Produce Market.

Institutions

Deputy Commissioner

Jeworski Mallett

Jeworski Mallett is Deputy Commissioner of Institutions for the Mississippi Department of Corrections where he has served since February 2020. Before this appointment, he served as director of Records since 2013.

Mallett received the “2020 Excellence in State Government” award.

“Because of your leadership, because you are a team player and the fact that you have stepped up in these challenging times, I want you to know from me personally that it’s made a difference. The place we find ourselves today at the Department of Corrections is literally night and day from the place we found it when we came in 11 months ago. And, Jay, you had outstanding competition,” Gov. Tate Reeves said.

Mallett has nearly 20 years of work experience in the correctional system, beginning his career as a correctional officer at the Mississippi State Penitentiary, the oldest prison in the state. While at MSP, he was assigned to maximum security Unit 32, which housed death row, maximum security, protective custody, and inmates in segregation. Since then, he has held various positions to include investigator, classification hearing officer, operations management analyst, principal, deputy warden of Support Operations, division director of Institutional Operations, and interim training director, while moving up the ranks within the MDOC.

Mallett has worked with various criminal justice agencies across the country on projects surrounding administrative and protective custody offender populations. He played a key role in assisting the MDOC in revising its Use of Force, Administrative Segregation, Offender Disciplinary, Protective Custody, and Classification Policies and Standard Operating Procedures. Also, he has presented on administrative segregation in Mississippi at the American Correctional Association (ACA) conference.

Mallett completed his undergraduate studies in Business Administration at Alcorn State University and holds an MBA from Delta State University in Management/Administration. He also is a certified public manager. Mallett is a member of Alpha Phi Alpha Fraternity Inc., the ACA, and the Mississippi Association of Professionals in Corrections (MAPC).

He is also a 2016 MDOC Distinguished Employee of the Year and has received numerous Extra Effort Awards. In June 2020, Mallett was honored with a commendation and awarded a Commissioner’s Coin from Commissioner Burl Cain. Mallett was congratulated for his work in leading the institutions division through its COVID-19 response.

Mississippi State Penitentiary

Physical address: MS Highway 49 West

Mail address: P.O. Box 1057

Parchman, MS 38738

662-745-6611

The Mississippi State Penitentiary (MSP) is the state's oldest institution, opening in 1901. It is located on approximately 18,000 acres at Parchman in Sunflower County. It has 3,560 beds, 58 support buildings and seven different housing units, ranging in size from 56 beds at Unit 42 (hospital) to 1,568 beds at Unit 29.

MSP is authorized for 635 full-time permanent positions and nine are time-limited.

MSP houses all male inmates who are classified as protective custody, administrative segregation, administrative long-term segregation, and death row. The custody levels are minimum, medium, and close.

MSP inmates provide more than 100,000 hours of free labor each year to adjacent municipalities and counties, as well as assisting other state agencies.

The majority of the farming activity involving Mississippi Prison Agricultural Enterprises (MPAE) happens at MSP. MPAE supplies food to Parchman and the other state prisons, community work centers and restitution centers.

MAGCOR (previously known as Mississippi Prison Industries Corp. (MPIC)) operates a work program for its textile and metal fabrication.

Also, unlike the other state prisons, MSP has its own hospital. Health care is contracted through VitalCore Health Strategies, which provides medical services 24 hours a day. VitalCore's staff and MSP Hospital is full service licensed.

Another unique feature of Parchman is that it is the facility where state executions are carried out. All executions are carried out at Unit 17 by lethal injection.

Parchman cemetery is also located on prison grounds. Inmates whose families cannot afford to bury them or those who do not have family members to claim their remains are buried on two acres. Records show that the first burial was in 1930.

Programs offered at MSP include: therapeutic recreation, religious programs, independent study and tutorial programs, pre-release, faith based program, alcohol and drug program, ABE/GED programs, Administrative Remedy Program (ARP), PACT, agri-business, auto body and fender, auto mechanics, carpentry, diesel mechanics, communications systems installer, heating, air conditioning and refrigeration, industrial electricity, marine maintenance, welding, and culinary arts.

More program information is available on page 50 in this report.

Superintendent
John Hunt

Central Mississippi Correctional Facility

Physical address: 3794 Highway 468

Mail address: P.O. Box 88550

Pearl, MS 39208

601-932-2880 ext. 6200

The Central Mississippi Correctional Facility (CMCF) was established in 1986 and built on 171 acres in Pearl in Rankin County. The facility was expanded in 1996 and now includes 18 housing units and 10 support buildings to accommodate its current capacity of 4,102 Offenders. CMCF is the first stop for individuals sentenced to the Mississippi Department of Corrections (MDOC). It provides initial orientation and classification.

CMCF is authorized to have 635 full-time permanent positions and five time-limited.

Of the state prisons, CMCF is the only facility to house female inmates and youthful offenders. Its population consists of both male and female inmates of all custody levels (minimum, medium, and close) to include female inmates sentenced to death.

Youthful offenders are housed in a separate facility. The Youthful Offender Unit (YOU) opened on Dec. 12, 2012, as a separate, independent facility to serve individuals under the age of 18. It offers a wide range of programs to include Academic Classes, Vocational Programs, Mental Health Counseling, Psychological and Psychiatric Services in a group and individual basis, Alcohol and Drug Treatment, Social Services, Religious and Recreational Services.

MAGCOR (Formerly known as MPIC) operates a commercial print shop, a Johnson & Johnson Clean Room, which provides cleaning and sterilization of suture spools for its suture manufacturing operations; and a metal fabrication shop.

**John Hunt succeeded Derrick Chambers as superintendent.*

Superintendent
Brand Huffman

South Mississippi Correctional Institution

Physical address: 22689 Highway 63 North

Mail address: P.O. Box 1419

Leakesville, MS 39451

601-394-5600, ext. 1400

The South Mississippi Correctional Institution (SMCI), was established in 1989. It is the first prison in the state to receive accreditation from the American Correctional Association and the National Commission on Correctional Health Care.

SMCI sits on 360 acres at Leakesville in Greene County. It has 16 housing units and a maximum 3,082 beds. Men classified as minimum, medium, and protective custody are housed there as well as those in disciplinary detention, high risk incentive program, and long-term segregation.

The prison is authorized to have 497 full-time permanent positions and four time-limited positions.

SMCI provides free inmate labor to Greene County and adjacent municipalities and assists other state agencies. Inmates are assigned to the Greene County Road Crew and a mobile work crew.

Inmates can also work in the blueberry operations. The orchard was started at the prison in 2006 as a way to address inmate idleness and to teach inmates a trade skill in the blueberry industry. The blueberries help reduce food cost and serve as a healthier menu option.

Programs offered include: Adult Basic Education, Alcohol & Drug, Religious Programs, Vocational Programs, Inmate Legal Assistance, Pre-Release, and Therapeutic Recreation. The SMCI Education Department offers both Adult Basic Education (ABE) and General Educational Development (GED). Students have access to a full-time counselor. The Alcohol and Drug Program is both short term (12 weeks) and long term (six months) with individual and group counseling for treating alcohol and drug addictions. Other than alcohol and drug education, the classes and groups cover relapse prevention, coping skills, life skills/re-entry and post release, interview skills, anger and stress management, depression management, anxiety management, communication, and relationship skills. Upon successful completion, inmates are awarded a certificate. Services are also provided for community work center inmates and those in SMCI administrative segregation and protective custody units.

The Chaplains Department is responsible for all religious activities at SMCI. In addition to regularly scheduled religious programs, Bible classes are offered whereby the inmates may study together. The department has a pastoral and crisis ministry which includes spiritual guidance counseling during a crisis or grieving period. Chaplains also provide marriage counseling and coordinate the marriage process of those incarcerated. Additionally, this department is responsible for interviewing, training, and supervising volunteers providing a variety of services.

The Vocational Technical Department offers five programs (auto body, auto mechanics, electrical, plumbing and pipefitting, and welding) that enable offenders to become productive citizens after release. The length of each program is 1,300 hours to 2,650 hours. GED classes and tutoring are available at night. Inmates can obtain employment skills through Mississippi Prison Industries Corp.'s clothing manufacture operations.

Through the state's contracted healthcare vendor, VitalCore Health Strategies provides onsite medical services to its offenders and those at the regional facilities in south Mississippi. These onsite services include, but are not limited to, emergency care, infirmary care, dental, optometry, clinical, and pharmaceutical services. Specialty care services are also available through a network of off-site contracted hospitals and specialty care providers.

More program information is available on page 50 in this report.

Superintendent
Chris Loden

Marshall County Correctional Facility

Physical address: 833 West St., Holly Springs, MS 38635

Mail address: P.O. Box 5188, Holly Springs, MS 38634-5188
662-252-7111

The Marshall County Correctional Facility opened in June 1996 as a privately operated facility for MDOC. The facility received ACA accreditation in July 1997 and was re-accredited in March 2020. The facility was transferred to full operation and added to the MDOC institutions division in September 2021.

Marshall is authorized to have 153 full-time permanent positions and no time-limited positions.

The facility has the capacity to house 1,000 inmates located on approximately 44 acres at Holly Springs in Marshall County. It has 900 beds spread among eight buildings and six housing units.

The facility houses male inmates only. There was no free labor for the community during this time. The custody levels include minimum and medium.

Programs for fiscal year end as of June 30, 2022, included:

- Adult Education (GED)
- Alcohol and Drug
- Anger Management
- Barbering
- Computer Skills
- Culinary Arts
- Faith Based Programs
- Financial Literacy
- Inside Out Dads
- Moral Reconciliation Therapy
- Music
- Workforce Readiness

More program information is available on page 52 in this report.

Superintendent
Mike Dixon

Walnut Grove Correctional Facility

Physical address: 1650 MS Highway 492

Mail address: P.O. Box 389

Walnut Grove, MS 39189

601-253-0700

Walnut Grove Correctional Facility was established in 1990. WGCF sits on 72 acres and has an additional 27 acres not connected. Walnut Grove is a small town in Leake County with a population of 1,675.

Walnut Grove is authorized to have 170 full-time permanent positions and no time-limited positions.

From 1996 to 2016, Walnut Grove was operated by privately owned companies and from 1996 to 2012, the facility's mission was to house youthful offenders. In 2012, the facility's mission changed and it housed adult offenders until the state closed the facility in 2016.

In November 2021, the MDOC reopened the facility. The Walnut Grove facility can house 1,496 inmates at full capacity. The inmates are offered several different re-entry programs while housed at the facility including Alcohol and Drug, Anger Management, GED, and Security Threat Management.

**Mike Dixon succeeded Christopher Dykes as superintendent.*

More program information is available on page 52 in this report.

Deputy Superintendent
Albert Carter

Delta Correctional Facility

3800 Baldwin Road, CR 540
Greenwood, MS 38930

662-455-7277 (O) 662-455-7300 (F)

The Delta Correctional Facility had previously been closed for a number of years until the Mississippi Department of Corrections took ownership. Under MDOC's initial control, the facility was supervised by the Community Corrections division and served as a Technical Violation Center, a Community Work Center, and a Restitution Center.

In fall 2022, the facility was transferred to the Institutions division and is now designated as a major state facility. Delta is authorized to have 122 full-time permanent positions and no time-limited positions.

The facility houses approximately 300 female inmates. The facility is now primarily aimed at the rehabilitation and workforce development for adult female inmates. Programs are being developed and plans include, but not limited to, offering Alcohol and Drug Counseling and GED educational programs.

Legislative data for authorized positions was not available due to the facility being admitted to MDOC after the appropriations were made.

**Deputy SuperintAlbert Carter commanded the facility until a permanent superintendent was appointed following the departure of Susan Swindle.*

More program information is available on page 53 in this report.

Superintendent
Tereda Hairston

Mississippi Correctional Institute for Women

Physical address: 3794 Highway 468

Mail address: P.O. Box 88550

Pearl, MS 39208

601-932-2880 ext. 6720

The Mississippi Correctional Institute for Women (MCIW) is located on the grounds of the Central Mississippi Correctional Facility (CMCF) which was established in 1986 and built on 171 acres in Pearl in Rankin County. Similar to CMCF, the MCIW is the first stop for female individuals sentenced to the Mississippi Department of Corrections (MDOC). It provides initial orientation and classification.

The facility was formerly known as the 720 building complex which housed male inmates until March 2023 when the facility was given its new designation and female inmates replaced the male inmates who were moved to other areas of CMCF. A new chapel to serve the religious needs of the female prison population was completed and dedicated on June 15, 2023.

MCIW houses female inmates of all custody levels (minimum, medium, and close) to include female inmates sentenced to death.

Legislative data for authorized positions was not available due to the facility being created during the fiscal year.

**Tereda Hairston succeeded Latoya Anderson as superintendent.*

Community Corrections

Deputy Commissioner

Nathan Blevins

Deputy Commissioner Nathan Blevins worked his way through the ranks of Community Corrections at the Mississippi Department of Corrections to lead the division and serves with the distinction of having a sworn law enforcement officer background.

He began as a probation and parole officer, also known as a field officer, in January 2003, and was promoted to Community Corrections Associate Director and then Community Corrections Director. Seventeen years later, he had become the leader. In addition to managing the supervision of individuals on supervision in Mississippi's three Community Corrections Divisions, he is also in charge of the Emergency Response Teams.

Blevins was a member of the Mississippi State University Police Department for five years before joining the MDOC. He graduated the Mississippi Law Enforcement Officers Training Academy in Pearl. The Aberdeen native, who grew up in Caledonia, attended East Mississippi Community College, where he earned an Associate of Science Degree and received All-American honors while playing football under the renowned Coach Tom Goode. He went on to receive a Bachelor of Science degree in criminal justice and sociology at Mississippi State University. He served in the Mississippi Army National Guard for nine years.

Blevins, a member of the Omega Psi Phi Fraternity, is the recipient of numerous awards, including Employee of the Month and Employee of the Year Nominee for the MDOC. He also received Top Cop honors while serving in the academy and was nominated for Professional of the Year at MSU. He has completed several courses taught by the FBI and is trained in both basic and advanced SWAT.

This division is responsible for the following agency functions:

- * Community Work Centers
- * Restitution Centers
- * Technical Violation Centers
- * Interstate Compact
- * Probation
- * Parole
- * Intensive Supervision Program
- * Earned Released Supervision
- * Transitional Housing Services
- * Training Department

Community Corrections includes work centers, restitution centers, technical violation centers, and transitional housing. The division is also charged with the supervision of individuals who serve their sentences in the community through the following types of releases — house arrest (Intensive Supervision Program), probation, parole, medical release, and earned release supervision (ERS).

FACILITIES

Community Work Centers (CWC)

The community work centers include minimum security residents who are provided a gradual re-introduction into community life. The centers provide alcohol and drug counseling, GED preparation, and religious programs. Residents perform a wide range of labor at no cost to city, county, and state government agencies and school districts. This work includes community beautification projects, bridge and road repair work, vehicle maintenance, water and sewer, and sanitation details.

Pike CWC: Offers basic manufacturing class that teaches fundamental skills, precision measures, etc. They also offer computer literacy class that teaches how to use a computer including typing skills. They offer NCCER programs and Thinking for a Change rehabilitative programs.

Madison CWC: Programs include residential substance abuse, long and short terms; Getting Ahead While Getting Out, support system for people in poverty and returning citizens to help break cycle of poverty through accountability and rebuilding resources; Financial Literacy Boot Camp, Education and Research, teaches financial education and provide tools to help individuals with essential skills to manage money, reduce debt, build savings, and make informed financial decisions.

Flowood CWC: Bible study programs are available.

Noxubee CWC: NCCER-CORE offers construction skills and Thinking for A Change program.

Forrest CWC: Moral Reconciliation Therapy, ensures that offenders understand importance of character and morals; Programs also include alcohol and drug programs and Disciple Training, faith-based classes focused on the importance of having a relationship with God through practical biblically rooted curriculum.

Restitution Centers

The restitution centers assist individuals under the supervision of the state in obtaining employment as a condition of their probationary sentence. They are located in Flowood and Pascagoula. Money earned by residents is distributed to crime victims for restitution, courts for court costs and fines, and MDOC for room and board. The remainder of the wages, after taxes, goes to the residents' families or the residents' holding account. Upon completion of the program, the residents are referred to a probation/parole agent for supervision and remain with the agent for their probationary sentence.

Technical Violation Center (TVC)

Individuals are sentenced to a TVC for an act or omission that violates a condition or conditions of being placed on community supervision (parole, probation, or post-release supervision). The TVC is designed to address the underlying factors leading to the violation, including substance abuse. The centers were created under House Bill 585, which took effect July 1, 2014.

The technical violation centers include the following locations: Males only are based at Madison County CWC, Pike County CWC, Wilkinson County CWC, and Quitman County CWC. Females only are at the Flowood CWC in Rankin County.

Transitional Programs

Unlike a technical violation center, transitional centers house residents released from the Department of Corrections on parole, probation, or post-release supervision who need temporary housing and services that reduce their risk to re-offend. MDOC has both state-operated and private transitional facilities.

2024 ▶ MDOC Annual Report

Portions of two community work centers were converted to transitional centers: Flowood CWC, Noxubee County CWC, Madison County CWC, and Wilkinson County CWC.

The MDOC contracts with Crossroads Outreach Ministries in Madison, New Way Mississippi Inc. in Jackson, Gateway Rescue Missions in Jackson, and Mississippi Offender Re-Entry Experience (MORE) in Jackson.

SUPERVISION

Probation & Parole is responsible for supervising individuals serving sentences in the community in three regions (North, Central, and South). Each region has a Community Corrections Director (CCD), and that person reports directly to the Deputy Commissioner of Community Corrections.

Probation

Probation is an alternative to incarceration. A circuit judge has the sole authority to order probation for a defendant. Individuals sentenced to probation must successfully complete the requirements imposed by the court.

Parole

Parole is a form of early release from incarceration. Multiple factors are considered: type of offense, institutional conduct, and participation in rehabilitative programs. Whether or not an individual is released early to parole is within the complete discretion of the Mississippi State Parole Board which is a separate entity from MDOC.

Intensive Supervision Program

The Intensive Supervision Program (ISP), commonly referred to as house arrest, provides supervision in a community-setting rather than incarceration. Only a judge can sentence an individual to house arrest. Supervised individuals are required to wear electronic monitoring equipment and are limited in most cases to employment, treatment, and worship services activities. Offenders maintain a custody status and can be immediately placed in an MDOC facility upon violation of the program.

Earned Release Supervision

Earned Release Supervision is a program whereby an individual eligible under applicable state law (Mississippi Code § 47-5-138 through § 47-5-140) may earn a conditional release to community supervision through good behavior and performance requirements of the earned time allowance program. Once the individual has met the requirements, a probation and parole agent conducts a residence investigation. The residence must be approved prior to release. ERS participants retain custody status. The period of ERS is conducted in the same manner as time on house arrest.

Medical Release

State law (§ 47-7-4) permits incarcerated individuals with serious medical conditions to be transferred under certain conditions to Community Corrections. The commissioner and the chief medical director may place a nonviolent individual on conditional medical release regardless of time served. Violent offenders must serve at least one year of their sentence before being eligible for conditional medical release.

ALTERNATIVES TO INCARCERATION

Drug Court

Drug court is a specialized court that handles cases of individuals with drug and alcohol dependency. It seeks to rehabilitate participants through treatment and intense supervision with frequent court appearances and random drug testing. It offers the incentive of a chance to remain out of prison and be employed. However, participants can be sanctioned with a prison sentence, if they fail to remain drug-free.

Pre-Trial Diversion

The Pre-Trial Diversion program is an alternative to a felony conviction. Defendants voluntarily submit to supervision ranging from six months to three years. Charges may be dismissed if the period of supervision is successfully completed.

INTERSTATE COMPACT

Mississippi participates in the Interstate Compact for adult offenders. Under the terms of the compact agreement, the MDOC provides courtesy supervision to probationers and parolees from other states in exchange for courtesy supervision of Mississippi's incarcerated individuals residing in other states.

The core mission of Interstate Compact is to promote public safety, ensure effective supervision/rehabilitation, protect the rights of victims, and control/track movement of supervised individuals.

PROGRAMS

Thinking for a Change (T4C)

Thinking for a Change is a cognitive-behavioral therapy model that is proven to be effective in changing criminological thinking patterns. Thinking for a Change classes are offered not only in Institutions but also in Community Corrections.

Alcohol and Drug Treatment

Alcohol and drug treatment programs are provided at several community-based residential facilities.

Education

Adult-based education and GED/high school equivalency test programs are provided at several community-based residential facilities.

Resource Assistance Program (R.A.P.)

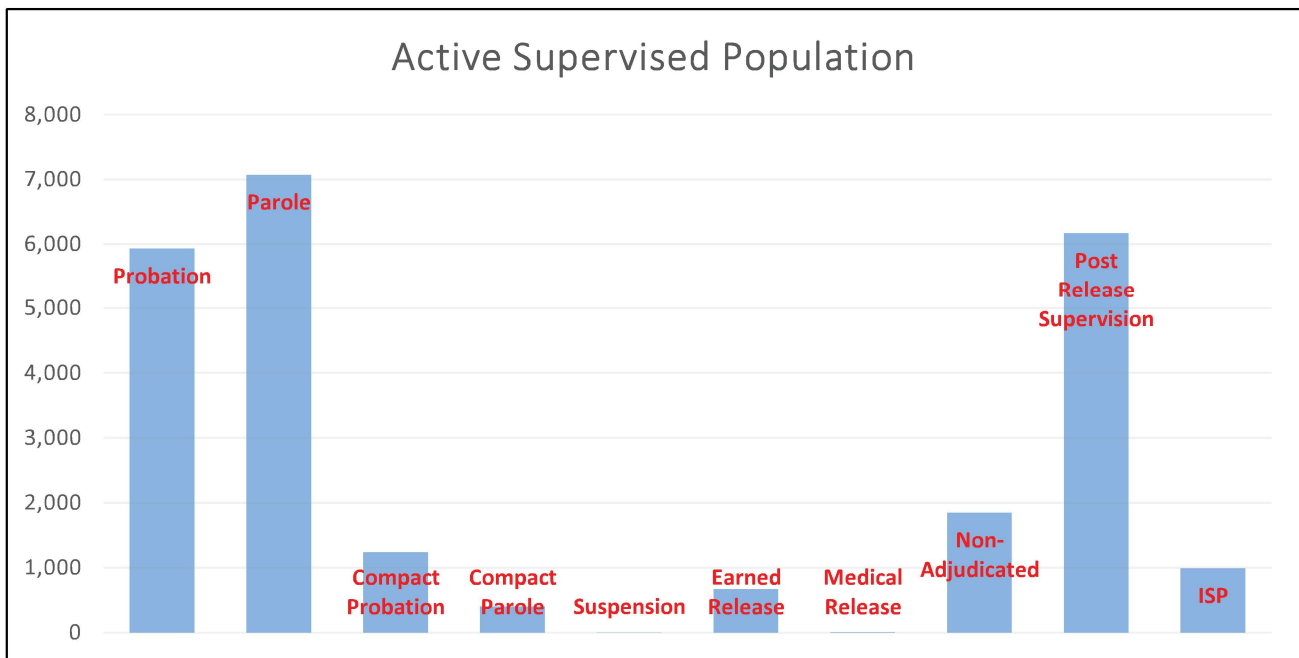

There are 26 R.A.P. program coordinators statewide to assist probation and parole agents in monitoring supervised individuals' treatment needs, employment, and additional barriers to their successful re-entry.

DRUG TESTING

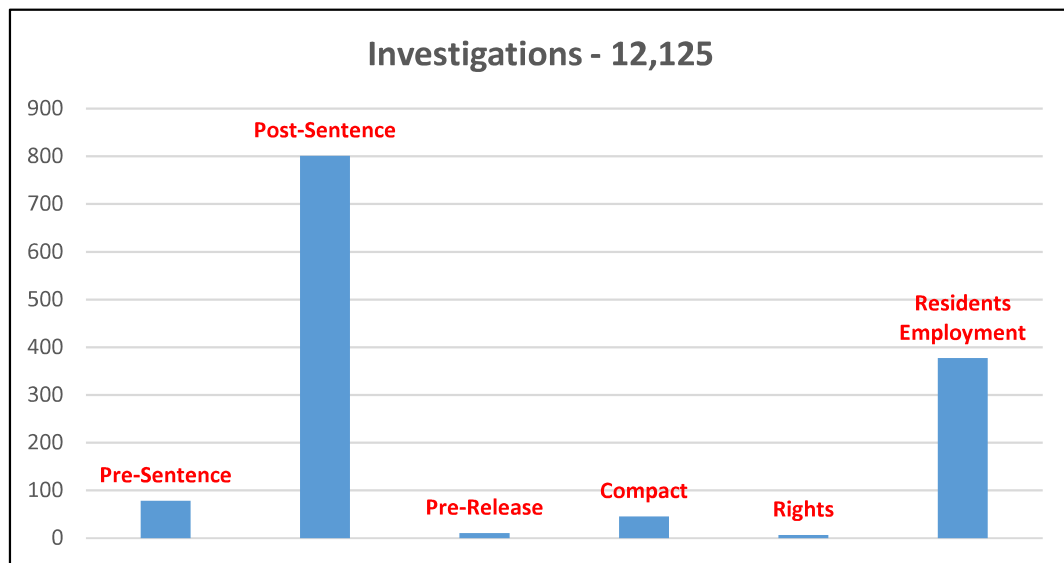

Probation and Parole Agents are responsible for drug testing the offender population each month, either routinely or based upon suspicion.

Programs, Education

Re-Entry

Deputy Commissioner

Kelley Christopher

Kelley Christopher comes to the MDOC with more than 30 years of experience in the corrections industry including education, research, instruction, and practical institutional experience. Christopher joined MDOC as a Deputy Superintendent at Central Mississippi Correctional Facility before ascending to Assistant Deputy Commissioner for Programs, Education and Re-Entry, then transitioning to her current position.

Christopher, a native of Houston, Texas, previously served as a professor in criminology at the University of West Georgia, where she focused on research on corrections and re-entry and teaching related courses. Her teaching and research interests were primarily centered on re-entry, crime and social inequality, corrections, disparities in sentencing, women and criminal justice. In addition to lectures, public presentations, and work in the community, she has authored numerous articles in publications and handled research grants supported by thousands of dollars on a variety of topics related to corrections.

Christopher holds a master's degree in sociology, master's degree in public administration; adult education; and a master's degree in post-secondary education. Her bachelor's degree is in social science.

Christopher has been recognized multiple times with honors including Outstanding Teaching Award, Outstanding Service Award, Outstanding Mentor Award, Faculty Member of the Year, and several nominations for similar awards. She has taught undergraduate courses including American Criminal Courts, Prison Law, Correctional Programs, Race and Crime, Correctional Profiling, and many others on virtually every aspect directly or indirectly related to corrections.

Professional memberships include American Society of Criminology, Academy of Criminal Justice Sciences, National Criminal Justice International Honor Society, International Sociology Honors Society

National Society of Collegiate Scholars, Southern Criminal Justice Association, American Correctional Association, National Association of Community and Restorative Justice, The Association of Reentry Professionals, International Inside-Out Training Institute Instructor Training, Temple University, The Association of Reentry Professionals Certification, University of Cincinnati Corrections Institute: Re-entry Certification.

This division is responsible for the following agency functions:

- * Programs
- * Education
- * Re-Entry
- * Volunteering

The Division of Programs, Education, and Re-Entry plays an integral part in the operations of the state's correctional facilities. The division provides programs and services designed to improve the incarcerated resident and their chances of success upon release and to comply with court orders.

The program component includes: education, Adult Basic Education (ABE), General Education Degree (GED), vocational programs, pre-release, religious and volunteer services, administrative remedy program, re-entry program, inmate legal assistance program, Mississippi Prison Industries, Recidivism Reduction Program (RRP), and the youthful offender program.

EDUCATION

The mission of the schools is to offer classes that will enable all returning citizens who desire training to enroll, succeed, and return to their communities as productive citizens with the skills needed to succeed in the workforce.

The Education Department provides training that meets the academic, workplace development, and vocational needs of returning citizens. Adult education and vocational classes are offered at the three state institutions: Mississippi State Penitentiary at Parchman (MSP), Central Mississippi Correctional Facility (CMCF), and South Mississippi Correctional Institution (SMCI). Vocational night classes are offered at MSP through Mississippi Delta Community College.

Academic classes for youthful residents 17 years of age and younger are provided at the Youthful Offender Unit (YOU) School at CMCF. Adult education classes are also offered at the private and regional facilities along with vocational classes at some of the private and regional facilities.

College classes are offered at no cost at MSP through Mississippi Delta Community College and at CMCF through Hinds Community college. Funding was possible through the Mississippi Humanities Council. Mississippi Gulf Coast Community College offered college classes at George County and Stone County Correctional Facilities through Pell ESI. Residents who wish to enroll in additional college classes may take correspondence courses but are responsible for their college tuition fees.

RE-ENTRY

The mission and vision for the Re-Entry Department is to help returning citizens and communities move forward by enhancing re-entry partnerships. The MDOC has partnered with numerous agencies and have implemented several programs to assist returning citizens. A few examples of this collaboration include working with Feeding the Gulf Coast Outreach Program (SNAP), Department of Human Services (Child Support), Governor's Job Fair Network (Reentry Job Fair), and ASC (Housing).

MDOC launched the SSI/SSDI Outreach, Access, and Recovery Program (SOAR). The program is designed to increase the number of SSI/SSDI approvals for incarcerated residents at risk of homelessness and those with serious mental illnesses and other disabilities. The goal is to have SOAR-trained staff across the agency.

PRE-RELEASE

Pre-Release assists returning citizens with identifying career interest, developing resumes, conducting job searches, becoming financial aware and developing new positive behaviors that will impact their real world experience. Pre-Release also assists individuals with educational needs through the Adult Education Program in which they may also complete GED preparation, remedial education, and adult literacy.

Incarcerated residents participate in Thinking for a Change (T4C), and Moral Reconciliation Therapy - cognitive behavioral programs addressing the cognitive social and emotional needs. Participants can receive the National Career Readiness Certification (NCRC), which certifies the work skills needed for success in jobs across industries and occupations.

Alcohol and Drug Treatment Programs

This annual report provides an overview of the SUD Treatment Programs across MDOC facilities. The data summarized in this report reflects statewide census figures, enrollment trends, staffing capacity, caseload distribution, program outcomes, and identified operational challenges. Collectively, these data demonstrate the scope, impact, and continued growth of SUD treatment services within correctional settings.

The mission of VitalCore's Substance Use Disorder (SUD) Program is to provide clinical treatment and rehabilitation services to individuals diagnosed with co-occurring mental health conditions or who have committed an alcohol- and/or drug-related crime. The goal is to address the SUD using evidence-based curriculums (e.g., CBT, DBT, 12-step facilitation, Mindfulness Therapy, meditation, Betty Ford's On Demand Living in Balance Curriculum, art therapy, and psychoeducation about drugs of abuse and clinical treatment team meetings) designed to address maladaptive behaviors and unhelpful thought patterns. These clinical SUD services are provided to incarcerated individuals who are court-ordered to SUD treatment, parole pending completion, Intensive Supervision Program, MDOC referral or volunteer.

The SUD Program also provides re-entry referrals to incarcerated individuals discharging for primary and secondary SUD treatment facilities, Alcoholics Anonymous, Narcotics Anonymous and Cocaine Anonymous meetings and Regional Mental Health Center recommendations. In most cases, through interdisciplinary treatment team meetings and planning, incarcerated individuals are offered tailored transition plans prior to discharge from our treatment programs.

Alcohol and Drug Treatment Programs (continued)

The evidence-based SUD Program is designed to:

1. Improve the identification of co-occurring disorder diagnoses by utilizing the Global Assessment of Individual Needs (GAIN-Q3), which is designed to brief, evidence-based assessment tool used to screen and address behavioral, mental health, and SUD problems in adolescents and adults.
2. Provide integrated pre- and post-release treatment and recovery support services.

The SUD Program is offered at Mississippi State Penitentiary (MSP), Walnut Grove Correctional Facility (WGCF), South Mississippi Correctional Institution (SMCI), Delta Correctional Facility (DCF), and Mar-

Programs, Education, Re-Entry

shall County Correctional Facility (MCCF) provides a traditional 12-week SUD program and a long-term (six months) for incarcerated individuals with at least six to 30 months remaining in their sentence. The SUD Treatment Center units house treatment beds, group rooms and classrooms.

Central Mississippi Correctional Facility (CMCF) and Mississippi Correctional Institute for Women (MCIW), which is MDOC's intake facilities, provide both a 12-week traditional SUD program and a long-term program (6 months to 12 months) for female and male incarcerated individuals. In addition, a 12-week treatment program is available for special needs (disability) male incarcerated individuals. The traditional 12-week SUD program based on Betty Ford Hazelden Curriculum provides special needs (disability) incarcerated individuals at CMCF. A 12-week basic SUD psychoeducation program is provided to eligible incarcerated individuals housed in high risk, lockdown, and protective custody units.

Program Census and Enrollment Trends

Across all reporting facilities, the SUD programs continue to serve a substantial and diverse population. Facilities included in this report are CMCF, MCIW, MSP, MCCF, SMCI, WGCF, DCF, and regional and community placements. Clients enter treatment through multiple referral pathways, including court orders, parole board orders, MDOC determinations, therapist recommendations, self-referrals, judicial review, SCO term mandates, and the STAR program.

At the time of reporting, there are 733 individuals actively enrolled in SUD treatment statewide. An additional 515 individuals are classified as pre-enrolled, resulting in a combined active and pre-enrolled population of 1,248 participants. These figures highlight both the current service demand and the strong pipeline of individuals awaiting placement into treatment. With 960 beds allocated for SUD programming, the system currently has 288 open beds, indicating both capacity for expansion and the need for continued coordination to move pre-enrolled individuals into active treatment.

Staffing and Capacity

Staffing levels across facilities remain strong and are generally aligned with authorized capacity. Most facilities are operating at or near 100 percent authorized staffing. Statewide totals reflect 29 staff positions filled with only three vacancies. Clinical staff include licensed social workers, licensed professional counselors, provisional counselors, and certified alcohol and drug counselors. Staff assignments are distributed to ensure coverage across all participating facilities and to support both active treatment and pre-enrollment coordination.

Maintaining appropriate staffing levels is essential given the size and complexity of current caseloads. Adequate staffing allows programs to maintain treatment integrity, comply with clinical standards, and support program growth. Continued attention to recruitment and retention will be critical as enrollment continues to increase.

Caseload Distribution

Caseload data are tracked monthly by facility and individual clinician. Caseload sizes vary by site and staffing configuration, with individual caseloads ranging from approximately 10 to over 50 participants. During the first quarter of the year, total caseload counts were 735 in January, 701 in February, and 431 in March. The decrease observed in March appears to reflect reporting gaps and transitional enrollment periods rather than a true reduction in service demand.

Monitoring caseload distribution is essential to ensure equitable workload balance and to maintain quality of care. These data provide leadership with actionable insight for staffing adjustments and program planning.

2024 ▶ MDOC Annual Report

Alcohol and Drug Treatment Programs (continued)

Twelve-Month Census Review

The twelve-month census data for 2024 provides a detailed look at enrollment patterns across facilities and referral categories. January and February show strong and consistent enrollment across nearly all sites, with active totals of 712 and 746 respectively. In March, the reported active total was 443, reflecting partial facility reporting and ongoing transitions in program operations.

Over the course of months, court-ordered and therapist-recommended referrals represent the largest sources of enrollment, followed by self-referrals and MDOC-determined placements. STAR program participation is also notable at select facilities, indicating increasing utilization of alternative and voluntary treatment pathways.

STAR Program Participation

The STAR program continues to expand across multiple facilities, with participation varying by site and month. Delta and SMCI report the highest STAR participation counts, while other facilities are in earlier stages of implementation. A significant programmatic development is the planned expansion of STAR services to include self-referred inmates across all programs. This initiative is expected to improve access to treatment and support early intervention efforts.

Graduation and Outcomes

Graduation data demonstrate the sustained impact of SUD treatment services over time. In 2024, programs reported a total of 1,015 graduates statewide. This number increased to 1,182 graduates in 2025, reflecting program growth and improved throughput. During the first quarter of 2024, 246 individuals have already successfully completed treatment.

Facilities such as MSP, CMCF, SMCI, and Delta consistently report strong graduation numbers, underscoring the effectiveness of structured treatment programming within correctional environments. Graduation outcomes remain a key indicator of program success and long-term public health impact.

Operational Challenges and Barriers

Most facilities report no significant operational barriers at this time. However, two notable challenges were identified. WGCF reports security-related limitations that restrict the movement of clients from other facilities for program participation. DCF reports ongoing challenges related to urinalysis screening processes. These issues are being monitored and addressed through collaboration with facility leadership and security staff.

Program Updates and Forward Planning

Recent updates indicate increased coordination with RDU to support incoming SUD participants. Facilities including CMCF, MCIW, MSP, and SMCI now receive daily notifications regarding inmates eligible for pre-enrollment. These efforts are expected to improve enrollment efficiency and reduce wait times.

In summary, the SUD Treatment Programs continue to demonstrate strong enrollment, effective staffing, positive treatment outcomes, and expanding access through initiatives such as STAR. Continued focus on staffing stability, enrollment flow, and operational coordination will support ongoing program success in the coming year.

Alcohol and Drug Treatment Programs (continued)

Key Priorities for FY 2024

As the SUD Treatment Programs move into Fiscal Year 2024, several strategic priorities have been identified to sustain program effectiveness, enhance service delivery, and align with Mississippi Department of Corrections rehabilitative goals. These priorities are informed by program performance data, operational experience, and emerging treatment needs.

1. *Strengthen Enrollment Flow and Capacity Utilization:* Improve the transition of individuals from pre-enrollment to active treatment by enhancing coordination with intake, classification, and facility leadership. Focus will be placed on reducing wait times and maximizing use of available treatment beds across all facilities.
2. *Maintain Staffing Stability and Clinical Quality:* Continue targeted recruitment and retention efforts to sustain near-full staffing levels. Emphasis will be placed on clinical supervision, professional development, and fidelity to evidence-based treatment models to ensure consistent quality of care.
3. *Expand and Standardize STAR Programming:* Advance the implementation of the STAR program across all facilities, including expanded access for self-referred incarcerated individuals. Standardization of STAR protocols will support consistent delivery and outcome tracking.
4. *Enhance Data Integrity and Performance Monitoring:* Strengthen data collection, reporting consistency, and performance dashboards to support leadership decision-making, accountability, and continuous quality improvement efforts.
5. *Support Reentry Planning and Continuity of Care:* Increase emphasis on discharge planning, community referrals, and recovery support linkages to improve post-release treatment engagement and reduce relapse and recidivism risk.

Facilities Planning, Construction & Maintenance

Deputy Administrator

Barney Poole

Poole brings over 27 years of experience in construction management within the state of Mississippi, with a strong focus on strategic planning, budget management, and quality control. He is responsible for facilities planning, construction, and maintenance in the prison system. He joined the Mississippi Department of Corrections in September 2021.

Poole came to the department after serving as the Major Projects Manager at the University of Southern Mississippi (USM). In this role, he oversaw new construction and renovation projects across the Hattiesburg Main Campus, Gulf Coast Research Laboratory, and Gulf Park Campus.

He managed all phases of planning, design, and construction while ensuring compliance with Institutions of Higher Learning (IHL) policies, Bureau of Building, Grounds & Real Property Management (BoB) standards, and State of Mississippi procurement and bid requirements.

Before his tenure with USM, Poole was a project manager for the Bureau of Building, Grounds, and Real Property Management. There, he was responsible for comprehensive project oversight, including planning, budgeting, accounting, and schedule control, from conceptual design through construction administration.

Poole is a graduate of Sumrall High School and Purvis Vo-Tech Center.

Projects completed in FY 2024

During FY 2024, the Mississippi Department of Corrections, with support from the Bureau of Building, Grounds and Real Property Management, completed seven (7) major construction projects totaling \$7,776,754.17.

Projects included roof replacements, mechanical system upgrades, and wastewater improvements across multiple MDOC facilities.

Additionally, a new chapel was constructed at the Mississippi Correctional Institution for Women (MCIW) in Rankin County to serve as a combined worship and learning center.

Project #	Description	Cost/Value
323-021	Area I Kitchen Mechanical Upgrades (EMER)	\$182,810.92
320-070	EMCF Roof Repairs	\$787,297.50
320-066	New Chapels	\$2,400,000
320-086	ARPA Mit. - DCF	\$2,560,621.13
320-074	ARPA Infr. - WGCF Waste Coll. & Conv.	\$537,382.34
320-092	Pearl Prob. & Parole Re-Roof	\$360,465.86
323-018	Roofing Repairs (EMER)	\$266,141.54

Total \$7,094,719.29

Statistical Data

Deputy Administrator Technology

Audrey McAfee

Audrey McAfee has more than 30 years of experience as an information technology professional and correctional business analyst. She was appointed Deputy Administrator in 2017. She has directed management of the information systems since 2002.

She supervised Inmate Treatment & Programs and Records before those duties were transferred to a new deputy commissioner. She has served in several other positions, including as director of policy and planning from 2001 to 2002; lead programmer analyst from 1989 to 2001; research statistician from 1988 to 1989; and accounting clerk from 1986 to 1988.

In her role as Chief Information Officer, McAfee provides timely analyses and makes recommendations to meet legislative changes and to implement new or modified programs. Essentially, she translates requirements into action plans and provides the leadership necessary to ensure business needs are addressed efficiently and effectively. She is on the front line of prison operations in the state, and has played an instrumental role in criminal justice reform achieved under legislation enacted in 2014.

McAfee has a Master of Business Administration degree from Belhaven University and a Bachelor of Science degree in chemistry from Tougaloo College. Also, she has various certificates from the State of Mississippi IT Course Work. She is the agency representative on the Mississippi Wireless Communication Commission.
