Delta CF congratulates SUD program graduates

GREENWOOD - Twelve women are among the latest graduates of VitalCore Health Strategies' Long-term Substance Use Disorder Program at Delta Correctional Facility.

During the 6-month program, they completed courses such as Celebrate Recovery, Moral Reconciliation Therapy, Anger Management, Living in Balance, A New Direction, and the 12 Step Program.

The graduates impressed the audience with their recitation of the 12 steps, which they have been taught to make part of their lifestyle.

Graduation Day also featured a live band, testimonies, poetry, praise dance, and a speech. The theme of "One Love, One Journey, One Freedom" was celebrated in a vibrant Jamaican atmosphere, highlighting the unity and hope shared amongst the graduates.

The S.U.D. Counselor, Ms. Cosey, played a crucial role in this achievement, working tirelessly to provide the necessary resources and support that the women needed to succeed.

Graduation guest speaker, Melanie Quinton, a recovering addict with 11 years of sobriety, offered hope, motivation, and encouragement to the graduates.

"These women will continue to implement sobriety into their lives, work the twelve steps on a daily basis, and take accountability for their own actions," said Program Director Rochelle Gunn-Hudson. "We are proud of our SUD graduating class of June 2026."
