

One Partnership, One Opportunity, One Step at a Time

PICAYUNE - The Mississippi Department of Corrections (MDOC) Community Corrections Team recently partnered with the Picayune WIN Job Center to host a Lunch & Learn.

Program Team Lead Petrice Adams said the event was an excellent opportunity to connect with workforce partners, discuss collaborative strategies, and share resources that support successful reentry and long-term employment for justice-involved individuals.

"Together, we explored ways to strengthen partnerships and connect returning citizens with meaningful careers," Adams said.

Special thanks go to the MDES-Picayune WIN Job Center staff for their hospitality and commitment to workforce development.

"Partnerships like these are essential to creating second-chance opportunities that strengthen individuals, families, and communities across Mississippi," Adams said. "Together, we are building brighter futures—one partnership, one opportunity, and one success at a time."
