## WGCF inmate team builds model Yellowstone Ranch

---

WALNUT GROVE, MS - Inmates assigned to the Carpentry Shop at the Walnut Grove Correctional Facility worked on a special Yellowstone project, modeled after the Western drama series "Yellowstone," during their spare time.

Following the happenings at "Dutton Ranch," what started out as building the main horse barn from the show developed into creating an entire diorama that includes the barns, bunkhouse, and details down to trucks, horses, cows, and even the Dutton Ranch helicopter.

This entire project was created using scrap materials that would have ordinarily been trashed.
