K9 Units at CMCF and MSP Get Spotlight

CMCF would like to congratulate Capt. James Mosley and K-9 Faulk for being selected as August 2026 Employees of the Month.

As the saying goes, a dog is a man's best friend, and in this case, it's true. Capt. Mosley & K-9 Faulk (featured here with Supt. Matt Reynolds) have been recognized for their exceptional dedication and teamwork, which led to the recovery of several findings of major contraband throughout the facility every week.

Capt. Mosley consistently goes above and beyond expectations. Whether it's conducting meticulous perimeter sweeps or simply maintaining the highest level of professionalism during routine patrols, his commitment shines through. But when he and Falk are on duty, the true magic happens!

Witnessing Capt. Mosley and Falk work together is a masterclass in teamwork. Their bond shows in every coordinated movement, whether it's a sharp bark, a focused stare, or a synchronized patrol pace. They don't just work together; they anticipate each other's moves! Capt. Mosley embodies what it means to be a top-notch officer at CMCF; his tactical knowledge is top-tier, but his ability to connect with Falk, to understand that partnership, is truly remarkable. They bring an energy and level of effectiveness to operations at CMCF that sets the standard for all other officers.

MDOC Deputy Superintendent Joshua Russell is in the spotlight in the latest JIREH K9 Report, the official publication of the JIREH K9 Training Academy. MSP Supt. Frank Caswell said Russell is about to complete seven weeks of training and return to the MDOC to train and certify the agency dogs.

Before Russell attended the training academy in Texas, Caswell commended him for putting in extra work to build MSP's K9 program after fulfilling duties as deputy superintendent with dedication and commitment each day.

"He cares deeply about getting this program right and making sure our dogs are properly trained and ready to do the job they're needed for," Caswell said. "That kind of dedication goes beyond just doing a job. Josh genuinely cares about MSP, our staff, and making (the prison) better. I'm extremely thankful to have someone like him on (our) team. His commitment and work ethic deserve to be recognized."
