Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Prison Rape Elimination Act (PREA) on-site audit of Forrest County Community Work Center (FCCWC) was conducted on June 20, 2019. The audit was performed by Alton Baskerville, Certified PREA auditor and assisted by Phyllis Baskerville, a retired corrections warden.

Six weeks in advance of the audit, posters with contact information for the auditor, were posted throughout the facility to alert residents and staff of the impending audit. The notices were displayed throughout the facility on the day of the onsite audit. The auditor did not receive any confidential letters prior to the onsite visit.

The Pre-Audit Questionnaire was submitted to the auditor two weeks prior to the audit. There were no concerns about the information on the Pre-Audit Questionnaire. Other documentation submitted included policies, procedures, organization charts, posters, inmate handbook, and other PREA related materials.

The audit team was escorted to the facility by Zac Houston and Kim Dingess. We were greeted by Commander Plez Hill and several members of his staff and, Mr. Everett Matheney, Warden. We had the entry meeting in the dining area where we made introductions and shared information and expectations concerning the audit.

The primary auditor was given a complete tour of the facility, including the two-bay housing unit, kitchen, storage areas, one baptismal shed, recreation yard, and administrative area.

The two housing bays have 48 beds on each side. The official count was 69 on the day of the on-site audit. The PREA hot line notice and the PREA visitation letter were posted in the housing zones and in the dining hall. Video cameras were mounted in the front and the rear of each housing zone, dining hall and kitchen area. Two cameras were installed in the kitchen since the last PREA audit. Monitors were in the control room which is located between the two bays. The restrooms, showers and laundry area were between the two bays and to the rear of the control room. There is adequate privacy for the resident's use of showers and toilets.

There are six inmate telephones, three on each side of the housing unit. All the telephones were tested to see if the hotline numbers can be reached. They were all working as expected. The facility was very clean and appeared well maintained. The staff was friendly professional with many years of experience at the Center. The residents were properly dressed, and their bed areas were clean and neat. The residents freely engaged in conversation with the auditor and expressed knowledge of PREA. Additionally, they were aware of the audit recertification. After completing the tour, we proceeded to private offices to review audits files and to conduct interviews. We interviewed (5) random staff from day and night shifts, (15) specialized staff, (2) contractors, and (2) volunteers. All staff were knowledgeable concerning PREA and how to

respond to a sexual abuse or a sexual harassment incident. Documentation verified recent training of all staff interviewed, including some random who were not interviewed.

A total of seventeen (17) random residents were interviewed. All were familiar with PREA and acknowledged receiving PREA training upon arrival at the center. Written documentation supports the training of all residents interviewed. A review of documentation of eight additional residents confirmed PREA training. There were no special needs residents assigned to the center. Neither were there any gay, transgender, intersex residents at the center.

The audit team had an exit meeting with Commander Hill, Mr. Matheney, Zac Houston and other staff in the Administrative area. The audit team informed them that they appeared to meet the requirements of all 41 standards. However, a final decision will be made after finishing the PREA Report. We congratulated them on their accomplishment.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Forrest County Community Work Center (FCCWC) is a minimum security, adult male residential community center located in Hattiesburg, Mississippi. The Center is located approximately 90 miles SE of Jackson, MS. It was opened in November, 1991. Residents assigned to the Center must be able to perform required work details with various city and county agencies. The Center is situated on 4.2 acres of land and is enclosed within an 8 foot, chain linked fence topped with barbed wire. The physical plant consists of a single pre-engineered steel building. Offenders are housed in a two bay dormitory that is separated by a control room, restroom, showers and laundry room. There is a central corridor which runs the length of the building. The administrative offices, dining room, and kitchen are located across from the living unit. A large recreation area, two small storage sheds and one Baptismal shed are located outside of the main building.

Summary of Audit Findings

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, **along with a list of each of the standards in each category**. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

Auditor Note: No standard should be found to be "Not Applicable" or "NA". A compliance determination must be made for each standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

MDOC Statewide SOP 20-14-01 establishes zero tolerance and contains all elements required by this standard. Interviews with staff and residents confirm knowledge of this policy and it is the belief that zero tolerance of sexual abuse and harassment has become practice through staff training and resident orientation.

Standard 115.212: Contracting with other entities for the confinement of residents

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.212 (a)

If this agency is public and it contracts for the confinement of its residents with private agencies or other entities including other government agencies, has the agency included the entity's obligation to comply with the PREA standards in any new contract or contract renewal signed on or after August 20, 2012? Instructions for Overall Compliance Determination Narrative

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

MDOC has entered into or renewed a contract for the confinement of residents on or after August 20, 2012 or since the last PREA audit. Such contracts do require contractors to adopt and comply with PREA standards. Additionally, the contracts do require MDOC to monitor the contractor's compliance with the PREA standards. Forrest County Community Work Center does not contract with entities for the confinement of inmates. A review of file documents and discussion with the statewide PREA Coordinator support compliance with this standard.

Auditor Overall Compliance Determination

 \mathbf{X}

- **Exceeds Standard** (Substantially exceeds requirement of standards)
- **Meets Standard** (Substantial compliance; complies in all material ways with the standard for the relevant review period)

Does Not Meet Standard (*Requires Corrective Action*)

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

MDOC Statewide SOP 20-14-01 requires all facilities to meet the requirement of this standard. There have been no deviations from the staffing plan in the past 12 months at FCCWC. Further, FCCWC had no reports of inadequacy for this standard. FCCWC has video monitoring in both resident bays. The facility requires intermediate level and higher level staff to conduct unannounced rounds to identify and to deter staff sexual abuse and sexual harassment. Policy prohibits staff from alerting other staff of the conduct of unannounced rounds. A review of daily Unit Registers of the housing unit show frequent security rounds by officers and supervisors. I find FCCWC in compliance with this standard because of the above stated reasons.

- Does the facility document all cross-gender pat-down searches of female residents?
 ☑ Yes □ No

115.215 (d)

- Does the facility implement policies and procedures that enable residents to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks? ⊠ Yes □ No

- Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
- **Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

MDOC Policy 16.07 governs PREA compliance for the standard. FCCWC does not conduct cross-gender strip or visual body cavity searches of residents. During the unit tour, auditors noted announcements being made when females entered the housing units. Interviews with staff and residents verified the practice of female staff making announcements. Observations of the toilet facilities confirmed that residents can shower and perform bodily functions without the opposite gender viewing the genitalia. I find FCCWC in compliance with this standard because of the above stated reasons.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

MDOC Policy 20-14-01 has established procedures to provide disabled and limited English proficiency inmates equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect and respond to sexual abuse and sexual harassment. MDOC has contracted with an agency for interpreter services to ensure effective

communication with inmates with disabilities and limited English proficiency. Staff indicated that resident interpreters would only be used in reporting allegation of sexual abuse or harassment in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety, the performance of first-response duties or investigation of the inmate's allegations. There were no residents who were identified as disabled and limited English proficient assigned to the Facility. I find FCCWC in compliance with this standard.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. MDOC SOP 20-14-01 prohibits the hiring or promoting of anyone who may have contact with inmates who has previously been convicted or adjudicated to have engaged or attempted to engage, in forced or nonconsensual sexual activity or sexual abuse. MDOC Policy 20-14-01 also requires criminal background record checks to be performed at least every five years for current employees and contractors who may have contact with inmates. In the past 12 months, (1) new person who may have contact with inmates has been hired. The policy is consistent with the requirements of the standard. Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

MDOC has established procedures allowing for multiple internal ways for residents and staff to privately report sexual abuse or harassment of residents, retaliation and staff neglect or violation of responsibility that may have contributed to such incidents. MDOC has signed a memorandum of understanding with the Mississippi Coalition against Sexual Assault to provide

their contact information for residents who which to confidentially report incidents to an outside entity. Additionally, FCCWC residents and staff may call a confidential hotline to report suspected instances of sexual assault. Another avenue for residents to report incidents is to file a grievance; staff may complete an incident report. During interviews, residents stated that they could talk to any of the staff if there was an issue. Several expressed that they felt safe and knew of the PREA safety postings on the bulletin boards in the housing units, dining hall, and other common areas. I find FCCWC to be in compliance with this standard based upon interviews of staff and residents, observations during the tour, and review of relevant policies and procedures.
