AUDIT FINDINGS

NARRATIVE

The Prison Rape Elimination Act (PREA) on-site audit of Pike County Community Work Center (PCCWC) was conducted on May 25, 2016. The audit was performed by Alton Baskerville, Certified PREA auditor and assisted by Phyllis Baskerville, a retired corrections warden.

Six weeks in advance of the audit, notices, with contact information for the auditor, were placed throughout the facility to alert residents and staff of the impending audit. The notices were seen posted throughout the facility on the day of the on-site audit.

The Pre-Audit Questionnaire was submitted to the auditor two weeks prior to the audit. Other documentation submitted included policies, procedures, organization charts, posters, inmate handbook, and other PREA related materials. A review of the materials raised no questions about the pending audit.

The audit team was escorted to the facility by Ms. Stingley. We were greeted by Commander Dwight Robertson, several members of his staff, Mr. Todd King, Community Corrections Director, and Ms. Christy Gutherz, Deputy Commissioner, Community Corrections. We had the entry meeting in the dining area; we made introductions and shared expectations concerning the audit.

Lt. Bailey led the tour of the facility, which included the two bay housing unit, kitchen, the Drug and Alcohol Building, storage areas, recreation yard, and administrative area. The two bay housing unit has 53 beds on one side and 40 beds on the other side. The official count was 85 on the day of the on-site audit. The PREA hot line notice and the PREA visitation letter were posted in the housing zones and in the dining hall. Video cameras were mounted in the front and the rear of each housing zone. Monitors were in the control room which is located between the two bays. Control room staff could clearly see areas that were previously blind spots. In addition, two cameras were located in the dining area which is used as a multi-purpose area. These cameras are also viewed in the control room. The cameras were installed in the Center in March 10, 2016.

The restroom, showers and laundry area were between the two bays adjacent to the control room. The laundry area was locked behind a metal mesh screen. Showers were in view of the control room officer; a half curtain provided privacy in the shower area. The toilets were separated by metal partitions, providing privacy for the residents.

The kitchen area was secure, and had all storage areas locked. We made a suggestion to install a mirror to cover a blind spot in the storage area where the freezer is located. This area was locked and practice was to always have a staff person to escort an inmate in that area. The facility was neat and orderly. The staff was professional and experienced. We spoke to approximately 20 residents while touring the housing unit. We explained why the audit team was there, and that the team would conduct private interviews of residents at random.

After completing the tour, we were given a private office to review audits files and to conduct interviews. We interviewed eleven (11) employees, including administrative, program, contract, volunteer and security staff from both 12-hour shifts. Staff was knowledgeable concerning PREA, and how to respond to an incident. Documentation verified recent training of all staff interviewed.

A total of ten (10) residents were interviewed. All were familiar with PREA and acknowledge receiving PREA training upon arrival at the center. Written documentation supports the training of all residents interviewed. There were no special needs residents assigned to the center. Nor were there any gay, transgender, intersex, residents at the center.

The audit team had an exit meeting with Commander Robertson, Mr. King, Ms. Gutherz and Ms. Stingley in Commander Robertson's Office. The team informed them that they have met the requirements of all 39 standards. We congratulated them on this accomplishment. The strong support of top management in the presence of Mr. King and Ms. Gutherz was a key to the success of this audit.

DESCRIPTION OF FACILITY CHARACTERISTICS

Pike County Community Work Center (PCCWC) is an adult male residential community center located in the city of Magnolia, Mississippi. Magnolia is the county seat of Pike County, and it lies in the McComb, Mississippi metropolitan area. The town of Magnolia has a population of approximately 2,000 residents.

PCCWC opened in 1984 to provide resident labor for road maintenance, and to perform janitorial services for city and county offices. PCCWC is located on approximately 5.0 acres of land. It is enclosed within an 8 foot, chain linked fence topped with barbed wire. The physical plant consists of a single pre-engineered steel building.

Offenders are housed in a two bay dormitory that is separated by a control room, restroom, showers and laundry room. There is a central corridor which runs the length of the building. The administrative offices, dining room and kitchen are located across from the living unit. There is a large recreation area, two small storage sheds, and a program building located to the right of the main building as you face the entrance.
