## AUDIT FINDINGS

### NARRATIVE

The Prison Rape Elimination Act (PREA) on-site audit of Simpson County Technical Violation Center (SCTVC) was conducted on July 14, 2016. The audit was performed by Alton Baskerville, Certified PREA auditor and assisted by Phyllis Baskerville, a retired corrections warden.

Six weeks in advance of the audit, notices, with contact information for the auditor, were placed throughout the facility to alert residents and staff of the impending audit. The Pre-Audit Questionnaire was submitted to the auditor two weeks prior to the audit. A review of the questionnaire showed some minor discrepancies which were corrected prior to the onsite audit. Other documentation submitted included policies, procedures, organization charts, posters, inmate handbook, and other PREA related materials. A review of the materials raised no questions about the pending audit.

The audit team was escorted to the Center by Ms. Marcia Stingley. We were greeted by Commander Otis Bailey, several members of his staff, Mr. Ken Valentine, Community Corrections Director, and Ms. Christy Gutherz, Deputy Commissioner, Community Corrections. We had the entry meeting in the dining area where we made introductions and shared expectations concerning the audit.

The audit team was led on a tour of the facility by Officer Larry Williams. The (SCTVC) consists of an administrative office area, kitchen/dining area, two offender housing units, a chapel, two storage sheds, and a recreation area. The double bunked housing unit has 102 beds. The official count was 69 on the day of the audit. The control room tower is located between the two housing bays and has direct sight of the rest room, shower and laundry area. The restrooms and showers were partitioned to provide security and privacy for the residents. The PREA hot line notices were posted in the housing units. Notices of the audit were posted in the housing unit and in other areas of the center. Video cameras were mounted in the front and the rear of each housing bay. In addition, two cameras were located in the dining area which is used also as a multi-purpose area. Camera monitors are viewed in the control room. The cameras were installed in the center in February, 2016.

We spoke to approximately 15 residents while touring the housing unit. We explained why the audit team was there and that the team would conduct private interviews with some of the residents. The kitchen area was secured and had all storage areas locked. After completing the tour, we were given a private office to review audit files and to conduct interviews.

We interviewed nine (9) members of the staff including administrative, program, volunteer and security officers from both 12-hour shifts. Staff was knowledgeable concerning PREA and how to respond to an incident. Documentation verified recent training of all staff interviewed.

A total of ten (10) residents were interviewed. All interviewed residents were familiar with PREA and acknowledged receiving PREA orientation upon arrival at the center. Written documentation supported the training of all residents interviewed. There were no special needs residents assigned to the center; nor were there any gay, transgender, intersex, residents at the center.

The audit team had an exit meeting with Commander Bailey, Mr. Valentine, Ms. Gutherz, and Ms. Stingley in Commander Bailey's office. The team informed them that they met the requirements of all 39 standards. We congratulated them on this accomplishment. The strong support of top management in the presence of Mr. Valentine and Ms. Gutherz was noted as a key to the success of this audit.

## **DESCRIPTION OF FACILITY CHARACTERISTICS**

Simpson County Technical Violation Center is a minimum security, community correctional facility for non-violent male offenders. It is located in Magee, Mississippi which is approximately 45 miles south west of Jackson, MS. The center was opened in 1979. It is situated on 2.5 acres with a main building and a chapel. The center is surrounded by an eight-foot chain linked fence topped with razor wire. The entrance to the main building opens into a foyer. The housing unit has two zones. The A zone has 60 beds and B zone has 42 beds. A control room, restroom, shower area and laundry area are located between the two housing zones. A long corridor separates the housing unit from the rest of the unit (kitchen, dining hall and the administrative offices which are located to the front of the building). The chapel, which was donated to the center through the generosity of the local community, is located to the right front of the main building as you face the front gate. There are two storage sheds and a large recreation yard outside the main building.

Additionally, SCTVC residents and staff may call a confidential hotline to report suspected instances of sexual assault. Another avenue for residents to report incidents is to file a grievance; staff may complete an incident report.
