Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Prison Rape Elimination Act (PREA) on-site audit of Greenwood Restitution Center (GRC) was conducted on September 11, 2017. The audit was performed by Alton Baskerville, Certified PREA auditor and assisted by Kim Ware.

The audit methodology included the review of the pre-audit questionnaire two weeks prior to the onsite-audit; randomly selecting residents and staff for interviews, reviewing policies and procedures prior to and during the on-site audit, touring the facility, and observing practices related to PREA standards, and reviewing documentation and notes during the post-audit phase.

Six weeks in advance of the audit, posters, with contact information for the auditor, were placed throughout the facility to alert residents and staff of the impending audit. The notices were seen posted throughout the facility on the day of the on-site audit. The facility management was asked to keep the notices up at least six weeks after the on-site audit.

The Pre-Audit Questionnaire was submitted to the auditor two weeks prior to the audit. Other documentation submitted included policies, procedures, organization charts, posters, inmate handbook, and other PREA related materials. A review of the materials raised no questions about the pending audit.

The audit team was escorted to the facility at 8:00 a.m. by Ms. Lola Nelson, Statewide PREA Coordinator. We were greeted by Everett Matheney, Community Corrections Director, Mr. Allen Langdon, Commander and Ms. Christy Gutherz, Deputy Commissioner Community Corrections. We had the entry meeting in the dining area where we made introductions and shared information and expectations concerning the audit. The following staff was in attendance: Officer Brenda Montgomery, Correctional Officer, Shatoby Perry-Smith, PREA Compliance and Case Manager/Acting Field Agent Trainee and Lola Nelson, Statewide PREA Coordinator

Director Maheney and Commander Langdon led the tour of the facility, which included the two bay housing units (East and West Dorms), kitchen, storage areas, recreation yard, and administrative area. The official count was 71 on the day of the on-site audit. The PREA hot line notice and the PREA visitation letter were posted in the housing zones and in the dining hall. Video cameras were mounted in the front and the rear of each housing zone.

The kitchen area was very clean and secure; all storage areas were locked. The center was very clean, uncluttered and well maintained all of the floors were very clean. The staff was professional and experienced. We spoke with two (2) residents who were in the housing while the team was touring the area. We explained why the audit team was there and that the team would conduct private interviews

of residents at random. The resident telephones were checked to see if they were working and residents were able to access the PREA hotline number. There were no problems with the telephones.

After completing the tour, we were given a private office to review audit files and to conduct interviews. We interviewed four (4) random employee and (9) specialized employee, including administrative, program, volunteer and security staff from both 12-hour shifts. Staff was knowledgeable concerning PREA and how to response to an incident. Documentation verified recent PREA mandated training of all staff interviewed.

A total of eleven (11) residents were interviewed. All were familiar with PREA and acknowledgeable receiving PREA training upon arrival at the center. Written documentation supported the training of all residents interviewed. There were no special needs residents assigned to the facility. There was one (1) gay resident and no transgender, intersex or bisexual residents. There were no residents who had been victims of sexual assault. There are no juveniles or youthful offenders housed at this facility. The audit team had an exit meeting with Ms. Gutherz, Mr. Matheney, Commander Langdon and Lola Nelson in the Commander's office. The team informed them that they met the requirements of all 39 standards. We congratulated them on this accomplishment. The strong support of top management in the presence of Mr. Matheney and Ms. Gutherz was a key to the success of this audit.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Greenwood Restitution Center is a minimum security, community based facility to house male only residents placed there by the courts who have been ordered to pay fines, court costs, restitution and other court ordered payments. The facility is situated on 2 acres, which provides ample space for recreational activities for the residents. The facility is surrounded by a single 6 foot chain link fence topped with razor wire. The facility consists of single two story building containing two open bay style resident living areas each with separate area for showers, wash basins, and toilets (East Dorm and West Dorm) a dining room, kitchen and storage area. Staff offices are located on the second floor and all residents are restricted to the first floor. There is an entrance lobby with an enclosed central control room where cameras located in the living areas are observed. Outside there is a small laundry, Storage room, confiscated property room, chemical room and recreation shed which staff supervise when in use. Correctional Officers are assigned to one of two twelve hour shifts while administrative and program staff work staggered eight hour shifts.

Summary of Audit Findings

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the

auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

MDOC Statewide SOP 20-14-01 requires all facilities to meet the requirement of this standard. There have been no deviations from the staffing plan in the past 12 months at GRC. Further, GRC had no reports of inadequacy for this standard. GRC has video monitoring in all the resident dormitories. The facility requires intermediate level and higher level staff to conduct unannounced rounds to identify and to deter staff sexual abuse and sexual harassment. Policy prohibits staff from alerting other staff of the conduct of unannounced rounds. A review of daily Unit Registers of the housing unit show frequent security rounds by officers and supervisors. I find GRC in compliance of this standard because of the above stated reasons.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

MDOC Policy 16.07 governs PREA compliance for the standard. GRC does not conduct cross-gender strip or visual body cavity searches of residents. During the unit tour, auditors noted announcements being made when females entered the housing units. Interviews with staff and residents verified the practice of female staff making announcements. Observations of the toilet facilities confirmed that

residents can shower and perform bodily functions without the opposite gender viewing the genitalia. I find GRC in compliance of this standard because of the above stated reasons.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

MDOC Policy 20-14-01 has established procedures to provide disabled and limited English proficiency inmates equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect and respond to sexual abuse and sexual harassment. MDOC has contracted with an agency for interpreter services to ensure effective communication with inmates with disabilities and limited English proficiency. Staff indicated that resident interpreters would only be used in reporting allegation of

sexual abuse or harassment in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety, the performance of first-response duties or investigation of the inmate's allegations. I find GRC in compliance of this standard.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

MDOC Policy 20-14-01 requires all inmates to be screened for risk of sexual victimization or risk of sexual abusing other inmates within 72 hours of their intake. Interviews with residents confirmed that they were screened within 72 hours of their intake. All residents who were interviewed indicated they were screened within seventy-two hours of their intake. Review of documentation supports this standard. I GRC to be in compliance of this standard.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

MDOC has established procedures allowing for multiple internal ways for inmates and staff to privately report sexual abuse or harassment of inmates, retaliation and staff neglect or violation of responsibility that may have contributed to such incidents. MDOC has signed a memorandum of understanding with the Mississippi Coalition against Sexual Assault to provide their contact information for residents who which to confidentially report incidents to an outside entity.

Additionally, GRC residents and staff may call a confidential hotline to report suspected instances of sexual assault. Another avenue for residents to report incidents is to file a grievance; staff may complete an incident report. During interviews, residents stated that they could talk to any of the staff if there was any issue. Several expressed that they felt safe and knew of the PREA safety postings on the bulletin boards in the housing units, dining hall, and other common areas. A find GRC to be in compliance of this standard based upon interviews of staff and residents, observations during the tour, and review of relevant policies and procedures.

MDOC Policies 20-14-01 and 20.05 establish administrative procedures for dealing with inmate grievance regarding sexual abuse. Resident interview responses indicate that they are aware of their right to file a grievance to address a PREA allegation. In the past 12 months, no grievances were filed for imminent sexual abuse with a final decision reached within five days. \boxtimes	Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
	Does Not Meet Standard (Requires Corrective Action)

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

MDOC Policy 12-40-01 requires the agency to review data collected in order to access and to improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices and training. Annual reports, approved by the MDOC Commissioner, containing institutional assessment information posted online at www.mdoc.state.ms.us. I find GRC to be in compliance of this standard based upon my review of policy, reporting documents, online website posting and interview with Statewide PREA Coordinator.

MDOC Policy 20-14-01 states that the agency will ensure that data is securely retained, and personal identifiers are removed before making data on sexual abuse publicly available. Agency policy requires that aggregated sexual abuse data from facilities under it's direct control and private facilities with which it contracts be made readily available to the public at least annually through it's website. The agency maintains sexual abuse data collected for at least 10 years after the date of initial collection, unless federal, state, or local law requires otherwise. I find GRC to be in compliance with this standard based on review of policy, reporting documents, and online website posting.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

When the audit was completed, the auditor conducted an exit briefing on September 11, 2017. The auditor gave the Administrative Staff a preliminary overview of the audit and thanked the staff for their hard work and commitment to the Prison Rape Elimination Act.

After the onsite audit, the auditor utilized the Auditor Compliance Tool for Community Confinement as a guide in determining compliance with each standard, and created a Final Report documenting the facility's compliance. In order to determine compliance, the auditor used the information and documentation provided during the pre-audit, onsite documentation review, information obtained through inmate and staff interviews, as well as visual observations during the facility tour.
