Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	7
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	0	0	0	0
Staff-on-Inmate sexual abuse	0	0	0	0

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for "convicted.") Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

Auditor Discussion Instructions

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

115.11	Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The facility's policy, 12.004.1, Prison Rape Elimination Act mandates zero tolerance of sexual abuse and harassment. The policy outlines the agency's approach to preventing, detecting and responding to such conduct. Prohibited acts are clearly defined. Staff duties are defined within the policy. The MDOC state-wide PREA Coordinator and facility PREA Compliance Manager were both familiar with their respective responsibilities to ensure compliance to policies by staff, and the CMRCF Compliance Manager indicated that she has sufficient time and authority to coordinate the facility's efforts to comply with the PREA standards as required. The PCM also provides all PREA training to staff, inmates and volunteers/contractors and thus is involved in all phases of compliance.</p>

115.12	Contracting with other entities for the confinement of inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Based on documentation provided and interviews with the Warden and PREA Compliance Manager, it was determined that this facility does not contract with other facilities to house inmates assigned to their custody.

115.13	Supervision and monitoring
	<p data-bbox="305 153 748 180">Auditor Overall Determination: Meets Standard</p> <hr/> <p data-bbox="305 212 488 239">Auditor Discussion</p> <p data-bbox="305 270 1414 571">A review was conducted of the staffing plan and standards criteria items that the facility takes into consideration while examining their plan was discussed with the facility Warden. The facility has averaged an onboard population of 280 inmates for the past year and also uses that as their requirement level for staff planning. The facility has documented and made its best efforts to comply, on a daily basis, with a staffing plan that provides for adequate levels of staffing as described by this standard. Staffing levels are monitored daily by review of shift rosters. Any time the plan is not followed, the Chief of Security is notified, and it is documented. The plan is reviewed annually by the senior members of the staff to include the PREA Compliance Manager and any recommendations are sent to the MDOC PREA Coordinator. Intermediate and higher-level staff are required by facility policy to conduct and document unannounced rounds, a process that is obviously conducted in daily operation as evidenced through inmate and staff interview as well as facility logs. Supervisors making rounds were also in evidence during the Auditor's site review of the facility.</p>

115.14	Youthful inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Based on the documentation provided and staff interviews, CCROF is an adult facility and does not house youthful offenders. Therefore, this Meets Standard.

115.15	Limits to cross-gender viewing and searches
	<p data-bbox="305 153 748 184">Auditor Overall Determination: Meets Standard</p> <p data-bbox="305 212 492 243">Auditor Discussion</p> <p data-bbox="305 268 1401 510">The facility does not house female inmates. Based on facility policy, training curriculums, staff and inmate interviews, and documentation provided in logs, CCRCF does not conduct cross-gender strip searches and/or cross-gender body cavity searches. Although policy allows for cross-gender pat searches, and 100% of staff have been trained, these are not routinely done, even pat searches are primarily same gender. There have been no exigent search instances to date but, in the event any occur, staff are aware of the procedures and that policy defines the requirement to document such searches. Inmates are allowed to shower, perform bodily functions and change clothing without a non-medical staff of the opposite gender viewing these evolutions, especially with the implementation of security shower curtains for the shower areas and privacy barriers in the toilet areas since the initial PREA audit.</p> <p data-bbox="305 535 1422 898">Cameras are appropriately positioned to ensure privacy while maintaining a secure overall environment. As one inmate noted, "it gives you more privacy but not enough for anything to happen." Opposite gender staff are required by policy to announce their presence prior to entering the housing areas, and this was observed throughout the site review. Interviews with staff and inmates revealed that opposite gender announcements are common practice at the facility. Inmates indicated that, on rare occasion, female staff might not announce themselves when entering a unit but that it was an exception; and every inmate and staff member interviewed stated that females never entered areas of any potential nudity without announcing themselves and pausing to provide opportunities to cover oneself. Staff were aware of the prohibition of searching or examining a transgender or intersex inmate for the purpose of determining the inmate's genital status. As there have been no transgender inmates at the facility, policy, training documentation and staff interviews show that staff is familiar with the search procedures for this population. One observation cell viewable on a monitoring screen in the control center "tower" could result in a short time of cross-gender viewing while an inmate is on suicide precaution and is considered operationally indicated for the short time until the inmate could be transferred.</p> <p data-bbox="305 924 1422 1102">Housing areas are monitored from the Control Centers with roving officers making rounds through the living areas on an irregular schedule in addition to the scheduled inmate headcounts. One of the cells in the segregation area is monitored by a camera. Upon interview with staff, it was determined that there may be short periods of cross-gender viewing in the event that a suicidal or difficult inmate is placed in the monitored cell, but it would be operationally indicated until the inmate is transferred, which is generally within the same day. Upon reviewing the camera view from the control center, it was noted that the view is minimally intrusive in view of its security purposes.</p>

115.16	Inmates with disabilities and inmates who are limited English proficient
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Although documentation reveals that inmates with disabilities are not generally housed at CCRCF, the facility has a policy in place to ensure inmates with any disabilities have equal opportunity to participate in or benefit from all aspects of CCRCF's efforts to prevent, detect and respond to sexual abuse and harassment. There have been a few cases of limited English proficiency but they have received no inmates who speak no English at all. The facility makes available written information in English and Spanish. Through staff and inmate interviews, it is clear that staff are available to ensure effective communication with inmates having difficulty reading or understanding information.</p> <p>The facility has a language service contract with Language Line that would be available for many languages to accommodate the offender population. There have been no uses of inmate interpreters in the past 12 months.</p>

115.17	Hiring and promotion decisions
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>In the past 12 months, the number of persons hired who may have contact with inmates who have had criminal background record checks was 25. There were no new contractors who required records checks. By review of policy, Interview with the staff responsible for Human Resources functions and documentation review, it was found that the facility does not hire or promote or enlist the services of any contractor who may have contact with inmates if they have committed or been convicted of any of the prohibited acts as defined in sections 1-3 of standard 115.17(a), or had any incidents of sexual harassment. New employees and potential contractors receive criminal background checks and those are renewed every 5 years through the NCIC system. Applicants for hire or promotion are asked directly about misconduct through a separate reporting form from during the application process. Requests from employers concerning former employees are responded to by the staff responsible for the facility HR functions.</p>

115.18	Upgrades to facilities and technologies
	<p data-bbox="295 142 1435 199">Auditor Overall Determination: Meets Standard</p> <p data-bbox="295 199 1435 256">Auditor Discussion</p> <p data-bbox="295 256 1435 577">During this audit cycle, there have been no major structural modifications. An interview with the Warden indicated that an assessment was conducted to ensure camera placement was appropriate and designed to increase and enhance the facility's sexual safety and they relocated a few cameras but made no major changes. The video monitoring system installed has poor clarity and capability to monitor activities within the housing zones and other facility areas but has lines of sight and coverage planned as best as possible. It doesn't appear the system would be as effective as possible during investigations and incident reviews. There are a number of newer systems and also system upgrade options in hardware and/o software that can be explored. This system likely will not be easy or inexpensive to maintain in the future. Observations during the site review made it evident that the system can observe virtually every area in the facility and some female staff expressed some concerns that private bathroom functions were sometimes visible to them and passersby. Additional visual barriers should be considered to be installed in these areas.</p> <p data-bbox="295 577 1435 636">Staff, as well as inmates, confirmed during interviews that they felt safe and secure.</p>

115.21	Evidence protocol and forensic medical examinations
	<p data-bbox="310 153 753 180">Auditor Overall Determination: Meets Standard</p> <p data-bbox="310 212 493 239">Auditor Discussion</p> <p data-bbox="310 270 1435 386">Any allegation of sexual abuse is referred to a facility criminal investigator and several members of the staff are law enforcement-trained personnel with investigator experience and training. In the event it is determined that there is not enough evidence to support substantiation of a crime, an administrative investigation is conducted by the same investigator since the facility is part of the Sheriff's Department and does not maintain its own separate investigator.</p> <p data-bbox="310 417 1435 533">Per policy, and as documented in interviews with the Warden, Investigator and PREA Compliance Manager, and training records, upper-level staff at CCRCF have completed specialized training specific to conducting investigations concerning sexual safety for administrative investigations. In the case of an investigation determined to require Sheriff's Department or MDOC CID assistance, the Warden, Chief, and the sheriff's investigator work together to investigate the incident.</p> <p data-bbox="310 564 1435 680">All on-site staff have been trained in the collection and preservation of usable evidence and were able to well verbalize the steps required. The facility follows a uniform evidence collection protocol that maximizes the potential for obtaining usable physical evidence. There have been no forensic medical exams conducted in the past 12 months due to there being no incidents.</p> <p data-bbox="310 711 1435 785">The facility nurse does not conduct forensic work as part of her practice so any inmate who is a victim of, or alleges, sexual assault will be offered access to forensic examination at no cost at North Mississippi Hospital, where a SAFE/SANE is available as referenced per the facility's Memorandum of Understanding.</p> <p data-bbox="310 816 1435 995">In the event of need or request by a victim, a trained victim advocate is made available as documented in an MDOC Memorandum of Understanding with the Mississippi Coalition Against Sexual Assault (MCASA). This MOU provides for this advocate to be the statewide DOC Victim Advocate for MDOC. The information needed to contact that advocate is provided in every housing unit posting. The Advocate explained in the interview that she has backup support arrangements with local rape crisis centers throughout the state in the event support is needed at nighttime hours, and that interview stated that the Advocate would be on-site the following morning at the latest.</p>

115.22	Policies to ensure referrals of allegations for investigations
	<p data-bbox="293 142 1435 197">Auditor Overall Determination: Meets Standard</p> <p data-bbox="293 197 1435 252">Auditor Discussion</p> <p data-bbox="293 252 1435 306">There have been no allegations of sexual abuse or harassment in the past 12 months.</p> <p data-bbox="293 306 1435 445">Facility policy requires that an administrative or criminal investigation be conducted for any allegation of sexual abuse or harassment and every allegation of potential criminal activity would be forwarded to the Sheriff's Department for investigation and prosecution as warranted. All requirements of the standard are outlined in the policy published on the Mississippi Department of Corrections website as required.</p> <p data-bbox="293 445 1435 651">During the interview with the investigator, it was evident the Sheriff's office and the facility work hand in hand to accomplish compliance with this standard, especially as they both are part of the Sheriff's Department. The investigator indicated he would be notified immediately and would follow the alleged victim to North Mississippi Hospital to initiate an investigation as soon as possible. The communication between the facility administration and the Sheriff office is excellent and frequent.</p>

115.31	Employee training
	<p data-bbox="302 157 748 184">Auditor Overall Determination: Meets Standard</p> <p data-bbox="302 212 492 239">Auditor Discussion</p> <p data-bbox="302 266 1414 571">CCRCF places great emphasis on staff training. All staff, both permanent and part-time, receive PREA training upon hiring, as well as annual refresher training, on the specific standards outlined in sections 1-10 of standard 115.31(a), as well as specific training on being first responders. During the past 12 months, all 52 staff on board have received the required refresher training. It was evident during the staff interviews, as well as upon review of training documentation, that staff received the PREA training prior to assuming duties and were aware of their inmate protection responsibilities concerning sexual abuse and harassment incidents as well as required steps of evidence collection. Supervisors also noted in interviews that PREA topics are routinely discussed when meeting with senior staff. Training is tailored to the male-only gender of all inmates and documentation reveals that staff acknowledges their understanding of the training received. All documentation is maintained within the facility files and the individual training files and were noted by the auditor during staff human resources files review.</p>

115.32	Volunteer and contractor training
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>All contractors and volunteers who may have inmate contact receive 8 hours training on their responsibilities under the facility's sexual abuse and harassment prevention, detection and response policies, and procedures. And all contractors and volunteers receive the required initial and annual refresher training. Training included potential disciplinary and criminal or administrative procedures for violations. Training records and signed acknowledgment forms were reviewed to ensure compliance with the training required for the level of contact of the volunteer or contractor. However, as a result of the CPVID pandemic, the use of volunteers and contractors has terminated and the facility reports they have none, although steps are in process to rejuvenate the volunteer programs.</p>

115.33	Inmate education
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Prior to arrival at CCRCF, while in the MDOC reception process at the designation center, all inmates are required to receive the PREA-required education and information, by video and in person, concerning sexual safety to include reporting, response, and retaliation. Training/education is documented in the MDOC electronic inmate files and random inmate files reviewed showed the entries in every file.</p>
	<p>This past year, 280 inmates were received from MDOC and all immediately received both the initial intake education and the more detailed, education since all remained longer than the 30 days noted in PREA guidance. Inmates sent here are normally scheduled to remain several years.</p>
	<p>During the CCRCF intake process, due to changes the Warden initiated since the Initial 2016 audit, inmates now receive both basic and additional information explaining the zero-tolerance policy and how to report incidents or suspicions of sexual abuse or harassment. Much of this information is also disseminated by the Case Manager in a pamphlet format at intake. The CCRCF nurse is also involved in asking the PREA-related questions asked during intake and those questions are also be asked by the Case Manager.</p>
	<p>Additional postings and signage are located throughout the facility, readily and continuously available in English and Spanish if needed. During the intake process, the inmate is questioned to verify receipt of training while in MDOC reception process, and previous education and training is verified and noted in the inmate file. If there is no verification in the file or from the inmate, the entire intake PREA training is supposed to be given and documented. Documentation was provided to prove inmate participation in educational sessions concerning sexual safety.</p>
	<p>The facility provides the required offender education per the elements of the standard. The inmates are receiving PREA education and their Handbook upon arrival to the facility at intake. The auditor reviewed current copies of documents in inmate files signed by inmates indicating they have received these PREA pamphlets and information and understand what information they have been trained on/given.</p>

115.34	Specialized training: Investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Based on a review of the facility policy, training curriculum and Investigator Interviews, Investigative staff (including senior facility leadership) have received additional specialized training in conducting investigations in a confinement setting in addition to general training provided for all employees. In the event of an allegation, the Sheriff's Department would be contacted to conduct a criminal sexual abuse investigation; the 2 Sheriffs' Investigators have received specialized training in techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral. Certificates were provided the Auditor. All training is documented in the training record maintained by the facility. There is an excellent relationship between the Investigative staff and senior facility leadership.</p>

115.35	Specialized training: Medical and mental health care
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Specialized training is provided as required, and has been completed this year, for the RCF medical nurse. It was verified through review of policy requirements, training records and her interview that training is received concerning how to detect and assess signs of sexual abuse and harassment, how to preserve physical evidence, effectively responding, and how and to whom to report. Forensic examinations are not conducted by on-site staff. Training is documented and maintained in the facility training record.</p> <p>Mental Health Services are provided through the Mississippi Department of Corrections, not in an RCF, and an offender requiring such services would be transferred back into the State prison system. It is also recommended she complete the National Institute of Corrections training for medical staff regarding sexual abuse medical management and issues.</p>

115.41	Screening for risk of victimization and abusiveness
	<p data-bbox="310 155 753 186">Auditor Overall Determination: Meets Standard</p> <p data-bbox="310 212 496 243">Auditor Discussion</p> <p data-bbox="310 268 1442 478">As required by the policy and standard, all inmates transferred into a facility are supposed to be screened upon intake for their risk of being sexually abused by other inmates or being sexually abusive toward other inmates. It is noted that virtually every MDOC inmate has their initial entry into the system at South Mississippi Correctional Facility (SMCF) and initial intake, assessment and education occurs there. Since inmates are frequently there for several months, the initial reclassification is also normally done there. Data collected there is entered into the MDOC electronic records system and is readily available to every RCF even before transfers occur. As such, most intake at the RCF's is geared towards local-specific orientation and reception and classification.</p> <p data-bbox="310 504 1442 745">As required by the policy and standard, all inmates are screened upon intake at the regional MDOC Reception Facility for their risk of being sexually abused by other inmates or being sexually abusive toward other inmates; they also receive their first reassessment there since they are normally there several months. All 280 of the inmates received at Chickasaw County RCF in the past 12 months were determined by the Case Manager to have received these assessments for risk and these were noted in 5 random inmate files checks by the auditor. The screening tool considers whether the inmate has a mental, physical, or developmental disability, age, build, previous incarceration, prior sex offenses, criminal history, previous victimization, and whether the inmate is detained solely for civil immigration purposes. If so, these inmates are retained in the MDOC parent prisons and not sent to an RCF.</p> <p data-bbox="310 770 1442 886">MDOC policy is that inmates are not disciplined for refusing to answer, or for not disclosing information in response to questions from the screening tool. All information is maintained appropriately secure with restricted access, and sensitive information is not available to the line staff or other inmates. Information collected on the screening instrument is restricted to staff making housing, work or program assignments.</p> <p data-bbox="310 945 1442 1123">Although assessment and reassessment have already been accomplished at the reception center, the RCF Classification Officer meets with every offender at arrival and every 30 days thereafter. As required in the standard, the reassessment to determine the inmate's risk of victimization or abusiveness reviews prior data and considers any new, additional, relevant information that may have been received by the facility since the intake screening. The Case Manager has a system in place during the intake process where she has a form that addresses past sexual victimization. This screening is done within the first 72 hours of the offender arriving at the facility.</p> <p data-bbox="310 1148 1442 1207">The Auditor reviewed documented inmate classification and assessment data in the electronic inmate records system of the Case Manager.</p>

115.42	Use of screening information
	<p data-bbox="306 159 748 184">Auditor Overall Determination: Meets Standard</p> <p data-bbox="306 216 493 241">Auditor Discussion</p> <p data-bbox="306 273 1414 449">As required by facility policy and indicated through staff interviews, CCRCF gathers the necessary information from the risk screening done at the Reception Center, plus their own case management intake process, and has done this for all 280 received this past year. Because of the MDOC screening parameters, low custody level and low numbers of the population, the data is only seldom required to determine housing, bed, work, and program assignments. The numbers of inmates at high risk of being sexually victimized and those at risk of being sexually abusive are very small segments of this RCF population.</p> <p data-bbox="306 478 1398 594">Staff identification of any potential predators or victims, including by the nurse in intake screening, results in the swift notification to senior staff for individualized determinations of how to ensure the safety of each inmate. Options range from separation in housing and work assignments to including the transfer of inmates back to the MDOC Parchman facility if needed to ensure that appropriate services from a larger institution are available and provided if needed.</p> <p data-bbox="306 623 1398 800">Generally, transgender or intersex inmates are not assigned here but go to a larger institution with more resources for housing and programming. If assigned here, the policy is that all assignments would be reassessed twice yearly to review safety, with the inmate's own views of safety given serious consideration and this understanding was substantiated in interviews with the Warden, Chief of Operations, and Case Manager. Although the facility has not received transgender or intersex inmates, facility policy provides the opportunity to shower separately from other inmates and facility staff were familiar with this requirement.</p>

115.43	Protective Custody
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>There were no instances of the use of involuntary segregated housing of any kind in the past 12 months for inmates at risk of sexual victimization. CCRCF policy does outline procedures to ensure inmates at risk of sexual victimization are not placed in involuntary segregated housing unless an assessment of all available alternatives has been made. Staff and inmate interviews, and files documentation revealed no incidents of involuntary segregated housing being used for this purpose at this facility. Housing assignments to the smaller housing zone are made for older inmates, but protective custody has been used very sparingly and not at all these past 12 months. The size of the population at this facility is a distinct advantage as the staff is readily familiar with most inmates individually as well as being aware of their unique circumstances. Although there have been no incidents or allegations at this facility in the past 12 months, staff interviewed were aware of the requirements of the standard as well as the facility policy.</p>

115.51	Inmate reporting
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Multiple avenues are provided to the inmate population for reporting purposes, to include mail, free telephone services to internal offices and external agencies, and directly to any staff member or third party who may report back to the facility. MCASA (Mississippi Coalition Against Sexual Assault) has a statewide MOU with MDOC to receive such reports as well as provide supportive counseling. Any staff member receiving any report has to verbally report that immediately and provide a written report prior to the end of that shift. The information for the external agency is posted throughout the facility and listed in the inmate handbook; all inmates interviewed were aware of the telephone number posting. Inmates may remain anonymous by using the external agency or by submitting an anonymous 'chit'. Staff knew the methods to report, and all interviews stated that they would be comfortable doing so. Staff also have access to secure email systems and a designated number for reporting, a number also available to the community.</p>

115.52	Exhaustion of administrative remedies
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Interviews with the Warden and PREA Compliance Manager affirmed that there's no administrative grievance process for sexual abuse or harassment. This standard is non-applicable.

115.53	Inmate access to outside confidential support services
	<p data-bbox="293 142 1435 197">Auditor Overall Determination: Meets Standard</p> <p data-bbox="293 197 1435 252">Auditor Discussion</p> <p data-bbox="293 252 1435 336">No reports, no requests for advocacy, and no incidents had occurred at CCRCF in the past year or even several years prior to that.</p> <p data-bbox="293 336 1435 535">The facility provides the inmate population with access to outside victim advocates for emotional support services related to sexual abuse through the Mississippi Coalition Against Sexual Abuse by way of a Memorandum of Understanding with MDOC. The MSCASA agency is a dedicated statewide Victim Advocate for inmates, and she responds to every request. No identifying information is required for their office to act and become involved in an alleged incident or need or to provide direct service to the inmate.</p>

115.54	Third-party reporting
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Facility requires all staff, to include medical practitioners, to report immediately any knowledge, suspicion, or information regarding an incident of sexual abuse or harassment or retaliation; and for staff not to reveal any information related to a sexual abuse report to anyone other than those necessary. The nurse confirmed that she is a mandatory reporter by law in such cases. Random staff interviews confirmed staff awareness of their responsibility for the immediate reporting requirement and not disclosing information of allegations except in the investigation. There is third-party reporting information for the Regional Facilities and all MDOC facilities on the MDOC website.</p>

115.61	Staff and agency reporting duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Facility requires all staff, to include medical practitioners according to the nurse interview, to report immediately any knowledge, suspicion, or information regarding an incident of sexual abuse or harassment or retaliation; and for staff not to reveal any information related to a sexual abuse report to anyone other than those necessary. The nurse confirmed that she is a mandatory reporter by law in such cases. Random staff interviews confirmed staff awareness of their responsibility for the immediate reporting requirement and not disclosing information of allegations except in the investigation.

115.62	Agency protection duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>No staff interviewed could recall any sexual incidents for numerous years, including longer-term staff and no inmates have been deemed to be in any PREA danger, or immediate danger.</p> <p>The facility policy requires staff to take immediate action to protect any inmate subject to the risk of imminent sexual abuse. During interviews, staff were aware of the steps to take to protect an inmate as well as their required first responder procedures and staff voiced their genuine commitment to this requirement. They indicated they would enforce it personally and believed that other staff also agreed with this approach. A uniform response from both inmates and staff was that the senior leadership would not tolerate any PREA infractions or any type of sexual misconduct. Extensive training concerning this topic was evident throughout all interviews at the facility. Random questions to staff during the site review gave the same results and that they were aware of the steps and processes required.</p> <p>If necessary, in order to protect an inmate, CCRCF can transport aggressive inmates to an MDOC parent facility where more housing and treatment options would be available if needed.</p>

115.63	Reporting to other confinement facilities
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Facility policy requires that documented notification by the Warden occur within 72 hours to the appropriate agency upon receiving an allegation that an inmate was sexually abused while confined at that facility, in order to ensure it was investigated.</p> <p>There have been no instances to date, but during an interview with the facility Warden and senior security personnel, familiarity with the required procedure was confirmed.</p>

115.64	Staff first responder duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>There were no allegations of sexual abuse received in the past 12 months. CCRCF policy specifically outlines the detailed procedures for all staff to respond to an allegation that an inmate was sexually abused in accordance with the standard. All facility staff are trained as first responders and were aware of their expected duties to include protection and separation, evidence preservation and collection, medical assessment and treatment if needed. Staff have received required training specific to these duties as confirmed through training rosters as well as staff interviews. Staff also have been provided a First Responder card with required steps and these cards were routinely in evidence during interviews.</p>

115.65	Coordinated response
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	No incidents have occurred, but the facility has developed and implemented an institutional plan through facility policy to coordinate actions of staff in response to an incident of sexual abuse. Interviews with specialized staff and intermediate level managers confirmed that all were knowledgeable concerning the response plan and the specific duties of each although. The provided First Responder card includes initial steps for senior staff as well as initial response steps for line staff first on the scene.

115.66	Preservation of ability to protect inmates from contact with abusers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The agency has not entered into any agreements limiting the agency's ability to remove alleged staff sexual abusers from contact with any inmates pending the outcome of an investigation or of a determination of discipline warranted. Employees are subject to disciplinary sanctions up to termination for violating the CCRCF Policy regarding sexual abuse and harassment. Leadership interviewed stated that no agreements with such limitations would be entertained, according to both PREA Standards and CCRCF policy. Staff are Sheriff's employees and subject to his decisions on retention in any event.

115.67	Agency protection against retaliation
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>As defined in facility policy, if an incident occurred, multiple protection measures such as housing changes, transfers to a larger MDOC facility, emotional support services and removal of perpetrators would be put in place to protect all inmates and staff who report sexual abuse or harassment from retaliation. In the event of an allegation of sexual abuse, monitoring for retaliation would currently be provided by the facility Lieutenants who manage each shift. Monitoring would be ongoing for a minimum of 90 days with periodic status checks unless additional time is warranted. There is a mandated form in place to be used for such monitoring. There have been no incidents for a number of years.</p>

115.68	Post-allegation protective custody
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>At CCRCF there have been no inmates placed in involuntary restrictive housing for protection following an allegation of sexual abuse during the last 12 months.</p> <p>Facility policy outlines that housing in involuntary restrictive housing occurs only when no alternatives are available for separation and safety purposes. The policy also states that the segregation, if used, will be very short-term or will include the provision of programs and privileges being offered. Generally, an inmate would be transferred to the MDOC Parchman facility for housing to ensure safety if absolutely needed. Interviews with specialized staff, the Warden, and the PREA Compliance Manager confirmed this procedure and understanding of policy but also pointed out that the predator/aggressor is normally returned to higher security very quickly, within days normally, and that allows the victim to return to general population quickly also.</p>

115.71	Criminal and administrative agency investigations
	<p data-bbox="293 142 1435 195">Auditor Overall Determination: Meets Standard</p> <p data-bbox="293 195 1435 258">Auditor Discussion</p> <p data-bbox="293 258 1435 405">Any allegation of sexual abuse, no matter the method used to report, is immediately initiated as an investigation from facility staff leadership trained for administrative investigations. MDOC CID staff (Criminal Investigators) are available to assist as needed or requested, as are Sheriff's Department CID investigators when required. However, it is noted that the CCRCF senior staff are also all trained investigators in law enforcement positions.</p> <p data-bbox="293 405 1435 457">There were no allegations made in the past 12 months.</p> <p data-bbox="293 457 1435 636">Upon interview of the local investigator, and documentation review, it was determined that substantial training had been received concerning sexual abuse investigations, evidence collection, and preservation. CCRCF leadership interviewed stated that any allegations found to be substantiated would be referred for prosecution and any departure of the alleged abuser or victim would not terminate the investigation. Facility policy requires that the credibility of an alleged victim, suspect or witness shall be assessed on an individual basis and not be determined by any inmate status.</p> <p data-bbox="293 636 1435 714">Complete investigative reports are required to be maintained for as long as the alleged abuser is incarcerated or employed by the agency, plus five years. Law enforcement investigation records are retained indefinitely by the Sheriff's office.</p>

115.72	Evidentiary standard for administrative investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>CCRCF policy requires that the 'preponderance of evidence' standard be used in determining whether allegations of sexual abuse or sexual harassment are substantiated. The Warden, Chief of Security and Investigator interviews verified this as the measure they utilize. In the absence of such events having occurred, the auditor relied on policy and interviews regarding the assessment of this standard.</p> <p>There were no administrative investigations needed in the past 12 months as there were no allegations.</p>

115.73	Reporting to inmates
	<p data-bbox="295 142 1435 195">Auditor Overall Determination: Meets Standard</p> <p data-bbox="295 195 1435 258">Auditor Discussion</p> <p data-bbox="295 258 1435 468">There have been no allegations of sexual abuse or harassment this past 12 months and no investigations, and thus no notifications were required. Per facility policy, CCRCF has the responsibility to inform the reporting inmate as to whether his allegation was determined to be substantiated, unsubstantiated or unfounded. Following an allegation that a staff member has committed sexual abuse against an inmate, the agency would inform the inmate in writing if the staff is no longer posted in the unit or no longer employed at the facility; and if they have been indicted or convicted. If it involved another inmate, while in custody, the victim would be notified in writing whenever the alleged abuser was indicted or convicted.</p> <p data-bbox="295 468 1435 548">Although there have been no allegations thus far to be reported, both leadership and PREA staff indicated in their interviews they were aware of the requirements and the procedures to follow.</p>

115.76	Disciplinary sanctions for staff
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>There have been no incidents requiring the discipline of staff and thus no necessity to make any reports on professionals to licensing boards, etc.</p> <p>At CCRCF, staff are subject to disciplinary sanctions, to include termination, for violating the facility sexual abuse or harassment policies. Termination is the presumptive disciplinary sanction for staff and that policy is reaffirmed in staff training and on acknowledgment documents with staff signatures throughout the hiring process, and those forms were reviewed during the audit in random HR file reviews. Disciplinary sanctions for violations related to sexual abuse are commensurate with the circumstances of the acts and all terminations (and 'in-lieu-of' resignations) related to sexual abuse are reported to local law enforcement and relevant licensing bodies unless determined to be non-criminal acts. The departure of the staff does not halt the investigative process, as verified in Warden and Investigator interviews.</p>

115.77	Corrective action for contractors and volunteers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>There have been no incidents this past year requiring the discipline of volunteers or contractors and thus no necessity to make any reports on professionals to licensing boards, etc.</p> <p>Facility policy clearly designates that sexual abuse of an inmate by contract, volunteer or staff member is reported to law enforcement agencies and relevant licensing bodies and such persons will be prohibited from further contact with inmates. Most volunteers are from religious organizations and there have been no incidents involving volunteer/contractor sexual abuse of an inmate, but interviews with the volunteer supervisor (Chaplain) reinforced that they are trained in the agency's policy, in the legal consequences, as well as given related training information on preventing, recognizing, and reporting signs of abuse by others. All volunteer and contractor staff sign acknowledgment forms regarding these policies, actions, and consequences. There has been no use of volunteers in two recent years due to the pandemic.</p>

115.78	Disciplinary sanctions for inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>There have been no inmate-on-inmate sexual assault or harassment this past 12 months.</p> <p>In facility policy, and as reported during random and supervisory staff interviews, inmates are subject to disciplinary sanctions pursuant to a formal disciplinary process following a finding that an inmate engaged in sexual misconduct. The disciplinary process does consider whether an inmate's mental disability or illness contributed to his behavior when determining the type of sanction, and all sanctions are to be commensurate with the nature of the abuse committed, the inmate's history and comparable offenses of other inmates. The disciplinary process clearly defines the ability to hold an inmate accountable for sexual contact with staff only upon concluding that staff did not consent to such contact.</p> <p>All interviews mentioned that good faith reports of sexual abuse, based on a reasonable belief, would not constitute false reporting.</p>

115.81	Medical and mental health screenings; history of sexual abuse
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The facility is compliant with this standard because MDOC has performed the required screening, collected and entered this data at the Reception Center intake process, and mental health services also exist at Reception facilities that can provide any required mental health response within the required 14 days. There is no provision for offering mental health services at any Mississippi RCF. The auditor also notes that information reported at initial intake that is currently in inmate files is frequently years or even decades old, but the CCRCF Case Manager has a procedure that addresses the issue when an offender has experienced past sexual victimization and verifies whether any issues remain to be addressed.</p> <p>There have been no disclosures of prior abuse by any inmate within the past 12 months but any inmate disclosing prior sexual abuse, whether the victim or perpetrator, while incarcerated or at any other time, will be seen by the medical practitioner very quickly after arrival. For the victim requiring a screening meeting, MDOC provides telemed mental health access since there is none at a regional facility. Informed consent is obtained prior to reporting prior victimization of adults which occurred outside the institutional setting. Upon interview of medical staff and review of facility policy, it is evident that information related to sexual victimization or abusiveness occurring in the institutional setting would be strictly limited to those staff required to provide appropriate care and program/housing assignments. Extensive Mental Health Services are provided through the Mississippi Department of Corrections facilities, as needed, and inmates with significant needs would likely be transferred back into the larger State system.</p>

115.82	Access to emergency medical and mental health services
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>MDOC and CCRCF policies mandate immediate and unimpeded access to medical and mental health services, to include crisis intervention and sexually transmitted infections prophylaxis in accordance with professionally accepted standards of care, for all alleged victims of sexual abuse at no cost to the inmate.</p> <p>Although emergency care may be provided at North Mississippi Hospital, if a situation required extensive or long-term treatment, the inmate would be moved to Parchman (Mississippi State Penitentiary) or a facility with a larger medical or mental health unit for stability and treatment.</p>

115.83	Ongoing medical and mental health care for sexual abuse victims and abusers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Based on medical staff interview and CCRCF policy, the facility will offer medical and mental health evaluation, and as appropriate, treatment to all inmates who are victimized by sexual abuse in the facility. The evaluation and treatment of such victims would include appropriate follow-up services, treatment plans, and referrals when necessary; and all are required to be consistent with the community level of care. The medical provider confirmed in her interview that the level of service here is at least equivalent to that of the community. Inmates would receive access to sexually transmitted infection prophylaxis and emergency medical or treatment services at no cost. It should be noted that significant mental health resources are available only in MDOC facilities, not in RCFs, and transfer is a possibility in order to receive the needed support services. Due to CCRCF being an all-male facility, sections (d-e) of this Standard are not applicable.</p>

115.86	Sexual abuse incident reviews
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>There have been no Investigations or Incident Reviews in the past 12 months.</p> <p>Facility policy requires a sexual abuse incident review within 30 days of the conclusion of every sexual abuse investigation, including those where the allegation has not been substantiated, and no review if the allegation has been determined to be unfounded. The review team includes the Warden and Chief of Operations, case manager and nurse as appropriate, with input from line supervisors and the investigator. Although there have been no incident reviews to date, due to no allegations having been made, interviews with staff that would be included on the incident review team, to include the Warden and PREA Compliance Manager, confirm familiarity with the policy requirement and all</p>

115.87	Data collection
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Based on PREA Coordinator staff interview from the State DOC and CCRCF levels, and policy requirements listed, the facility will collect accurate, uniform data for every allegation of sexual abuse using the standardized instrument and set of definitions from the most recent version of the Survey of Sexual Violence (SSV) conducted by the Department of Justice. The facility maintains, reviews, collects, aggregates and provides all incident-based sexual abuse data to the Department of Justice by August 30th annually. CCRCF does not contract the confinement of its inmates to any private facility.</p>

115.88	Data review for corrective action
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>CCRCF policy requires the review of data collected and aggregated to assess and improve the effectiveness of its abuse prevention, detection and response policies, and training. A report is prepared annually for the facility to compare the current and prior year's data. Although there have been no incidents, other aggregate information is reviewed to seek improvements and submitted to the MDOC for inclusion in their annual reporting and publishing for the State of Mississippi at http://www.mdoc.ms.gov.</p>

115.89	Data storage, publication, and destruction
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Facility policy requires that all case records concerning claims of sexual abuse, to include incident reports, investigative reports, offender information, case disposition, medical and counseling evaluation findings and recommendations for treatment are securely retained for a minimum of 10 years after the date of the initial collection unless otherwise required by law. Provided documentation shows that aggregated sexual abuse data under the MDOC is made readily available to the public at least annually through the agency website, following the removal of all personal identifiers. Required PREA information and audits are maintained by MDOC for all facilities on the DOC website.

115.401	Frequency and scope of audits
