SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for "convicted.") Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detained sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

Auditor Overall Determination Definitions

- Exceeds Standard (Substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the stand for the relevant review period)
- Does Not Meet Standard (requires corrective actions)

Auditor Discussion Instructions

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

115.11	Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The MDOC state-wide PREA Coordinator and facility PREA Compliance Manager were both familiar with their respective responsibilities to ensure compliance to policies by staff. The LCRCF Compliance Manager indicated that he has sufficient time and authority to coordinate the facility's efforts to comply with the PREA standards as required. The facility PCM has many responsibilities but continues to ensure the PREA mission is of the upmost importance in the practice of Leake County Regional Correctional Facility. The agency addresses its policy against sexual abuse and sexual harassment in the Inmate Handbook, Staff PREA Handbook and an array of educational material provided to staff and inmates throughout the facility.
	The facility's policy, Prison Rape Elimination Act specifies zero tolerance of sexual abuse and harassment. The policy is very detailed and specific addressing every standard and all prohibited acts are clearly defined. The agency policy outlines the agency approach to preventing, detecting and responding to sexual abuse and sexual harassment. Interviews with both inmates and staff confirm that the policy is in practice and sexual safety is taken very seriously at LCRCF.

115.12	Contracting with other entities for the confinement of inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	According to documentation provided and interviews with the facility leadership, the determination was made that this facility does not contract with other facilities to house inmates assigned to their custody. Per the agency's contract with MDOC, which is through the confinement of inmates designated to LCRCF, inmates will only be returned to the MDOC for housing. Therefore, LCRCF does not contract for the confinement of inmates. This standard was found to meet standards, although contracting for inmates is not applicable to LCRCF.

115.13 Supervision and monitoring Auditor Overall Determination: Exceeds Standard **Auditor Discussion** The facility utilizes two 12 hour shifts consisting of security and supervisory staff in addition to 24 hours of extensive video monitoring. The video monitoring has a 30 day retention to allow for review of any alleged incidents reported. Each area of the facility is evaluated annually by the Chief of Security and Warden to determine any blind spots. The facility maintains a PREA Staffing Analysis Worksheet that is reviewed annually to determine appropriate staffing levels. This is in addition to the facility staffing plan. The facility exceeds the requirement for staffing plan by incorporating the analysis worksheet into the mission of inmate safety. There are several levels of review for the staffing plan to include the Chief of Security, Warden among additional agency leadership. Auditor reviewed all aspects of the staffing plan prior to site review. During the onsite visit, the plan was discussed with the Warden and it is noted that all aspects of the standard are considered when developing and reviewing the staffing plan. The facility has documented any deviations from the staffing plan. Any time the plan is not followed, the Chief of Security is notified, and it is documented. Shift rosters are reviewed daily to monitor shift coverage. The plan is reviewed annually by the senior members of the staff to include the PREA Compliance Manager and any recommendations are sent to the MDOC PREA Coordinator. In addition to facility staff review annually, the departmental PREA Coordinator also reviews the staffing plan. Intermediate and higher-level staff are required by facility policy to conduct and document unannounced rounds. This process was verified through inmate and staff interview as well as facility register logs. The facility also maintains a log record specifically designated for documentation of PREA rounds. These rounds are documented in log book and occur at least twice a shift. The facility exceeds in this area.

115.14	Youthful inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	LCRCF does not house youthful offenders. This standard is not applicable since LCRCF only houses adult inmates. Therefore, this meets standard.

115.15 Limits to cross-gender viewing and searches Auditor Overall Determination: Meets Standard **Auditor Discussion** Cameras are strategically located through-out the facility to ensure inmate privacy, while maintaining a secure environment. Staff of opposite sex are required to announce their presence prior to entering housing areas, and this was observed during the tour. These announcements are common based on information gathered during interviews. Although there have been not transgender inmates at the facility, applicable policies are in place and training records indicate that staff are familiar with searching procedures with this population. Barriers in the toilet areas and in the shower area allow for inmate privacy, while not infringing upon good security practices. Lastly, interviews with inmates revealed no concerns with cross-gender viewing during shower and/or bathroom use. Training records/transcripts and staff interviews, confirmed that staff is receiving all training related to cross-gender searching, and the importance of the need for thorough documentation is prevalent. Established policies prohibit staff from searching or physically examining a transgender or intersex inmate for the sole purpose of determining the inmate's actual genital status. It was apparent during staff interviews that staff have received and understand the education regarding transgender pat searches and cross gender searching. Policy covers the procedures for searches and is compliant with the mandates of this standard. This facility does not house female or youthful offenders. The facility does not conduct cross-gender strip searches and/or cross-gender body cavity searches, and this was verified through staff and inmate interviews. Appropriate policies and training curriculums are in place to address cross-gender searches. There have been no exigent circumstances of cross-gender searching, but polices to address this, are in place as well. Privacy barriers are installed in each housing unit and each stall has a closure attachment to added privacy. The video monitoring view does not show the toilet areas in any of the housing units. During the interview process, there were no concerns relating to cross gender viewing during showering or toilet use. Every inmate interviewed voiced the feeling of

safety at LCRCF. The facility does not house female inmates.

115.16	Inmates with disabilities and inmates who are limited English proficient
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Policies are in place to ensure that inmates with disabilities are equally able to benefit from the efforts of the facility to prevent and investigate any occurrences of sexual abuse or harassment. Additionally, inmates with problems communicating are able to benefit from the facilities available resources to ensure effective communication, regardless of language and/or level of understanding. The facility has an agreement with community volunteer, Claudia Jiminez, who provides the interpreter services. To date, the facility has not had to utilize her services.
	Agency policy prohibits the use of offender interpreters to gather information related to an allegation of sexual abuse or sexual harassment.

115.17	Hiring and promotion decisions
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	By law, the facility is prohibited from providing any information concerning a substantiated allegation of sexual abuse or sexual harassment by a former employee.
	Policy reviews and interviews with HR personnel verified that this facility does not hire, promote or enlist the services of any contractor that may have contact with inmates, if the said party has committed or been convicted of any of the prohibited acts as defined in sections 1-3 of Standard 115.17(a), or had any incidents of sexual harassment. New prospective employees/contractors are subjected to criminal background checks through the NCIC System (every five years), the last check was completed within the last twelve months. This information was verified through documentation review and a statement of fact from the Warden. The facility has assistance with local law enforcement to ensure checks are completed. New hires and employees applying for promotion are specifically asked about misconduct through a separate reporting form. Requests by employers, concerning former employees, is responded to by HR staff.

115.18	Upgrades to facilities and technologies
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	There have been no major modifications during this reporting period. During the interview with the PREA Compliance Manager, he indicated that all areas of the facility are reviewed annually to ensure camera placement is appropriate and designed to increase and enhance the facility's sexual safety. The facility reviews all areas including blind spots to determine the need for additional camera coverage on an annual basis. The video monitoring system installed has the clarity to monitor activities within the housing zones and other facility areas with clear lines of sight and coverage. Since the previous audit, the facility has added 7 cameras and upgraded the system from analog to digital. The visibility and speed have greatly improved. The Control Center Officer has access and is assigned to monitor the 136 cameras. Staff as well as inmates confirmed during interviews that they felt safe and secure with the camera system. During the site review, it was obvious that almost every area of the facility can be viewed while still enabling the privacy of the inmates while dressing, showering and toileting.

115.21 Evidence protocol and forensic medical examinations Auditor Overall Determination: Meets Standard **Auditor Discussion** The LCRCF investigator, Spencer Panky, is a certified law enforcement officer with the Leake County Sheriff Department. The investigator is responsible for criminal investigations. The PREA Compliance Manager and the Warden will handle the administrative investigations. A uniform evidence protocol is used during the investigative process that maximizes the potential for obtaining usable physical evidence. Any reports of criminal violations are immediately submitted to the District Attorney office for prosecution. The PREA referral form is completed by CID and it is clearly indicated on the form that communication regarding investigation is shared with the facility Warden. There have been no reports of sexual abuse, sexual harassment or sexual assault at LCRCF and no investigation conducted. Verified in interviews and through documentation, the individuals conducting the investigation has received the required specialized training. In the case of an investigation determined to be administrative, the Warden and PREA Compliance Manager work together to investigate the incident. There have been no forensic medical exams conducted in the past 12 months due to there being no incidents. The facility nurse does not conduct forensic work as part of her practice, anyone who alleges sexual assault will be offered access to forensic examination at no cost at Leake Baptist Hospital, where a SAFE/SANE is available as referenced per the facility's Memorandum of Understanding. A trained victim advocate is made available as documented in an MDOC Memorandum of Understanding with the Mississippi Coalition Against Sexual Assault (MCASA). According to the MOU, the service provides for the advocate to be designated as the statewide DOC Victim Advocate. The contact for the advocacy service is provided in every housing unit

posting.

115.22	Policies to ensure referrals of allegations for investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	There was one allegation of sexual abuse in the past 12 months that was determined to be unfounded.
	Agency policy mandates immediate initiation of an investigation following an allegation of sexual assault. The policy states the agency shall follow a uniform evidence protocol when conducting the investigation.
	This standard was addressed in LCRCF policy, the PAQ, and during an interview with the investigative staff. All allegations of sexual abuse and sexual harassment reported by inmates, staff, third party, volunteers and/or contractors must be submitted to the proper investigative staff for investigation. All requirements of the standard are outlined in the policy published on the Mississippi Department of Corrections website as required.
	The interview with the investigator indicated the Sheriff's office and the facility work together to maintain compliance with this standard, especially as they both are part of the Sheriff's Department. The investigator indicated he would be notified immediately and would follow alleged victim to Leake Baptist Hospital to initiate investigation as soon as possible. The communication between the facility administration and the Sheriff office is commendable and beneficial to both entities.

115.31	Employee training
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Prior to the onsite portion of the audit, the auditor reviewed the training curriculum in addition to employee training rosters. While onsite, the audit reviewed additional rosters indicative of all staff completing the agency required training.
	All full and part time staff at LCRCF receive PREA training upon being hired, as well as annual refresher courses on the specifics outlined in this standard, in addition to first responder training. All staff have received the required annual refresher training, during the last twelve months. It is apparent, based on interviews and documentation reviews, that staff receive initial PREA training and are aware of their responsibilities and role in preventing sexual abuse and harassment incidents, in addition to appropriate evidence collection requirements. All training is tailored based on the all-male inmate population and documentation reviews reveal that staff understand the training that is received. Documentation reviews also reveal that training records and staff training transcripts are maintained in the appropriate human resources individual/facility files on site.

115.32	Volunteer and contractor training
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	All contractors and volunteers who may have inmate contact receive training on their responsibilities regarding the facility's sexual abuse and harassment prevention, detection and response policies and procedures. All contractors and volunteers received the required initial training. During the onsite portion of the audit, training records and signed acknowledgment forms were reviewed by the auditor. The interview with the PREA Compliance Manager verified that the training received covered the responsibilities in regard to the agency's zero tolerance policy of sexual abuse and harassment, how to avoid inappropriate relationship with inmates, prevention, detection and response of sexual harassment or sexual abuse. The information for mandatory reporting and appropriate reporting avenues was also taught and understood by the volunteer. The facility is in the process of implementing an annual training course regarding PREA to all contractors and volunteers. The annual training will be in addition to the initial training already provided. I interviewed two religious volunteers, both verified training provided by the facility.

115.33 Inmate education Auditor Overall Determination: Meets Standard **Auditor Discussion** Before arriving at LCRCF, all inmates are required to receive the PREA-required education and information concerning sexual safety to include reporting, response and retaliation. The information is provided at the MDOC Reception Center and the training/education is documented in the MDOC electronic inmate files. During intake process at LCRCF, inmates receive information explaining the zero-tolerance policy and how to report incidents or suspicions of sexual abuse or harassment. Much of this information is also provided by the intake officer in a pamphlet format at Intake. The PREA Compliance Manager officer and the Nursing staff are both involved in the intake assessment to determine risk for victimization. Upon arrival, every inmate has already completed the detailed assessment at the reception unit and are reassessed when they arrive to LCRCF. To date, the facility has not received any inmates designated as high risk for sexual victimization, per the reception assessment. There are adequate postings and signage strategically located throughout the facility, readily and continuously available in English and Spanish if needed. Random inmate interviews indicated that inmates have knowledge of PREA as well as acknowledgement receiving the education at the Reception Unit prior to arriving at LCRCF. Normally, LCRCF does not receive inmates who have limited English proficiency, or who are deaf, visually impaired or otherwise disabled. If it was determined that a newly arrived inmate had significant disabilities, staff are available to personally assist with accessing services through MDOC or Volunteer translator. Generally, these inmates would be immediately transferred to the for Central Mississippi Correctional facility confinement and care. Upon review of inmate files, training curriculum, inmate handbook and PREA pamphlet, it is determined that the facility meets each subsection of this standard. The inmates are receiving PREA education and their Handbook upon arrival to the facility at intake. The auditor reviewed signed copies of documents in inmate case management files indicating they have received these PREA pamphlets and information and understand what information they have been provided. During interviews, it was evident the facility is providing ample education to each offender upon arrival and throughout the duration of the

incarceration.

115.34	Specialized training: Investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Facility policy, training curriculum records and interviews reveal that the investigative staff receive not only the generalized training that other staff receive, but also specialized training in conducting investigations in a confinement setting. Examples of this specific training received are: interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collections in a confined setting, and the criteria and evidence required to substantiate a case for administrative action and/or prosecution referral. All training documentation is maintained by the facility and it is noted that the training received exceeds requirements for this standard.
	All trained individuals are extremely knowledgeable of the investigative process and their level of expertise in investigations is very beneficial to this facility. The investigator and facility staff both stated during interview process the lines of communication between the two parties are always open. Although the facility is small, with limited resources, the investigative services are clearly a priority. The primary investigator at the facility was very knowledgeable regarding his duties as the PREA investigator. He has extensive experience in law enforcement and has completed the specialized course for PREA.

115.35	Specialized training: Medical and mental health care
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Mental Health Services are provided through the Mississippi Department of Corrections, not in an RCF, and an offender requiring such services would be transferred back into the State prison system. Any inmate in need of mental health services would be transferred on an emergent basis and would have the possibility of returning, depending on the reason for transfer.
	There are three newly hired nurses at LCRCF. Each of them has completed the required facility training in addition to the Specialized Medical and Mental Health training provided by the PREA Resource Center. During interviews, each nurse was very knowledgeable regarding their role in the screening assessment process and duties to respond.

115.41 Screening for risk of victimization and abusiveness

Auditor Overall Determination: Exceeds Standard

Auditor Discussion

The PAQ reports all inmates entered the facility within the last 12 months and all were screened for risk of victimization and abusiveness upon their arrival. The inmate is screened upon arrival by the PREA Compliance Manager and Nurse. As required by the policy and standard, all inmates are screened upon intake at the regional MDOC Reception Facility for their risk of being sexually abused by other inmates or being sexually abusive toward other inmates; they also receive their first reassessment there since they are normally there several months.

The screening assessment considers whether the inmate has a mental, physical, or developmental disability, age, build, previous incarceration, prior sex offenses, criminal history, previous victimization, and whether the inmate is detained solely for civil immigration purposes. Any inmates identified by the assessment are retained in MDOC and not sent to an RCF.

Policy prohibits inmates from being disciplined for refusing to answer assessment questions, or for not providing information in response to the screening tool questions. All information is secured appropriately on a limited access bases, with sensitive information strictly off limits to line staff or other inmates. Information gathered during the assessment, is privileged to staff making housing, work, or program assignments. At any time an inmate feels unsafe for any reason, he has the option to complete a Red Tag form that will ensure he is no longer housed with the inmate he is avoiding. This information is made a part of his permanent record, easily accessible if he transfers to another facility within MDOC.

In addition to the assessments by the Reception Center staff, the RCF Case Manager meets with every offender upon arrival and every thirty days, thereafter. Screening is accomplished promptly, within the first seventy-two hours after arriving. In accordance with applicable policies and standards, the reassessment tool considers prior data, along with any new information that may have been received.

The facility exceeds the requirement for this standard. Not only is the inmate immediately assessed by the PREA Compliance Manager upon intake, but he is also seen immediately by the Nursing staff and screened again using a different screening tool. In addition to the two separate initial screenings, the inmates are seen again within the first 14 days of arrival by the nurse and screened again to ensure they are safe in the housing zone and are not having any issues.

115.42	Use of screening information
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Based on policy mandates and confirmed through staff interviews, LCRCF accumulates information learned during the intake process, along with information gathered during the initial risk screening at the Reception Center and has done this for all inmates received during the past year.
	If there was an inmate that is identified as high risk either during intake or through nurses screening, the PREA Compliance Manager would consult with the Warden and Captain. Together, they would make an individualized determination of how to ensure the inmate's safety and assign him appropriately. The facility can opt to either transfer the inmate back to the state facility or separate in housing and work assignments.
	Typically, transgender or intersex inmates are not assigned here but reside at a state institution with more resources for housing and programming to ensure these inmates' health and safety. In the event that a transgender or intersex would be assigned to LCRCF, policy states that all assignments would be reassessed twice yearly to review safety, with the inmate's own views of safety given serious consideration and this understanding. This information was verified through interviews with upper management staff. Although the facility has not received transgender or intersex inmates, facility policy provides the opportunity to shower separately from other inmates and facility staff were familiar with this requirement.

115.43	Protective Custody
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	There were no instances of use of involuntary segregated housing in the past 12 months for inmates at risk of sexual victimization. LCRCF policy does outline procedures to ensure inmates at risk of sexual victimization are not placed in involuntary segregated housing unless an assessment of all available alternatives has been made. The one allegation in the past 12 months was not housed in involuntary segregation.
	Involuntary segregation is rarely used at an RCF. Inmates placed in involuntary segregation do not ordinarily remain for more than 24 hours pending transfer. Reviewing practices and interviewing inmates indicated the policy was being followed.

115.51	Inmate reporting
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	According to policy, any staff member receiving a report is required to verbally report that immediately and provide a written report prior to the end of that shift. All interviews with staff indicated this procedure is understood and would be followed in the event of an allegation. The information for the external agency is posted throughout the facility and listed in the inmate handbook; all inmates interviewed were aware of the telephone number posting. Inmates may remain anonymous by using the external agency or by submitting an anonymous letter. There are several different avenues provided to the inmate population for reporting purposes. These services include mail, free telephone services to internal offices and external agencies, and directly to any staff member or third party who may report back to the facility. Staff is readily available to the inmate population to receive any complaints. Staff knew the methods to report and all interviews stated that they would be comfortable doing so. The agency allows third parties to submit reports of allegations of sexual abuse/harassment on behalf of inmates.
	The phones in the housing units were checked during onsite review. All phones were operable and easily connected by dialing 3 when prompted. The hotline did not require the inmate to enter a pin number. The call can be made anonymously and once received an email is sent immediately to the facility PREA Compliance Manager.

115.52	Exhaustion of administrative remedies
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	LCRCF is not exempt from this standard and has procedures in place to address inmate grievances regarding sexual abuse. However, there have been no reports of sexual abuse or sexual harassment submitted through the grievance procedure. LCRCF policy addresses the administrative remedy process to be utilized. LCRCF is required by the MDOC to forward all inmate grievances to MDOC for acceptance and review. MDOC will then provide response to LCRCF. The procedure for filing a grievance is located in the inmate handbook and the agency policy. There is no designated time limit in which a grievance can be filed regarding an allegation of sexual abuse, harassment or retaliation. LCRCF policy prohibits the grievance of sexual abuse to be submitted to or referred to the subject of the complaint.

115.53	Inmate access to outside confidential support services
	Auditor Overall Determination: Exceeds Standard
	Auditor Discussion
	The agency maintains a state wide agreement with rape crisis centers throughout the state to address emergent and crisis centered issues. All contacts are confidential. The facility provides the inmate population with access to outside victim advocates for emotional support services related to sexual abuse through the Mississippi Coalition Against Sexual Abuse by way of a Memorandum of Understanding with MDOC. Auditor observed the postings and confirmed knowledge of the information in the Inmate Random interviews. Auditor also contacted MCASA to confirm the requirements of the MOU. The facility also has an MOU with Weems Mental Health Center to accommodate immediate mental health needs. Weems Mental Health Center is less than a mile from the facility. The facility can also utilize MDOC MH for telehealth if necessary. The one allegation that was made in the last twelve months did not utilize the services due to his admission of fabricating the allegation, prior to being sent to the hospital. All inmates interviewed were knowledgeable about hotline and it is readily visible in all housing units.
	All phones in the housing areas were tested and were found to be working properly. The inmates were not only knowledgeable that there was a reporting method in place but could also articulate the exact numbers to use in the event of an assault. Each time an inmate picks up the phone, the prompt provides the option to connect to report sexual assault.

115.54	Third-party reporting
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	All reports are taken seriously, regardless of the reporting method. Each allegation is investigated immediately upon receipt of the information. The MDOC information posted in all units indicates the ability and information needed to report this type of incident to MDOC central office staff as well. Third party reporting information is readily available to all inmates through the intake process. The contact information for the Mississippi Coalition Against Sexual Abuse (MCASA) is provided to the general public on the MDOC website, as well as in the handbook and on postings in the telephone areas in the inmate zones. In addition, the notification is also posted in the visitation area, readily available to all visitors for third party reporting options.

115.61	Staff and agency reporting duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Failure to report is violation of policy and may result in administrative or disciplinary sanctions. Random staff interviews verified staff awareness of their responsibility for the immediate reporting requirement. Staff readily articulated knowledge of the confidential nature of allegations, with the only exception being treatment or investigative process. All staff interviewed stated they would also feel comfortable reporting to the Warden, Captain and PREA Compliance Manager.
	Facility requires all staff, to include medical practitioners, to report immediately any knowledge, suspicion, or information regarding an incident of sexual abuse or harassment or retaliation. The nurses all confirmed that they are mandatory reporters by law in such cases. Staff must also report any allegations of retaliation against inmate or staff.

115.62	Agency protection duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	During interviews, staff were aware of the steps to take to protect an inmate as well as their required first responder procedures and staff voiced their genuine commitment to this requirement. They indicated they would enforce it personally and believed that other staff also agreed with this approach.
	The PAQ indicated there was one report of sexual abuse during the reporting period. The allegation was determined to be unfounded.
	Extensive training concerning responder duties was evident throughout all interviews at the facility. Random questions to staff during the site review gave the same results and that they were aware of the steps and processes required.
	If necessary, in order to protect an inmate, LCRCF can transport predatorial inmates or inmates at high risk for victimization to an MDOC parent facility where more housing and treatment options would be available if needed.

115.63	Reporting to other confinement facilities
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Agency and facility policy require reporting to the appropriate personnel upon receiving an allegation that an inmate was sexually abused while confined at that facility, in order to ensure it was investigated.
	There have been no instances to date, but during an interview with the facility Warden and upper management staff, knowledge with the required procedure was indicated.

115.64	Staff first responder duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Per the PAQ, the agency first responder duties are listed in the LCRCF policy. LCRCF policy outlines the specific procedures for all staff to respond to an allegation that an inmate was sexually abused in accordance with the standard. All facility staff are trained as first responders and have knowledge of their expected responsibilities to include protection and separation, evidence preservation and collection, medical assessment and treatment if needed. Staff have received required training specific to these duties as confirmed through training rosters as well as staff interviews. All staff interviewed were very knowledgeable regarding the first responder duties, despite not ever having a PREA incident. The facility ensures staff is fully prepared to respond in the event of a sexual assault by providing a PREA first responder card for all employees and contracted part time employees.

115.65	Coordinated response
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The policy outlines the requirements of the standard. The one incident resulted in immediate action and was documented using the checklist. Interviews with Specialized Staff and intermediate level managers confirmed that all were knowledgeable concerning the response plan and the specific duties. Staff has a PREA reminder card on person to indicate responsibility for action in the event of an incident. Policy provides specific details in the plan of actions to include staff notification, the protocol for response, collection of evidence, etc. A report has to be submitted to agency PREA Coordinator within ten days of incident occurrence.

115.66	Preservation of ability to protect inmates from contact with abusers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility staff have the ability to move any inmate to a safe cell or segregation areas that is suitable for the protection of the inmate at high risk for sexual victimization. There are no current agreements that limit the agency's ability to remove a staff abuse from having contact with inmates during the course of an investigation. In the event an employee violates the LCRCF policy regarding sexual abuse and harassment, the employee could be subject to disciplinary sanctions up to termination.

115.67	Agency protection against retaliation
	Auditor Overall Determination: Meets Standard
İ	Auditor Discussion
	There have been no incidents that require monitoring for retaliation. The one allegation was determined to be unfounded. The PREA Compliance Manager, who would be the designated employee to conduct monitoring, was interviewed. He was very knowledgeable regarding his responsibility as the retaliation monitor. He stated multiple factors would be considered when determining if an offender or employee was being retaliated against. Per policy, retaliation is prohibited and staff is aware of reporting requirements. The PREA Compliance Manager stated if retaliation was reported during the monitoring process, an additional investigation would be initiated. In his absence the Captain and Lt would serve as the retaliation monitor.

115.68	Post-allegation protective custody
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Typically, an inmate would be transferred to a state MDOC facility for housing to ensure safety if necessary. Policy states that if segregation is used, it will be short term and will include programming and privileges. The use of segregation relative to PREA would only be used as a final alternative and would only be implemented for safety purposes. Interviews with the Warden, Captain and PREA Compliance Manager confirmed this procedure and understanding of the policy.
	At LCRCF there have been no inmates placed in involuntary segregation for protection following an allegation of sexual abuse during the last 12 months. The one individual who made the allegation was sent back to MDOC secondary to rule violations.

115.71	Criminal and administrative agency investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	There was one allegation of assault during the review period. The file was reviewed and determined to be in compliance. The certified investigator is also certified law enforcement. He conducts criminal investigations on behalf of the Leake County Sheriff Department. The policy requires that all investigations of sexual abuse and sexual harassment are conducted thoroughly and in a timely manner.
	Upon interview of the Investigator, and documentation review, it was determined that substantial training had been received concerning sexual abuse investigations, evidence collection and preservation. All investigators and senior staff interviewed stated that any allegations found to be substantiated would be referred for prosecution and any departure of the alleged abuser or victim would not terminate the investigation. Facility policy requires that the credibility of an alleged victim, suspect or witness shall be assessed on an individual basis and not be determined by any inmate status.

115.72	Evidentiary standard for administrative investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	LCRCF policy discusses all components of the preponderance of evidence standard. When interviewing the facility designated investigators, there were able to adequately give examples of the burden of proof and preponderance for administrative cases. The understood that a standard no higher than preponderance of evidence is used when determining allegations of sexual abuse or sexual harassment is substantiated.

115.73	Reporting to inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The one allegation made was appropriately notified. The notification was reviewed by the auditor and all documentation was in compliance. Per policy, LCRCF has the responsibility to inform the reporting inmate as to whether his allegation was determined to be substantiated, unsubstantiated or unfounded. Following an allegation that a staff member has committed sexual abuse against an inmate, the agency would inform the inmate in writing if the staff is no longer posted in the unit or no longer employed at the facility; and if they have been indicted or convicted.
	Higher-level staff and PREA agency staff indicated in their interviews they were aware of the requirement and the procedures to follow, despite having no allegations during the reporting period.

115.76	Disciplinary sanctions for staff
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	All incidents of inmate sexual abuse or sexual harassment shall be investigated, disciplined and referred for prosecution when warranted. In accordance with the agency zero tolerance policy, perpetrators of sexual abuse shall be disciplined and/or referred for prosecution. The presumptive disciplinary sanction for staff who have engaged in sexual abuse of an offender is termination.
	In the past 12 months, no staff from the facility have been terminated for violating sexual abuse or sexual harassment policies. In the past 12 months, no staff from the facility have been reported to law enforcement or licensing boards following their termination for violating agency sexual abuse or sexual harassment policies.

115.77	Corrective action for contractors and volunteers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	LCRCF policy requires that any contractor or volunteer who engages in sexual abuse be reported to law enforcement agency and to relevant licensing bodies. LCRCF takes appropriate remedial measures and considers whether to prohibit further contact with inmates in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer. During interviews with the Warden and HR director, it was noted there have been no contractors or volunteers reported to law enforcement in the past 12 months for engaging in sexual abuse of offenders at LCRCF.

115.78	Disciplinary sanctions for inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The agency investigates all incidents of inmate sexual abuse or sexual harassment. All incidents shall be disciplined and referred for prosecution, when warranted. In keeping with the agency's zero tolerance policy, perpetrators of sexual abuse shall be disciplined and/or referred for prosecution. Disciplinary sanctions will occur and will be based upon circumstances of the incident, inmate's disciplinary history and similar sanctions imposed on similar incidents. The facility will consider the mental health functioning of an inmate and will consult with mental health staff prior to implementing a sanction. The facility only disciplines an inmate for sexual contact with staff only upon finding that the staff member did not consent to the act.

115.81	Medical and mental health screenings; history of sexual abuse
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility is compliant with this standard despite not having onsite mental health staff. Each inmate is required to complete the required screening when processed through the Reception Unit. While at the reception unit, each inmate is afforded the opportunity to access mental health and medical services within the first 14 days. Although there is no provision for mental health services at the RCF units, the nursing staff immediately evaluates the inmate upon intake and again within 14 days. Informed consent is obtained during the medical screening intake. If necessary, an inmate in need of mental health services can be transferred to the state MDOC facility in accordance with his mental health needs. In addition to utilizing MDOC for ongoing mental health services, the facility has an MOU with Weems Mental Health Center to send inmates for psychological evaluation as needed.

115.82	Access to emergency medical and mental health services
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Agency and facility policy support all areas of this standard and mandate immediate access to medical and mental health services. The policy includes the timeliness of emergency medical treatment and crisis intervention services, steps taken by first responders to protect the victim. The policy all includes timely access to emergency contraception and sexually transmitted infection prophylaxis and that the victim bears no financial cost for treatment of services.
	Although emergency care may be provided at Leake Baptist Hospital, if a situation required extensive or long-term treatment, the inmate would be transferred to a MDOC prison with a larger medical or mental health unit for stability and treatment.

115.83	Ongoing medical and mental health care for sexual abuse victims and abusers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	LCRCF policy addresses this standard on pages 44-45. The agency requires the facility to offer appropriate mental health and medical evaluations to inmates who have been victimized in a correctional facility. Inmates are provided care at Leake Baptist Hospital. All services provided to inmate victims are consistent with community care. The care is provided at no cost to the inmate.

115.86	Sexual abuse incident reviews
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	There were no incidents that required an Incident Review during reporting period, the one allegation was determined to be unfounded. However, the PREA Compliance Manager and Warden still reviewed the case and completed the form during the course of the investigation.
	According to facility policy, LCRCF requires a sexual abuse incident review within 30 days of the conclusion of every sexual abuse investigation. This review also includes those where the allegation has not been substantiated, and no review if the allegation has been determined to be unfounded. The review team includes the Warden, Captain, PREA Compliance Manager, Nurse and Investigator. Although, there have been no incidents to review, the facility has procedure in place to review the incident. The facility uses an Incident Review form that reviews all aspects of the standard.
	During the interviews with the PREA Compliance Manager, Captain and Nursing staff it was understood that both disciplines would participate in the review meetings and all parties indicated understanding of reasoning behind the meetings.

115.87	Data collection
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	LCRCF reviews all data collected pursuant to this standard in order to assess and improve the effectiveness of the sexual abuse prevention. The facility will collect accurate, uniform data for every allegation of sexual abuse using the standardized instrument and set of definitions form the most recent version of the Survey of Sexual Violence (SSV) conducted by the Department of Justice. The facility maintains, reviews, collects, aggregates and provides all incident-based sexual abuse data to the Department of Justice by August 30th annually.

115.88	Data review for corrective action
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	An annual report is generated for the facility to compare the data from the previous year. All pertinent information is reviewed to ensure any necessary improvements are noted and implemented. The annual report is submitted to MDOC for inclusion in the departmental annual reporting and publishing on the agency website. LCRCF policy mandates that all data collected is reviewed to improve the mission of prevention, detection and responding to all sexual abuse.

115.89	Data storage, publication, and destruction
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The agency maintains all incident based data. The annual reports are accessible through the agency website. The link was provided to the audit team to review accessibility. All personal information is redacted from the reports. Agency policy and practice provides for secure retention of the data.

115.401	Frequency and scope of audits
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	LCCF was extremely accommodating and provided access to any area of the facility that we requested. All supplemental documentation that was requested by the auditor was provided by the Prea Compliance Manager prior to leaving the Onsite review. The auditor was able to interview staff and inmates informally throughout the site review and confidentially for the random and specialized interviews.

115.403	Audit contents and findings
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The final facility reports are published on the agency website. Auditor has spoken with the agency PREA Coordinator who is aware and willing to ensure all facility reports are gathered and published according to the standard. At the time of review, the previous LCRCF reports were published on agency website.
