SUMMARY OF AUDIT FINDINGS

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Number of standards exceeded:

48. Provide any additional comments regarding the population characteristics of inmates/residents/detainees in the facility as of the first day of the onsite portion of the audit (e.g., groups not tracked, issues with identifying certain populations):	The facility was more than accommodating when reviewing cases to be interviewed as a specialized category. Due to the nature of the population housed at Regional Facilities, there were very few inmates that were characterized as "specialized" interview candidates. The facility and myself went through each roster and each specialized category to determine the number of inmates that could be interviewed. After the review, the facility identified three limited English inmates, four cognitive impaired inmates, one inmate with a mental disability and one inmate with low vision. The auditor was given access to all of the inmates and each one completed an interview without any issues.

INTERVIEWS

Inmate/Resident/Detainee Interviews

Random Inmate/Resident/Detainee Interviews

53. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed:	31
--	----

54. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)	<input type="checkbox"/> Age <input type="checkbox"/> Race <input type="checkbox"/> Ethnicity (e.g., Hispanic, Non-Hispanic) <input type="checkbox"/> Length of time in the facility <input checked="" type="checkbox"/> Housing assignment <input type="checkbox"/> Gender <input type="checkbox"/> Other <input type="checkbox"/> None
---	---

55. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?	The facility provided a housing roster of the MDOC inmates housed at SCRCF. A random selection of inmates was conducted ensuring that a sample was taken from every housing area.
--	---

56. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

57. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):	All inmates were receptive to the interview process. Each inmate expressed a feeling of safety at SCRCF. Several of the inmates claimed SCRCF was the safest facility within the MDOC system. Each inmate articulated that staff would react and respond appropriately in the event of a prea incident. Inmates were very knowledgeable about the avenues available to report an allegation.

Targeted Inmate/Resident/Detainee Interviews

58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	9
--	---

As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

<p>84. Did you have access to all areas of the facility?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
---	---

Was the site review an active, inquiring process that included the following:

<p>85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>88. Informal conversations with staff during the site review (encouraged, not required)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>

89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).	The staff was extremely accommodating when completing the tour. All areas were accessible during onsite review and informal conversations were able to be conducted with privacy.
--	---

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	Any documentation requested by the auditor was easily accessible and provided without questions. All staff made every effort possible to comply with any request from auditor and were readily available to assist.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	1	0	1	0
Staff-on-inmate sexual abuse	0	0	0	0
Total	1	0	1	0

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

Auditor Discussion Instructions

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

115.11	Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
	Auditor Overall Determination: Meets Standard
	<p data-bbox="229 192 1509 255">Auditor Discussion</p> <p data-bbox="229 255 1509 539">The facility policy, SCRCF 12.004.1, Prison Rape Elimination Act specifies zero tolerance of sexual abuse and harassment. The agency policy outlines the agency approach to preventing, detecting and responding to sexual abuse and sexual harassment. The agency policy specifically states that the MDOC zero tolerance policy "applies to staff members of the MDOC, County Regional Facilities and Private Prisons as well as volunteers and contract personnel who have contact with MDOC offenders." Interviews with both inmates and staff confirm that the policy is in practice and sexual safety is taken very seriously at SCRCF. The policy is very detailed and specific addressing every standard and all prohibited acts are clearly defined. The MDOC Regional PREA Coordinator and facility PREA Compliance Manager were both familiar with their respective responsibilities to ensure compliance to policies by staff.</p> <p data-bbox="229 539 1509 801">The organizational chart was reviewed by the auditor and the agency Regional PREA Coordinator was interviewed in addition to the facility Compliance Manager. The PREA Coordinator works for the agency and reports to the Agency Head and the Compliance Manager reports directly to the facility Warden. The auditor reviewed the memo designating the Compliance Manager for SCRCF. The SCRCF Compliance Manager indicated that she has sufficient time and authority to coordinate the facility's policy efforts to comply with the PREA standards as required. The agency addresses its policy against sexual abuse and sexual harassment in the Inmate Handbook, Staff PREA Handbook and an array of educational material provided to staff and inmates throughout the facility.</p> <p data-bbox="229 801 1509 920">Posters and information concerning PREA were displayed throughout the correctional facility and reviewed by auditor.</p>

115.12	Contracting with other entities for the confinement of inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>According to documentation provided and interviews with the facility leadership, the determination was made that this facility does not contract with other facilities to house inmates assigned to their custody. Per the agency's contract with MDOC, which is through the confinement of inmates designated to SCRCF, inmates will only be returned to the MDOC for housing. Therefore, SCRCF does not contract for the confinement of inmates. This standard was found to meet standards, although contracting for inmates is not applicable to SCRCF.</p>

115.13	Supervision and monitoring
	Auditor Overall Determination: Meets Standard
	<p data-bbox="242 210 453 237">Auditor Discussion</p> <p data-bbox="242 271 1493 365">Auditor reviewed all aspects of the staffing plan prior to site review and again onsite. The staffing plan itself operates under MDOC policies,-03-29, Review of Staffing; 06-02, Daily Population Report; 25-08C, Staffing Plan; 44-01, Building Codes; and is also supplemented with factors identified by facility Warden.</p> <p data-bbox="242 398 1469 490">The facility utilizes two 12 hour shifts consisting of security and supervisory staff in addition to 24 hours of extensive video monitoring. The video monitoring has a 29 day retention to allow for review of any alleged incidents reported. Each area of the facility is evaluated annually by the Warden to determine any blind spots.</p> <p data-bbox="242 521 1490 846">During the onsite visit, the plan was discussed with the Warden and it is noted that all aspects of the standard are considered when developing and reviewing the staffing plan. The facility has documented any deviations from the staffing plan. Any time the plan is not followed, the Chief of Security is notified, and it is documented. Shift rosters are reviewed to monitor shift coverage. The Chief Deputy for the Sheriff office confirmed that if there was a deviation from staffing plan, the Sheriff office would readily assist. The plan is reviewed annually by the senior members of the staff to include the PREA Compliance Manager and any recommendations are sent to the MDOC PREA Coordinator. In addition to facility staff review annually, the departmental PREA Coordinator also reviews the staffing plan. Intermediate and higher-level staff are required by facility policy to conduct and document unannounced rounds. This process was verified through inmate and staff interview as well as facility register logs titled Supervisor logs. In addition to routine rounds, the facility supervisors also make unannounced "PREA" rounds to ensure inmate safety. The facility meets requirements in this area.</p>

115.14	Youthful inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>SCRCF does not house youthful offenders. This standard is not applicable since SCRCF only houses adult inmates. This is documented by Pre Audit Questionnaire information, daily reports for population and interviews with upper management staff. Therefore, this meets standard.</p>

115.15	Limits to cross-gender viewing and searches
	Auditor Overall Determination: Meets Standard
	<p data-bbox="240 210 453 237">Auditor Discussion</p> <p data-bbox="240 271 1485 432">Policy covers the procedures for searches and is compliant with the mandates of this standard. This facility does not house female or youthful offenders in the state housing portion of the facility. The facility does not conduct cross-gender strip searches and/or cross-gender body cavity searches, and this was verified through staff and inmate interviews. Appropriate policies and training curriculums are in place to address cross-gender searches. There have been no exigent circumstances of cross-gender searching, but policies to address this, are in place as well.</p> <p data-bbox="240 463 1461 624">Training records/transcripts and staff interviews, confirmed that staff is receiving all training related to cross-gender searching, and the importance of the need for thorough documentation is prevalent. Established policies prohibit staff from searching or physically examining a transgender or intersex inmate for the sole purpose of determining the inmate's actual genital status. Although the facility has not housed a transgender inmate, all staff was knowledgeable of procedure to accommodate.</p> <p data-bbox="240 656 1485 719">SCRCF has implemented procedures and policy that allow inmates to perform bodily functions, showers and change clothes without being viewed by staff of the opposite gender.</p> <p data-bbox="240 750 1461 911">During the on site visit and tour of the facility, the auditor observed the privacy issues relative to the restroom, shower area and cross gender announcement when entering housing units. During the interview process, it was noted that staff acknowledged receiving training on conducting cross gender pat down searches. It was also noted during interviews that 100 percent of the offenders confirmed that cross gender announcements were made routinely. Staff of opposite sex are required to announce their presence prior to entering housing areas, and also this was observed during the tour.</p> <p data-bbox="240 943 1445 1064">There are 116 cameras strategically located through-out the facility to ensure inmate privacy, while maintaining a secure environment. Barriers in the toilet areas and in the shower area allow for inmate privacy, while not infringing upon good security practices. Lastly, interviews with inmates revealed no concerns with cross-gender viewing during shower and/or bathroom use.</p> <p data-bbox="240 1095 1437 1216">During the interview process, there were no concerns relating to cross gender viewing during showering or toilet use. All offenders interviewed voiced a feeling of safety at SCRCF, many referring to it as the "safest facility in Mississippi". It is unusual for every offender interviewed to voice a feeling of safety without hesitation. It was impressive to hear from the inmates that the facility makes every effort to ensure the environment is as safe as it could be.</p>

115.16	Inmates with disabilities and inmates who are limited English proficient
	Auditor Overall Determination: Meets Standard
	<p data-bbox="229 192 1509 255">Auditor Discussion</p> <p data-bbox="229 255 1509 353">Three inmates with Limited English were interviewed, one inmate with vision problems and five inmates with cognitive disabilities. All inmates voiced satisfaction that their needs were met and accommodations were provided to assist.</p> <p data-bbox="229 353 1509 542">Policies are in place to ensure that inmates with disabilities are equally able to benefit from the efforts of the facility to prevent and investigate any occurrences of sexual abuse or harassment. Additionally, inmates with problems communicating are able to benefit from the facilities available resources to ensure effective communication, regardless of language and/or level of understanding. The facility has three staff members who are fluent in second languages and each one of them have received training from the US Border Control regarding translator services. This is documented in the employee records.</p> <p data-bbox="229 542 1509 629">Agency policy prohibits the use of offender interpreters to gather information related to an allegation of sexual abuse or sexual harassment.</p>

115.17	Hiring and promotion decisions
	Auditor Overall Determination: Exceeds Standard
	<p data-bbox="240 210 453 237">Auditor Discussion</p> <p data-bbox="240 271 1481 398">The facility has assistance with local law enforcement to ensure checks are completed. New hires and employees applying for promotion are specifically asked about misconduct through a separate reporting form. Requests by employers, concerning former employees, is responded to by HR staff. By law, the facility is prohibited from providing any information concerning a substantiated allegation of sexual abuse or sexual harassment by a former employee.</p> <p data-bbox="240 432 1490 656">Policy reviews and interviews with HR personnel verified that this facility does not hire, promote or enlist the services of any contractor that may have contact with inmates, if the said party has committed or been convicted of any of the prohibited acts as defined in sections 1-3 of Standard 115.17(a), or had any incidents of sexual harassment. New prospective employees/contractors are subjected to criminal background checks through the NCIC System (every five years per policy). During record review and interview with the HR manager, it was determined that the facility completes background checks every three years. This practice exceeds not only what the policy requires but also exceeds what is required by the PREA standard. Upon assessment, the facility exceeds standard 115.17.</p>

115.18	Upgrades to facilities and technologies
	Auditor Overall Determination: Meets Standard
	<p data-bbox="244 210 453 237">Auditor Discussion</p> <p data-bbox="244 271 1469 365">There have been no major renovations during this reporting period. During the interview with the Warden, he indicated that all areas of the facility are reviewed annually to ensure camera placement is appropriate and designed to increase and enhance the facility's sexual safety. The facility recently upgraded the camera system.</p> <p data-bbox="244 398 1477 589">The facility reviews all areas including blind spots to determine the need for additional camera coverage on an annual basis. The video monitoring system installed has the clarity to monitor activities within the housing zones and other facility areas with clear lines of sight and coverage. The Control Center Officer has access and is assigned to monitor the 116 cameras. Staff as well as inmates confirmed during interviews that they felt safe and secure with the camera system. During the site review, it was obvious that almost every area of the facility can be viewed while still enabling the privacy of the inmates while dressing, showering and toileting.</p>

115.21	Evidence protocol and forensic medical examinations
	Auditor Overall Determination: Meets Standard
	<p data-bbox="240 210 453 237">Auditor Discussion</p> <p data-bbox="240 271 1453 465">The SCRCF investigator, Captain Eddie Rogers, is a certified law enforcement officer with the Stone County Sheriff Department. The investigator is responsible for criminal and administrative investigations. A uniform evidence protocol is used during the investigative process that maximizes the potential for obtaining usable physical evidence. Any reports of criminal violations are immediately submitted to the District Attorney office for prosecution. The PREA referral form is completed and it is clearly indicated on the form that communication regarding investigation is shared with the facility Warden.</p> <p data-bbox="240 499 1465 591">Verified in interviews and through documentation, the individuals conducting the investigation has received the required specialized training. In the case of an investigation determined to be administrative, the Warden and Chief of Security work together to investigate the incident.</p> <p data-bbox="240 624 1430 680">There have been no forensic medical exams conducted in the past 12 months due to there being no incidents requiring exam.</p> <p data-bbox="240 714 1465 804">The facility nurse does not conduct forensic work as part of her practice, anyone who alleges sexual assault will be offered access to forensic examination at no cost at Stone County Memorial Hospital, where a SAFE/SANE is available to conduct exams.</p> <p data-bbox="240 837 1465 965">A trained victim advocate is made available as documented in an MDOC Memorandum of Understanding with the Mississippi Coalition Against Sexual Assault (MCASA). According to the MOU, the service provides for the advocate to be designated as the statewide DOC Victim Advocate. The contact for the advocacy service is provided in every housing unit posting.</p>

115.22	Policies to ensure referrals of allegations for investigations
	Auditor Overall Determination: Meets Standard
	<p data-bbox="242 210 451 235">Auditor Discussion</p> <p data-bbox="242 271 1485 360">The interview with the investigator indicated the Sheriff's office and the facility work together to maintain compliance with this standard, especially as they both are part of the Sheriff's Department. The communication between the facility administration and the Sheriff office is commendable and beneficial to both entities.</p> <p data-bbox="242 396 1485 521">There was one incident of alleged offender on offender sexual assault and one incident of staff sexual harassment. Both incidents were investigated immediately and neither found to be substantiated. During interview with Investigator information was relayed regarding the incidents and how the conclusion was determined. Although neither case required referral for prosecution, the Investigator was extremely knowledgeable regarding the process of referral for Substantiated cases.</p> <p data-bbox="242 557 1485 683">Agency policy mandates immediate initiation of an investigation following an allegation of sexual assault. The policy states the agency shall follow a uniform evidence protocol when conducting the investigation. The MDOC policies applicable to this procedure are 20-14-01, PREA; 12-01, CID Inspections and Investigations; 12-04, MDOC notifications of incidents of CID; 12-05, Criteria for CID Investigations; all assist with ensuring referrals of investigation are conducted according to policy.</p> <p data-bbox="242 719 1485 871">This standard was addressed in SCRCF policy, the PAQ, and during an interview with the investigative staff. All allegations of sexual abuse and sexual harassment reported by inmates, staff, third party, volunteers and/or contractors must be submitted to the proper investigative staff for investigation. All requirements of the standard are outlined in the policy published on the Mississippi Department of Corrections website as required. In addition, the facility publishes the information in the local newspaper on an annual basis. The facility provided copies of newspaper notification for the auditor to review.</p>

115.31	Employee training
	Auditor Overall Determination: Exceeds Standard
	<p data-bbox="240 210 453 237">Auditor Discussion</p> <p data-bbox="240 271 1458 333">Prior to the onsite portion of the audit, the auditor reviewed the training curriculum in addition to employee training rosters. While onsite, the audit reviewed additional rosters indicative of all staff completing the agency required training.</p> <p data-bbox="240 362 1485 622">All full and part time staff at SCRCF receive PREA training upon being hired, as well as annual refresher courses on the specifics outlined in this standard, in addition to first responder training. All staff have received the required annual refresher training, during the last twelve months. It is apparent, based on interviews and documentation reviews, that staff receive initial PREA training and are aware of their responsibilities and role in preventing sexual abuse and harassment incidents, in addition to appropriate evidence collection requirements. All training is tailored based on the all-male inmate population and documentation reviews reveal that staff understand the training that is received. Documentation reviews also reveal that training records and staff training transcripts are maintained in the appropriate human resources individual/facility files on site.</p> <p data-bbox="240 651 1477 882">Staff was extremely knowledgeable regarding the PREA process at SCRCF, regardless if they had been employed twenty years or 4 months. The facility not only conducts annual inservice training for PREA but MCASA also holds and annual training for all staff. The facility also provides every employee with a PREA card with the 1st responder duties on the card. Furthermore, the cards are specific to the discipline of the employee to eliminate any confusion or delay in response. It was evident that officer training is a priority at SCRCF and exceeds the required standard for employee training. Based on the articulation of knowledge from staff regarding the mission of PREA, first responder duties and recognizing signs and symptoms of abuse, the facility exceeds the requirement for this standard.</p>

115.32	Volunteer and contractor training
	Auditor Overall Determination: Meets Standard
	<p data-bbox="231 190 1508 257">Auditor Discussion</p> <p data-bbox="231 257 1508 582">All contractors and volunteers who may have inmate contact receive training on their responsibilities regarding the facility's sexual abuse and harassment prevention, detection and response policies and procedures. All contractors and volunteers received the required initial training. During the onsite portion of the audit, training records and signed acknowledgment forms were reviewed by the auditor. The interview with the religious volunteer verified that the training received covered the responsibilities in regard to the agency's zero tolerance policy of sexual abuse and harassment, how to avoid inappropriate relationship with inmates, prevention, detection and response of sexual harassment or sexual abuse. The information for mandatory reporting and appropriate reporting avenues was also taught and understood by the volunteer. The facility has a confidentiality agreement in addition to the volunteer program curriculum. The curriculum includes all relative aspects of the standard incorporated into the training.</p>

115.33	Inmate education
	Auditor Overall Determination: Meets Standard
	<p data-bbox="240 210 453 237">Auditor Discussion</p> <p data-bbox="240 271 1477 365">Before arriving at SCRCF, all inmates are required to receive the PREA-required education and information concerning sexual safety to include reporting, response and retaliation. The information is provided at the MDOC Reception Center and the training/education is documented in the MDOC electronic inmate files.</p> <p data-bbox="240 398 1493 555">During intake process at SCRCF, inmates receive information explaining the zero-tolerance policy and how to report incidents or suspicions of sexual abuse or harassment. In addition, all new intakes are shown an educational video regarding PREA.. The Intake officer and the Nursing staff are both involved in the intake assessment to determine risk for victimization. Upon arrival, every inmate has already completed the detailed assessment at the reception unit and are reassessed when they arrive to SCRCF.</p> <p data-bbox="240 589 1461 683">There are adequate postings and signage strategically located throughout the facility, readily and continuously available in English and Spanish if needed. Random inmate interviews indicated that inmates have knowledge of PREA as well as acknowledgement receiving the education at the Reception Unit prior to arriving at SCRCF.</p> <p data-bbox="240 716 1493 869">Upon review of inmate files, training curriculum, inmate handbook and PREA pamphlet, it is determined that the facility meets each subsection of this standard. The inmates are receiving PREA education and their Handbook upon arrival to the facility at intake. Each offender also has access to the PREA information from the kiosk in the dormitory. During interviews, it was evident the facility is providing ample education to each offender upon arrival and throughout the duration of the incarceration.</p>

115.34	Specialized training: Investigations
	Auditor Overall Determination: Exceeds Standard
	<p data-bbox="231 190 1508 257">Auditor Discussion</p> <p data-bbox="231 257 1508 748">At SCRCF, Captain Eddie Rogers, is identified as the Lead Investigator for all administrative and criminal investigations. Facility policy, training curriculum records and interviews reveal that the investigative staff receive not only the generalized training that other staff receive, but also specialized training in conducting investigations in a confinement setting. Examples of this specific training received are: interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collections in a confined setting, and the criteria and evidence required to substantiate a case for administrative action and/or prosecution referral. All training documentation is maintained by the facility and it is noted that the training received exceeds requirements for this standard. All trained individuals are extremely knowledgeable of the investigative process and their level of expertise in investigations is very beneficial to this facility. The investigator and facility staff both stated during interview process the lines of communication between the two parties are always open. Although the facility is small, with limited resources, the investigative services are clearly a priority. Captain Rogers not only completed the NIC Specialized training for Investigators but also attended the Mississippi Law Enforcement Academy. Captain Rogers is a sworn deputy and has an extensive and impressive knowledge regarding the investigative process. Due to his qualifications, knowledge and continued desire to seek supplemental investigative training, the facility exceeds the requirement of this standard.</p>

115.35	Specialized training: Medical and mental health care
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Mental Health Services are provided through the Mississippi Department of Corrections, not in an RCF, and an offender requiring such services would be transferred back into the State prison system. Any inmate in need of mental health services would be transferred on an emergent basis and would have the possibility of returning, depending on the reason for transfer.</p> <p>Per the organizational chart, 2 medical staff are employed at SCRCF. Both have received appropriate training on how to detect and assess signs of sexual abuse and sexual harassment; how to preserve physical evidence of sexual abuse, how to respond effectively and professional to victims of sexual abuse and harassment. There are no forensic examinations conducted at SCRCF.</p>

115.41	Screening for risk of victimization and abusiveness
	Auditor Overall Determination: Exceeds Standard
	<p data-bbox="229 192 1509 255">Auditor Discussion</p> <p data-bbox="229 255 1509 501">The PAQ reports all inmates entered the facility within the last 12 months and all were screened for risk of victimization and abusiveness upon their arrival. The inmate is screened upon arrival by the Intake officer. As required by the policy and standard, all inmates are screened upon intake at the MDOC Reception Facility for their risk of being sexually abused by other inmates or being sexually abusive toward other inmates; they also receive their first reassessment there since they are normally there for at least 30 days. The screening assessment considers whether the inmate has a mental, physical, or developmental disability, age, build, previous incarceration, prior sex offenses, criminal history, previous victimization, and whether the inmate is detained solely for civil immigration purposes.</p> <p data-bbox="229 524 1509 725">Policy prohibits inmates from being disciplined for refusing to answer assessment questions, or for not providing information in response to the screening tool questions. All information is secured appropriately on a limited access bases, with sensitive information strictly off limits to line staff or other inmates. Information gathered during the assessment, is privileged to staff making housing, work, or program assignments. At any time an inmate feels unsafe for any reason, he has the option to complete a Red Tag form that will ensure he is no longer housed with the subject of his complaint. This information is made a part of his permanent record, easily accessible if he transfers to another facility within MDOC.</p> <p data-bbox="229 748 1509 860">Screening is accomplished promptly, within the first twenty four hours after arriving at SCRCF. In accordance with applicable policies and standards, the reassessment tool considers prior data, along with any new information that may have been received.</p> <p data-bbox="229 882 1509 1039">The facility exceeds the requirement for this standard. The intake officer was extremely knowledgeable about PREA and the screening tool. She readily articulated the intake process and was adamant that if there was any suspicion or indicators that the inmate needed additional review, he would not be moved from booking until additional review was completed. Not only is the inmate immediately assessed by the booking officer upon intake, but again within 2 weeks. The inmates are seen again within the first 14 days of arrival by the nurse and asked questions specific to PREA to determine safety concerns, etc.</p>

	Auditor Overall Determination: Meets Standard
	<p data-bbox="240 210 453 237">Auditor Discussion</p> <p data-bbox="240 271 1493 365">Based on policy mandates and confirmed through staff interviews, SCRCF accumulates information learned during the intake process, along with information gathered during the initial risk screening at the Reception Center and has done this for all inmates received during the past year.</p> <p data-bbox="240 398 1453 524">If there was an inmate that is identified as high risk either during intake, the senior staff would be notified and an individualized determination of how to ensure the safety of each inmate would be decided. According to intake staff and verified through Warden, the inmate would remain in the booking area until a decision for housing was made. The facility can opt to either transfer the inmate back to the state facility or separate in housing and work assignments.</p> <p data-bbox="240 557 1474 748">Typically, transgender or intersex inmates are not assigned here but reside at a state institution with more resources for housing and programming to ensure these inmates' health and safety. In the event that a transgender or intersex would be assigned to SCRCF, policy states that all assignments would be reassessed twice yearly to review safety, with the inmate's own views of safety given serious consideration and this understanding. This information was verified through interviews with upper management staff. Although the facility has not received transgender or intersex inmates, facility policy provides the opportunity to shower separately from other inmates and facility staff were familiar with this requirement.</p> <p data-bbox="240 781 1485 875">It was also evident during staff interviews that training regarding the transgender population is present. Although they do not have any transgender inmates, each staff member interviewed were able to describe search method and specifics of the training received.</p>

	<p data-bbox="229 192 1509 255">Auditor Discussion</p> <p data-bbox="229 255 1509 421">There were no instances of use of involuntary segregated housing in the past 12 months for inmates at risk of sexual victimization. SCRCF policy does outline procedures to ensure inmates at risk of sexual victimization are not placed in involuntary segregated housing unless an assessment of all available alternatives has been made. The inmates who reported an allegation during the review period were not state inmates and were not placed in involuntary segregation.</p> <p data-bbox="229 421 1509 506">Involuntary segregation is rarely used at an RCF. Inmates placed in involuntary segregation do not ordinarily remain for more than 24 hours pending transfer. Reviewing practices and interviewing inmates indicated the policy was being followed.</p>

	Auditor Overall Determination: Meets Standard
	<p data-bbox="229 192 1509 255">Auditor Discussion</p> <p data-bbox="229 255 1509 622">According to policy, any staff member receiving a report is required to verbally report that immediately and provide a written report prior to the end of that shift. All interviews with staff indicated this procedure is understood and would be followed in the event of an allegation. The information for the external agency is posted throughout the facility and listed in the inmate handbook; all inmates interviewed were aware of the telephone number posting. Inmates may remain anonymous by using the external agency or by submitting an anonymous letter. Staff knew the methods to report and all interviews stated that they would be comfortable doing so. The agency allows third parties to submit reports of allegations of sexual abuse/harassment on behalf of inmates. There are several different avenues provided to the inmate population for reporting purposes. These services include mail, free telephone services to internal offices and external agencies, and directly to any staff member or third party who may report back to the facility. Staff is readily available to the inmate population to receive any complaints.</p> <p data-bbox="229 622 1509 703">The facility has an avenue for reporting which includes the inmate being able to access a kiosk within their housing units to report any allegations.</p>

	<p data-bbox="240 210 453 237">Auditor Discussion</p> <p data-bbox="240 271 1485 499"> SCRCF is not exempt from this standard and has procedures in place to address inmate grievances regarding sexual abuse. However, there have been no reports of sexual abuse or sexual harassment from state inmates. Therefore, no grievances have been filed. SCRCF policy addresses the administrative remedy process to be utilized. SCRCF is required by the MDOC to forward all inmate grievances to MDOC for acceptance and review. MDOC will then provide response to SCRCF. The procedure for filing a grievance is located in the inmate handbook and the agency policy. There is no designated time limit in which a grievance can be filed regarding an allegation of sexual abuse, harassment or retaliation. SCRCF policy prohibits the grievance of sexual abuse to be submitted to or referred to the subject of the complaint. </p>

115.53	Inmate access to outside confidential support services
	Auditor Overall Determination: Meets Standard
	<p data-bbox="242 210 451 237">Auditor Discussion</p> <p data-bbox="242 271 1484 432">The agency maintains a state wide agreement with rape crisis centers throughout the state to address emergent and crisis centered issues. All contacts are confidential. The facility provides the inmate population with access to outside victim advocates for emotional support services related to sexual abuse through the Mississippi Coalition Against Sexual Abuse by way of a Memorandum of Understanding with MDOC. Auditor observed the postings and confirmed knowledge of the information in the Inmate Random interviews. Auditor also contacted MCASA to confirm the requirements of the MOU.</p> <p data-bbox="242 465 1484 589">Mailing addresses and toll-free hotline numbers are provided to the inmate population. Outside and third-party reports can be sent to the advocate office and can be completely confidential. Information or requests can be received by mail or telephone. No identifying information is required for the office to act and become involved in an alleged incident or need or to provide direct service to the inmate.</p> <p data-bbox="242 622 1484 712">The PAQ indicates that there have been no reports, no requests for advocacy, and no incidents occurring at SCRCF in the past year involving state inmates. All inmates interviewed were knowledgeable about hotline and it is readily visible in all housing units.</p> <p data-bbox="242 745 1484 835">All phones in the housing areas were tested and were found to be working properly. The inmates were not only knowledgeable that there was a reporting method in place but could also articulate the exact numbers to use in the event of an assault. Each time an inmate picks up the phone, the prompt provides the option to connect to report sexual assault.</p>

115.54	Third-party reporting

	<p data-bbox="229 192 1509 255">Auditor Discussion</p> <p data-bbox="229 255 1509 539">Third party reporting information is readily available to all inmates through the intake process. The contact information for the Mississippi Coalition Against Sexual Abuse (MCASA) is provided to the general public on the MDOC website, as well as in the handbook and on postings in the telephone areas in the inmate zones. In addition, the notification is also posted in the visitation area, readily available to all visitors for third party reporting options. All reports are taken seriously, regardless of the reporting method. Each allegation is investigated immediately upon receipt of the information. The MDOC information posted in all units indicates the ability and information needed to report this type of incident to MDOC central office staff as well.</p>

Random staff interviews verified staff awareness of their responsibility for the immediate reporting requirement. Staff readily articulated knowledge of the confidential nature of allegations, with the only exception being treatment or investigative process. All staff interviewed stated they would also feel comfortable reporting to the Warden, Chief of Security and PREA Compliance Manager.</p> <p data-bbox="229 524 1509 663">Facility requires all staff, to include medical practitioners, to report immediately any knowledge, suspicion, or information regarding an incident of sexual abuse or harassment or retaliation. No reports were confirmed by the Agency Head or the Chief of Security. No staff interviewed could recall any sexual incidents in recent past. Extensive training concerning this topic was evident throughout all interviews at the facility. Random questions to staff during the site review gave the same results and that they were aware of the steps and processes required.</p> <p data-bbox="229 568 1509 663">If necessary, in order to protect an inmate, SCRCF can transport predatorial inmates to an MDOC parent facility where more housing and treatment options would be available if needed.</p>

115.63	Reporting to other confinement facilities
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Agency and facility policy require reporting to the appropriate personnel upon receiving an allegation that an inmate was sexually abused while confined at that facility, in order to ensure it was investigated.</p> <p>There was one incident that was received by staff and SCRCF appropriately notified other institution. The allegation had already been reported and investigated at the time of the original complaint.</p>

115.64	Staff first responder duties
	Auditor Overall Determination: Meets Standard
	<p data-bbox="229 192 1509 255">Auditor Discussion</p> <p data-bbox="229 255 1509 582">Per the PAQ, the agency first responder duties are listed in the SCRCF policy. There was one allegation of sexual abuse received in the past 12 months which was determined to be unfounded. SCRCF policy outlines the specific procedures for all staff to respond to an allegation that an inmate was sexually abused in accordance with the standard. All facility staff are trained as first responders and have knowledge of their expected responsibilities to include protection and separation, evidence preservation and collection, medical assessment and treatment if needed. Staff have received required training specific to these duties as confirmed through training rosters as well as staff interviews. All staff interviewed were very knowledgeable regarding the first responder duties, despite not ever having a PREA incident. The facility ensures staff is fully prepared to respond in the event of a sexual assault by providing a PREA first responder card for all employees and contracted part time employees.</p>

The facility has an institutional plan for staff to response to an incident of sexual abuse and a checklist to ensure all protocols have been followed. The plan essentially follows a checklist to ensure all required actions were taken. Interviews with Specialized Staff and intermediate level managers confirmed that all were knowledgeable concerning the response plan and the specific duties. Policy provides specific details in the plan of actions to include staff notification, the protocol for response, collection of evidence, etc. A report has to be submitted to agency PREA Coordinator within ten days of incident occurrence.</p>

115.66	Preservation of ability to protect inmates from contact with abusers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The facility staff have the ability to move any inmate to a safe cell or segregation areas that is suitable for the protection of the inmate at high risk for sexual victimization. There are no current agreements that limit the agency's ability to remove a staff abuse from having contact with inmates during the course of an investigation. In the event an employee violates the SCRCF policy regarding sexual abuse and harassment, the employee could be subject to disciplinary sanctions up to termination.</p>

115.67	Agency protection against retaliation
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>There were no incidents for state inmates that require monitoring for retaliation. The PCM, who would be the designated employee to conduct monitoring, was interviewed. She was very knowledgeable regarding his responsibility as the retaliation monitor. She stated multiple factors would be considered when determining if an offender or employee was being retaliated against. Per policy, retaliation is prohibited and staff is aware of reporting requirements. The PREA Compliance Manager stated if retaliation was reported during the monitoring process, an additional investigation would be initiated.</p>

	<p data-bbox="244 210 453 237">Auditor Discussion</p> <p data-bbox="244 271 1474 398">Typically, an inmate would be transferred to a state MDOC facility for housing to ensure safety if necessary. Policy states that if segregation is used, it will be short term and will include programming and privileges. The use of segregation relative to PREA would only be used as a final alternative and would only be implemented for safety purposes. Interviews with the Warden, Chief of Security and PREA Compliance Manager confirmed this procedure and understanding of the policy.</p> <p data-bbox="244 432 1433 490">At SCRCF there have been no inmates placed in involuntary segregation for protection following an allegation of sexual abuse during the last 12 months.</p>

Captain Rogers has received specialized investigative training from more than one source and has an extensive employment history in law enforcement. All investigators and senior staff interviewed stated that any allegations found to be substantiated would be referred for prosecution and any departure of the alleged abuser or victim would not terminate the investigation. Facility policy requires that the credibility of an alleged victim, suspect or witness shall be assessed on an individual basis and not be determined by any inmate status.</p>

115.72	Evidentiary standard for administrative investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>SCCF policy discusses all components of the preponderance of evidence standard. When interviewing the facility designated investigator, he was able to adequately give examples of the burden of proof and preponderance for administrative cases. He understood that a standard no higher than preponderance of evidence is used when determining allegations of sexual abuse or sexual harassment is substantiated.</p>

115.73	Reporting to inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Per policy, SCRCF has the responsibility to inform the reporting inmate as to whether his allegation was determined to be substantiated, unsubstantiated or unfounded. Following an allegation that a staff member has committed sexual abuse against an inmate, the agency would inform the inmate in writing if the staff is no longer posted in the unit or no longer employed at the facility; and if they have been indicted or convicted.</p> <p>Higher-level staff and PREA agency staff indicated in their interviews they were aware of the requirement and the procedures to follow. The one inmate who reported an allegation was notified appropriately of the investigation outcome.</p>

	<p data-bbox="244 210 453 237">Auditor Discussion</p> <p data-bbox="244 271 1493 434">SCRCF policy requires that any contractor or volunteer who engages in sexual abuse be reported to law enforcement agency and to relevant licensing bodies. SCRCF takes appropriate remedial measures and considers whether to prohibit further contact with inmates in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer. During interviews with the Warden and HR director, it was noted there have been no contractors or volunteers reported to law enforcement in the past 12 months for engaging in sexual abuse of offenders at SCRCF.</p>

115.78	Disciplinary sanctions for inmates
	Auditor Overall Determination: Meets Standard
	<p data-bbox="231 197 1508 257">Auditor Discussion</p> <p data-bbox="231 257 1508 548">The agency investigates all incidents of inmate sexual abuse or sexual harassment. All incidents shall be disciplined and referred for prosecution, when warranted. In keeping with the agency's zero tolerance policy, perpetrators of sexual abuse shall be disciplined and/or referred for prosecution. Disciplinary sanctions will occur and will be based upon circumstances of the incident, inmate's disciplinary history and similar sanctions imposed on similar incidents. The facility will consider the mental health functioning of an inmate and will consult with mental health staff prior to implementing a sanction. The facility only disciplines an inmate for sexual contact with staff only upon finding that the staff member did not consent to the act. However, at the RCF an inmate found to be the aggressor would be transferred immediately to MDOC. All disciplinary sanctions would be imposed at the state facility through the disciplinary process.</p>

	<p data-bbox="244 210 453 237">Auditor Discussion</p> <p data-bbox="244 271 1485 465">The facility is compliant with this standard despite not having onsite mental health staff. Each inmate is required to complete the required screening when processed through the Reception Unit. While at the reception unit, each inmate is afforded the opportunity to access mental health and medical services within the first 14 days. Although there is no provision for mental health services at the RCF units, the nursing staff evaluates the inmate within 14 days with PREA specific questions on the screening. Informed consent is obtained during the medical screening intake. If necessary, an inmate in need of mental health services can be transferred to the state MDOC facility in accordance with his mental health needs.</p>

The policy all includes timely access to emergency contraception and sexually transmitted infection prophylaxis and that the victim bears no financial cost for treatment of services.</p> <p data-bbox="244 432 1422 517">Although emergency care may be provided at Stone County Memorial, if a situation required extensive or long-term treatment, the inmate would be transferred to a DOC prison with a larger medical or mental health unit for stability and treatment.</p>

115.83	Ongoing medical and mental health care for sexual abuse victims and abusers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>SCRCF policy addresses this standard. The agency requires the facility to offer appropriate mental health and medical evaluations to inmates who have been victimized in a correctional facility. Inmates are provided care at Stone County Memorial Hospital. All services provided to inmate victims are consistent with community care. The care is provided at no cost to the inmate.</p>

	<p>SCRCF reviews all data collected pursuant to this standard in order to assess and improve the effectiveness of the sexual abuse prevention. The facility will collect accurate, uniform data for every allegation of sexual abuse using the standardized instrument and set of definitions from the most recent version of the Survey of Sexual Violence (SSV) conducted by the Department of Justice. The facility maintains, reviews, collects, aggregates and provides all incident-based sexual abuse data to the Department of Justice by August 30th annually.</p>

115.88	Data review for corrective action
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>SCRCF policy mandates that all data collected is reviewed to improve the mission of prevention, detection and responding to all sexual abuse. An annual report is generated for the facility to compare the data from the previous year. All pertinent information is reviewed to ensure any necessary improvements are noted and implemented. The annual report is submitted to MDOC for inclusion in the departmental annual reporting and publishing on the agency website.</p>

115.89	Data storage, publication, and destruction
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The agency maintains all incident based data. The annual reports are accessible through the agency website. The link was provided to the audit team to review accessibility. All personal information is redacted from the reports. Agency policy and practice provides for secure retention of the data.

115.401	Frequency and scope of audits
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>SCRCF was extremely accommodating and provided access to any area of the facility that we requested. There was no wait time for staff or inmate interviews. All questions were answered immediately and the auditor was accompanied by Senior staff on the tour. All supplemental documentation that was requested by the auditor was provided by the Prea Compliance Manager prior to leaving the Onsite review. The auditor was able to interview staff and inmates informally throughout the site review and confidentially for the random and specialized interviews.</p>
